Foreword

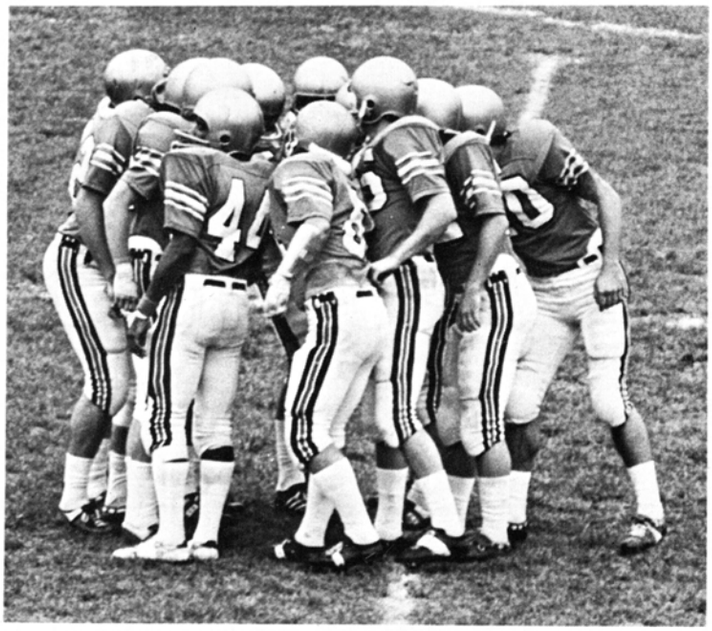

The University of Missouri at Rolla was created over 100 years ago as the Missouri School of Mines and Metallurgy. As part of the four campus Missouri University system, the Rolla campus offers degrees in Engineering, Mining and Metallurgy, and Humanities and Social Sciences. The past decade has seen the original buildings of MSM replaced by modern, efficient buildings of our growing university. UMR has survived periodical sporatic enrollment to become one of the countries top engineering schools and the largest engineering school west of the Mississippi. UMR offers a well rounded education supplemented with a fine intramural and varsity athletic programs, along with many diversified clubs that encourage campus involvement.

Engineering may be the answer in solving the many environmental problems important to society today. The University of Missouri at Rolla is producing the engineers to solve these problems.

-unknown Armenian autocrat

Don't Look Ethyl!

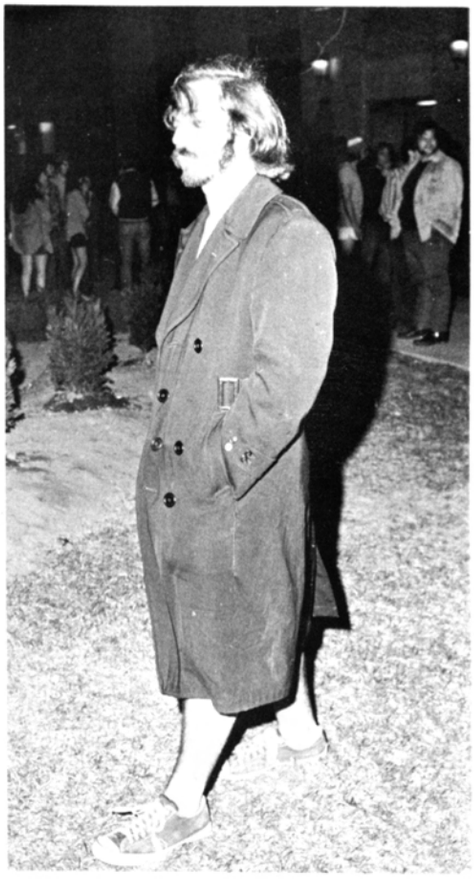

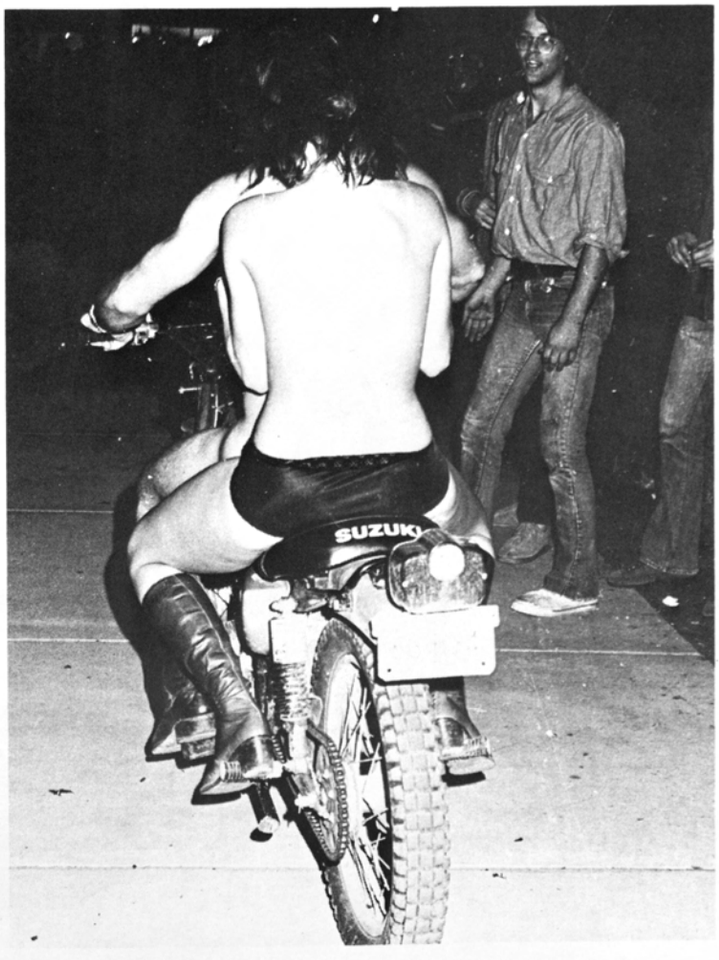

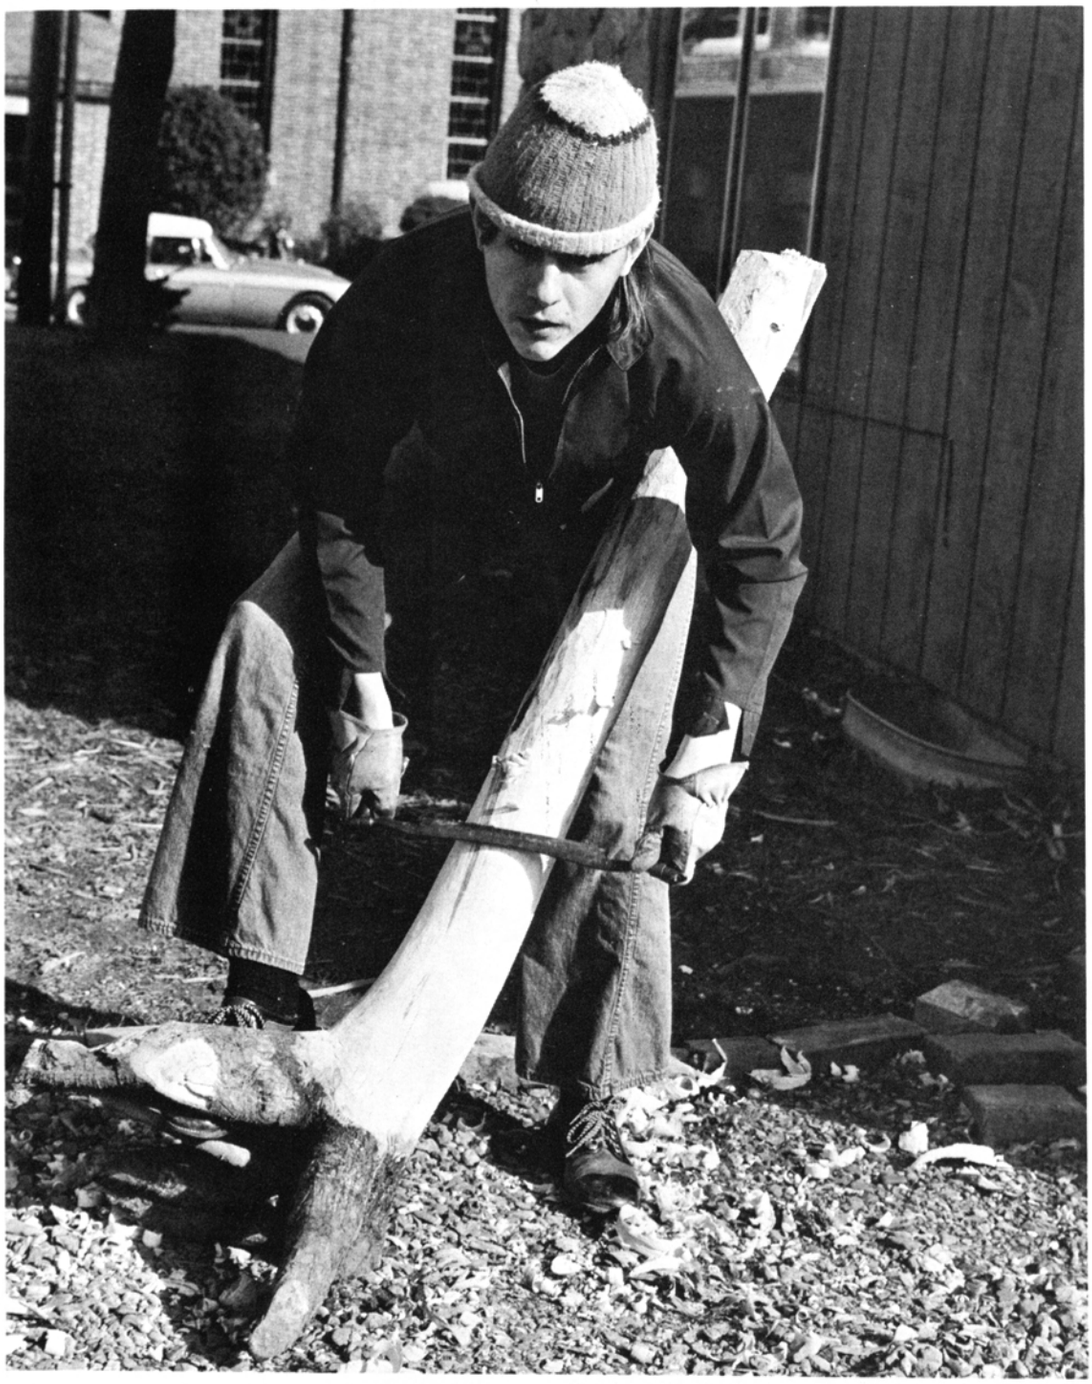

For a solid week in March hundreds of students, towns people, and young children crowded around the UMR quad to witness the latest college fad of "streaking". The week started with individual streaks, progressed with group and day streaks, and cumulated with exciting chariot streaks. Streaking at UMR brought the students and towns people closer together and established the real "Who's Who Among University and College Students" at UMR.

Merl Baker Steps Down

Dr. Merl Baker, first Chancellor of the University of Missouri at Rolla, stepped down after ten years of dedicated service to the university. Dr. Baker will be remembered for his work in acquiring the many new buildings and initiating various programs that have made our university one of the finest. Dr. Baker is a member of seven major professional societies and twelve honor societies. Dr. Baker also has had twenty-five articles published relating to Mechanical Engineering and engineering education. Among the many scholastic and community honors Dr. Baker has received, students will remember his 1968 honor as Knight of St. Patrick. Dr. Merl Baker has done much for the university and will be remembered as the first and one of the finest Chancellors of the University of Missouri at Rolla.

And Good Times

Many new Sights...

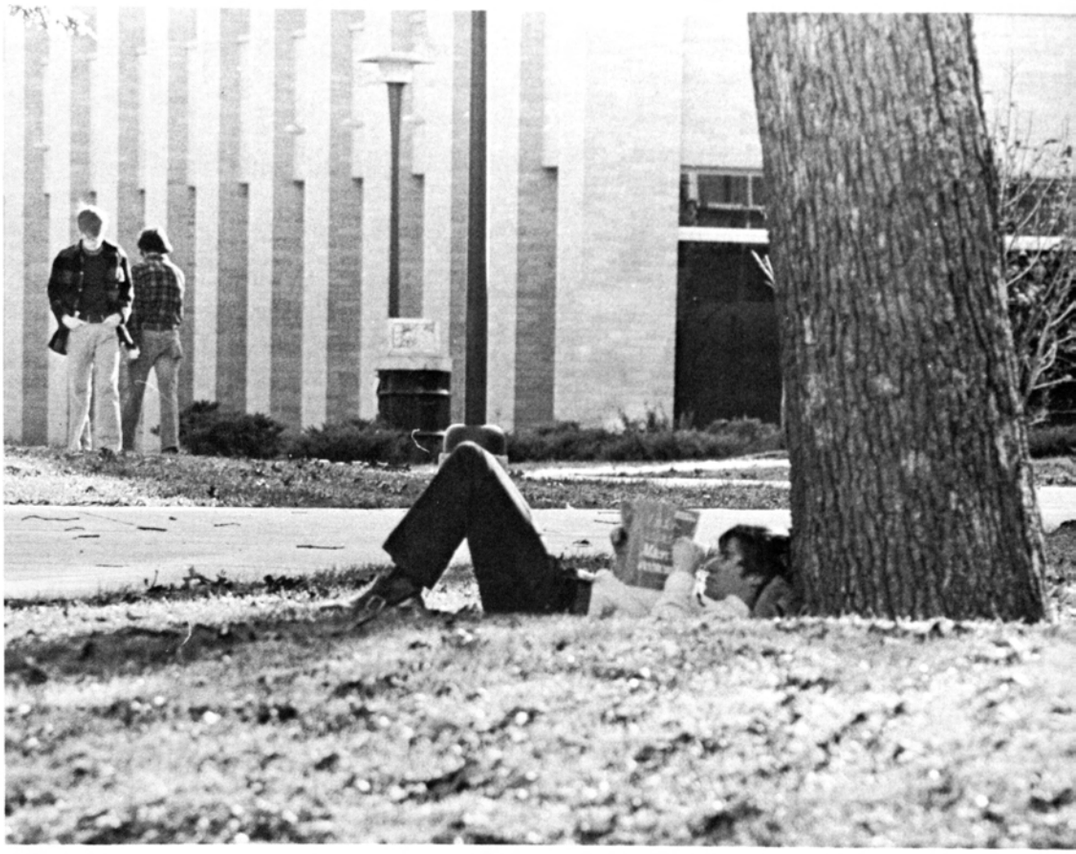

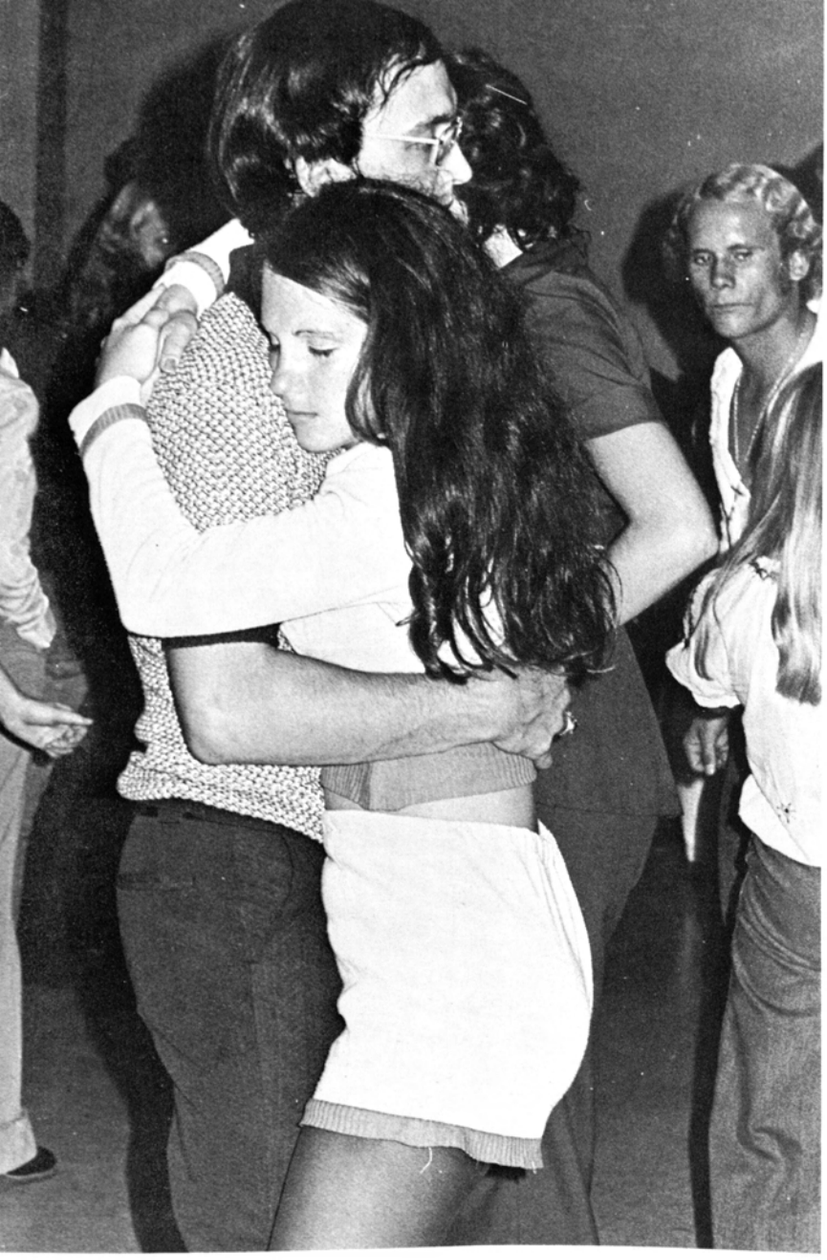

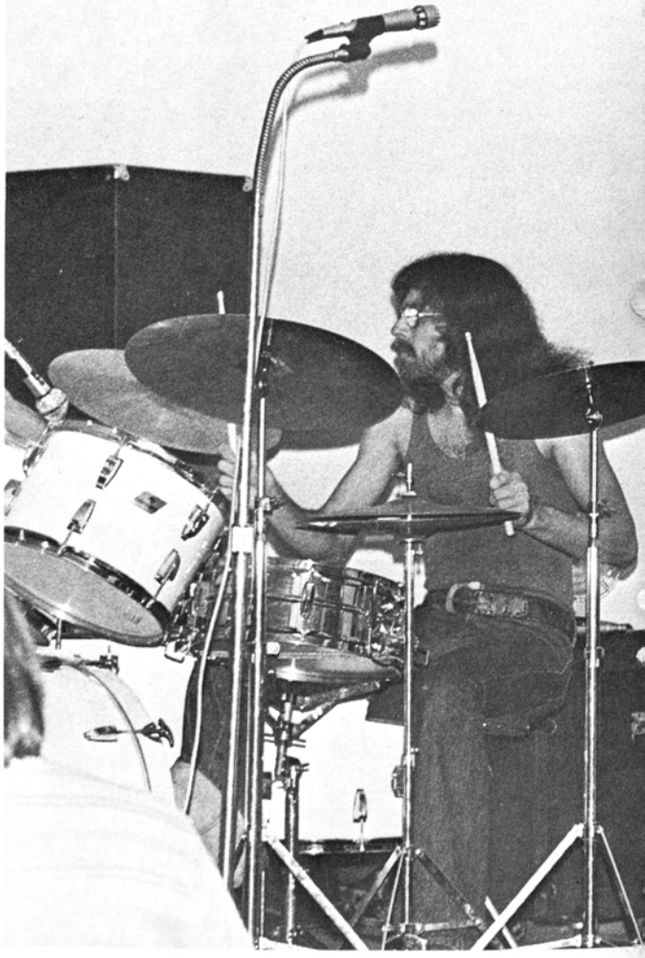

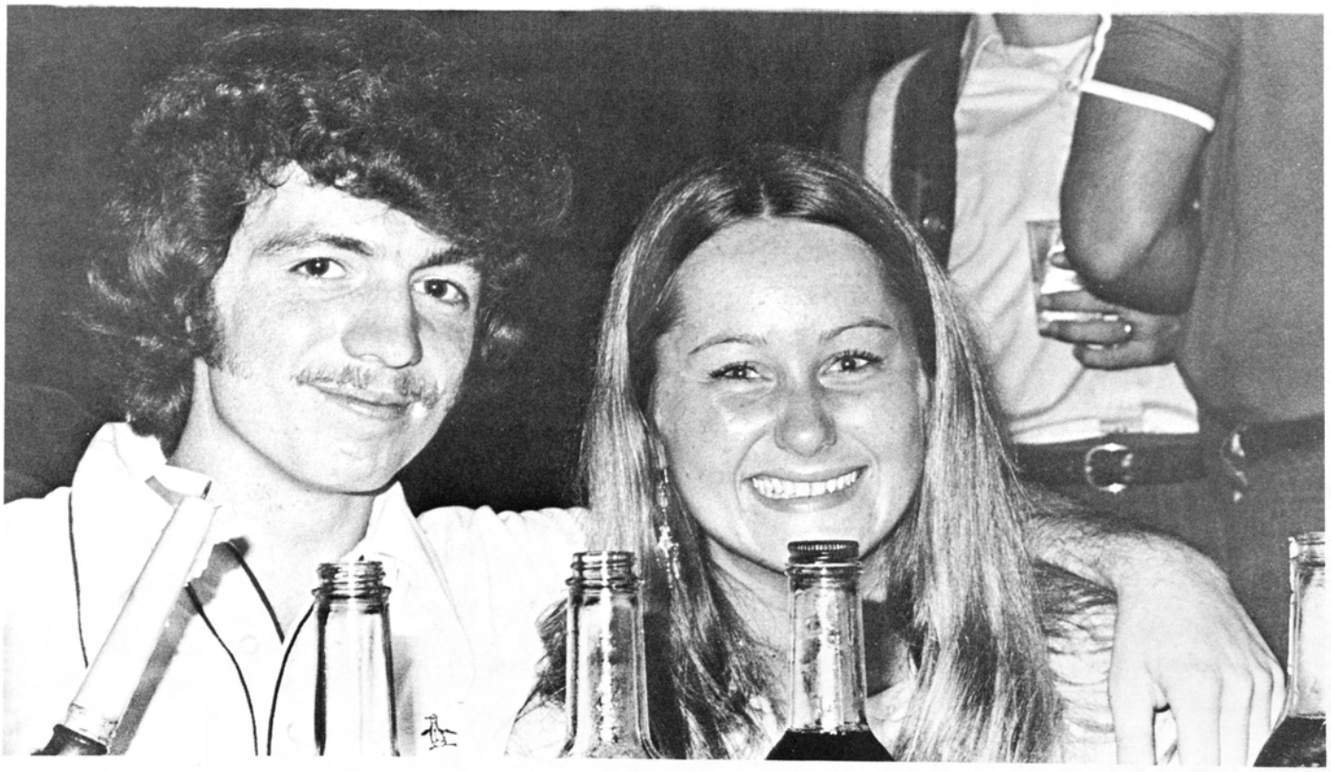

The 1973-74 school year once again started with a decrease in enrollment; with a reduction of 244 students. The new campus radio station, KMNR, didn't start broadcasting until late in the semester, the new Chemical Engineering building didn't open on time, and an upheaval of campus leadership took place as Merl Baker resigned. But all was not lost, for the Miners now had pinball machines, their beautiful new quadrangle finished, and KMNR finished up the semester by broadcasting 24 hours a day. So the Miners took on the new semester.

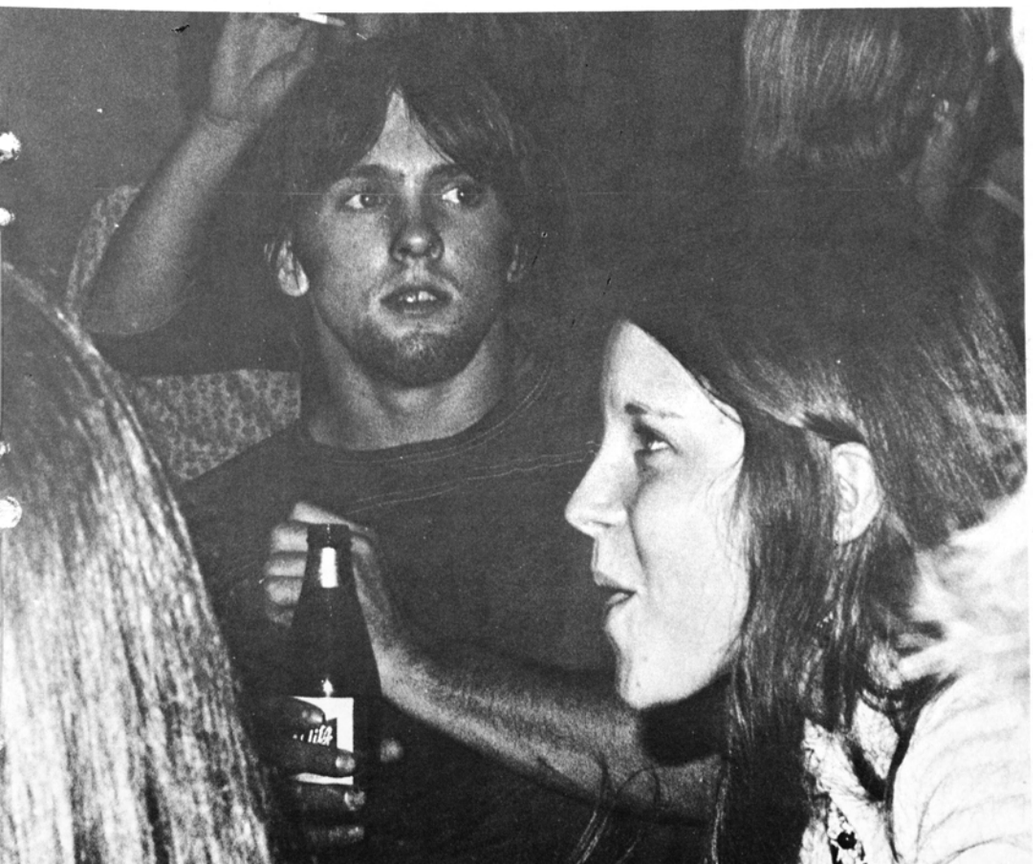

Miners together for 2nd All School Party

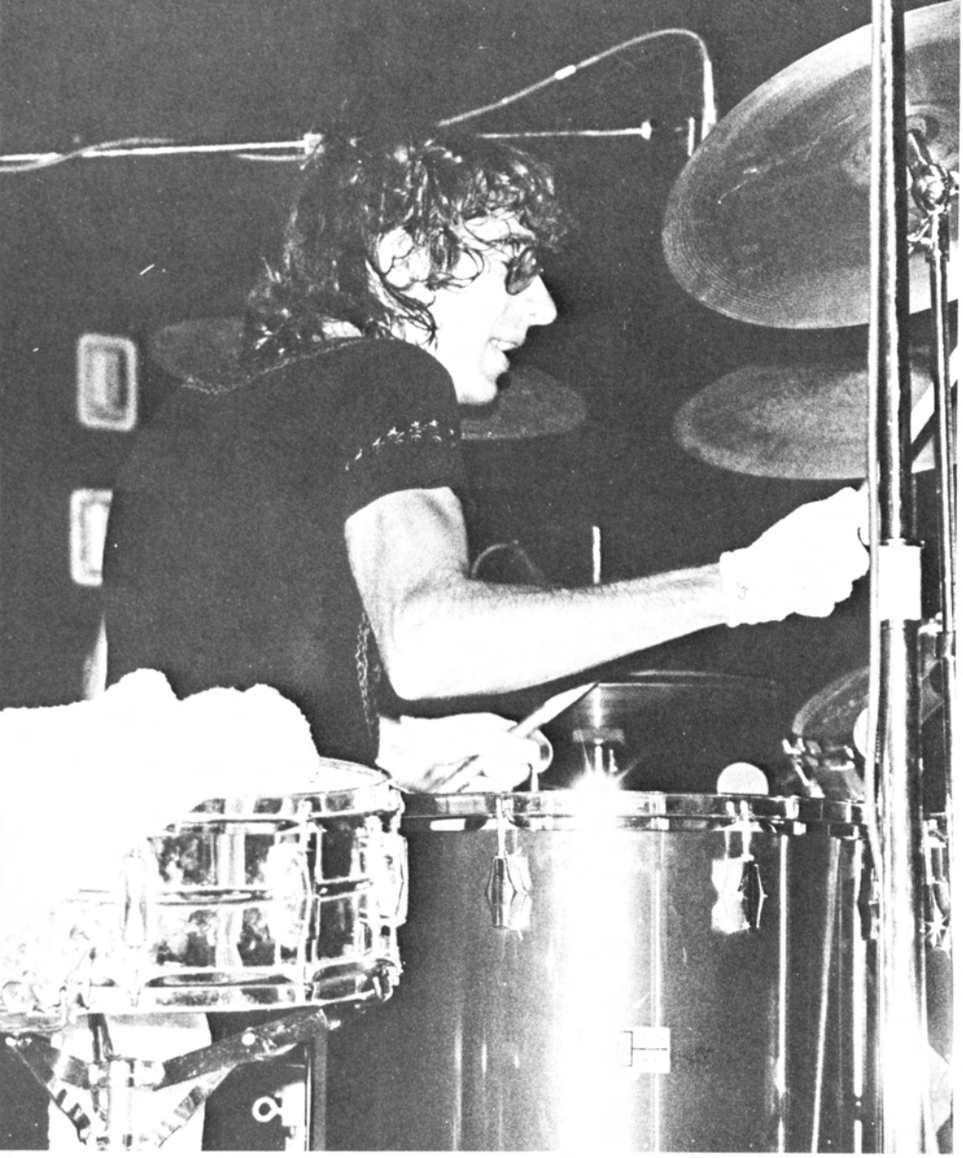

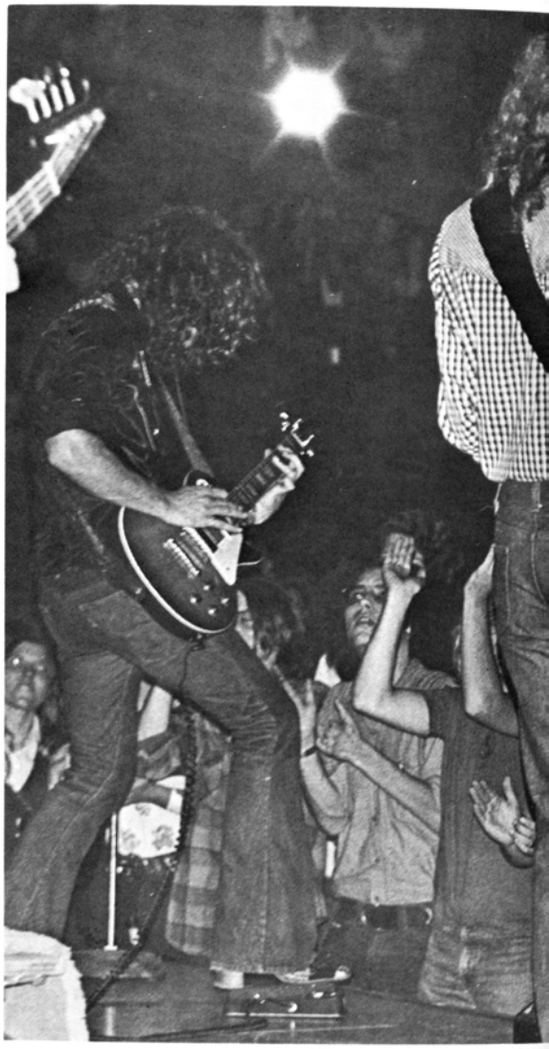

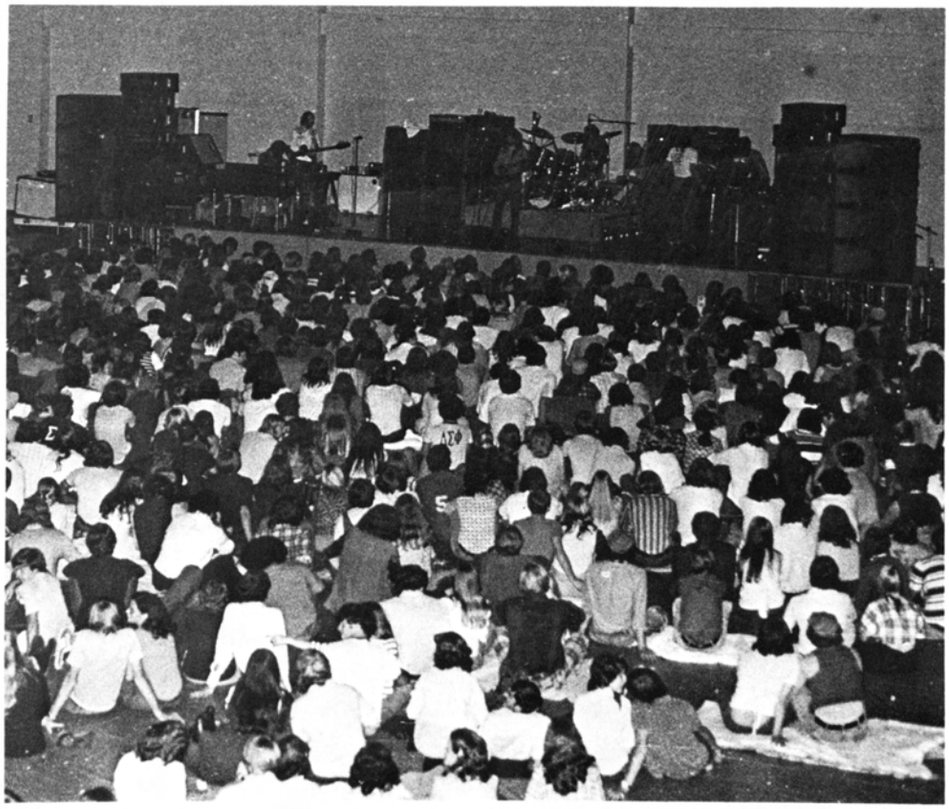

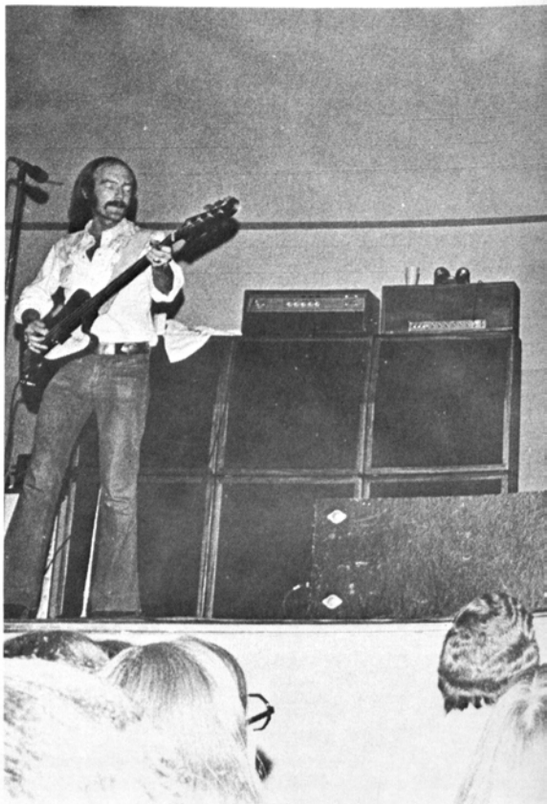

The second annual All School Party Weekend (Sept. 21-23) was a great success for all of those who participated. Friday started off with Rick and Anne Albin again coming back to UMR for a workshop and concert that all enjoyed. Friday was also the setting for a street dance organized by most of the fraternities and sororities on campus for anyone and everyone. Then Saturday night GDI organized a dance at Echo Valley that was also a campus wide affair.

Great cooperation was shown by all the Miners in having fun on their 2nd All School Party Weekend.

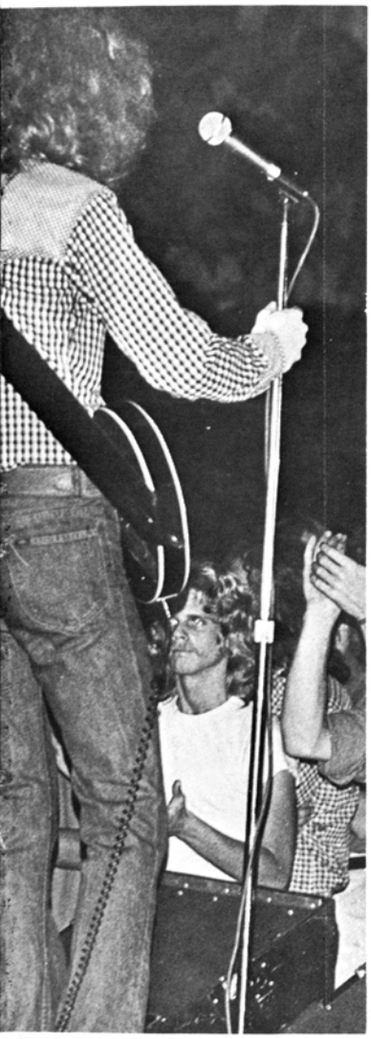

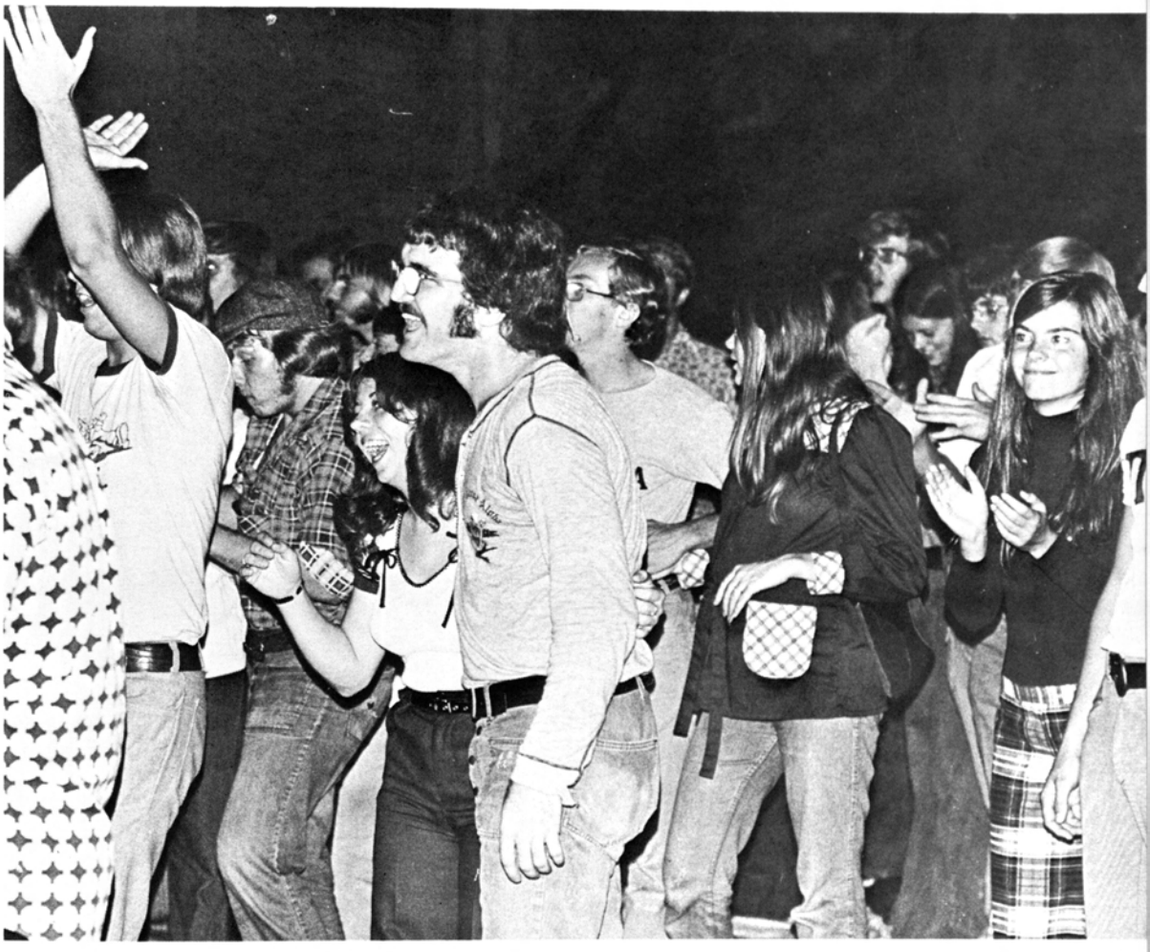

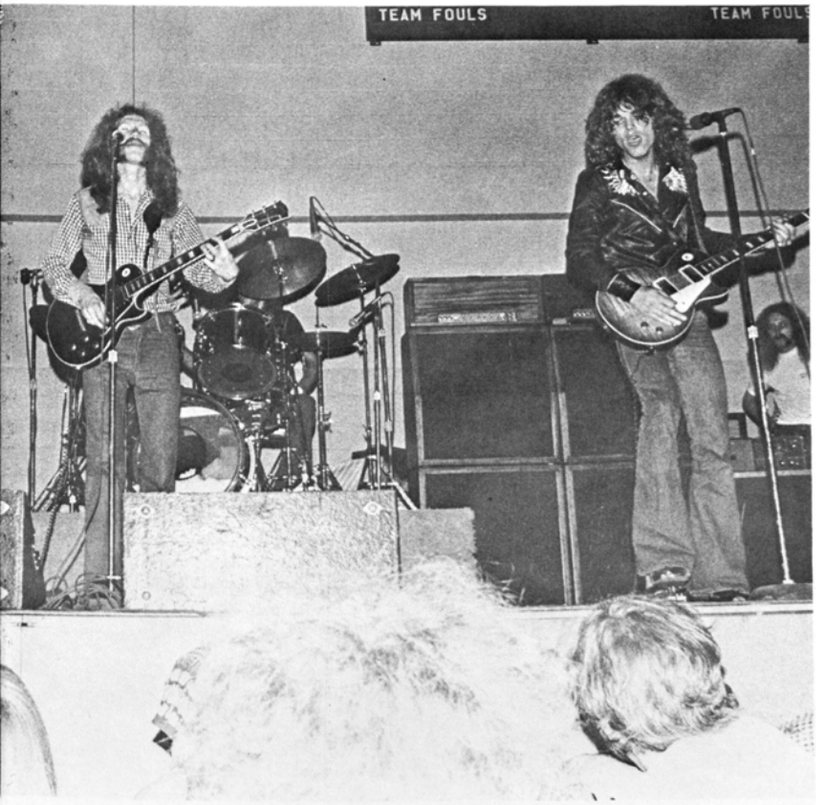

R.E.O. Speedwagon

Saturday evening of 1st Party Weekend a large crowd of Miners received an excellent concert put on by REO Speedwagon. They performed many of their favorite songs and quite a few others, the crowd enjoyed everything that was played.

Albins Return

Dick and Anne Albin always welcomed when they come to Rolla, (Sept. 21), brought along some new faces in Almeda Riddle and Annadeene Finley to help with both the workshop and concert. Both the workshop, which concerned many different aspects of folk music, and the concert, were held in Centennial Hall, and were greatly received.

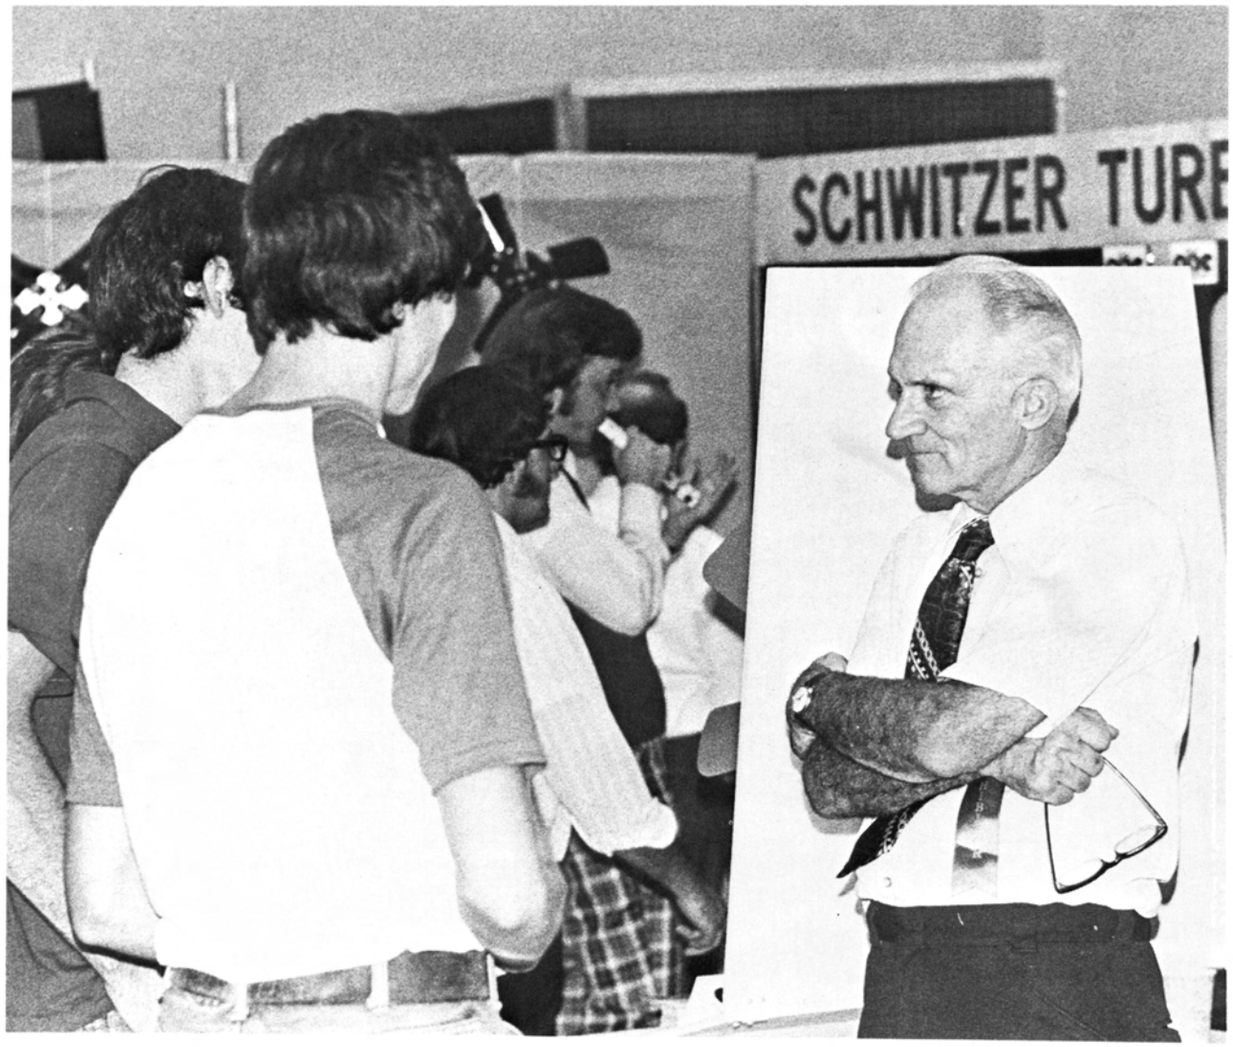

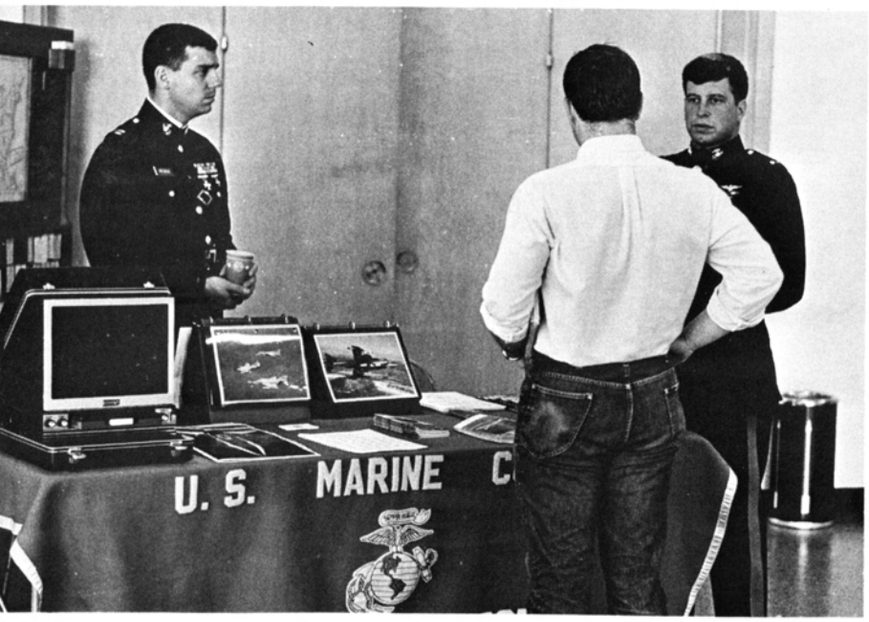

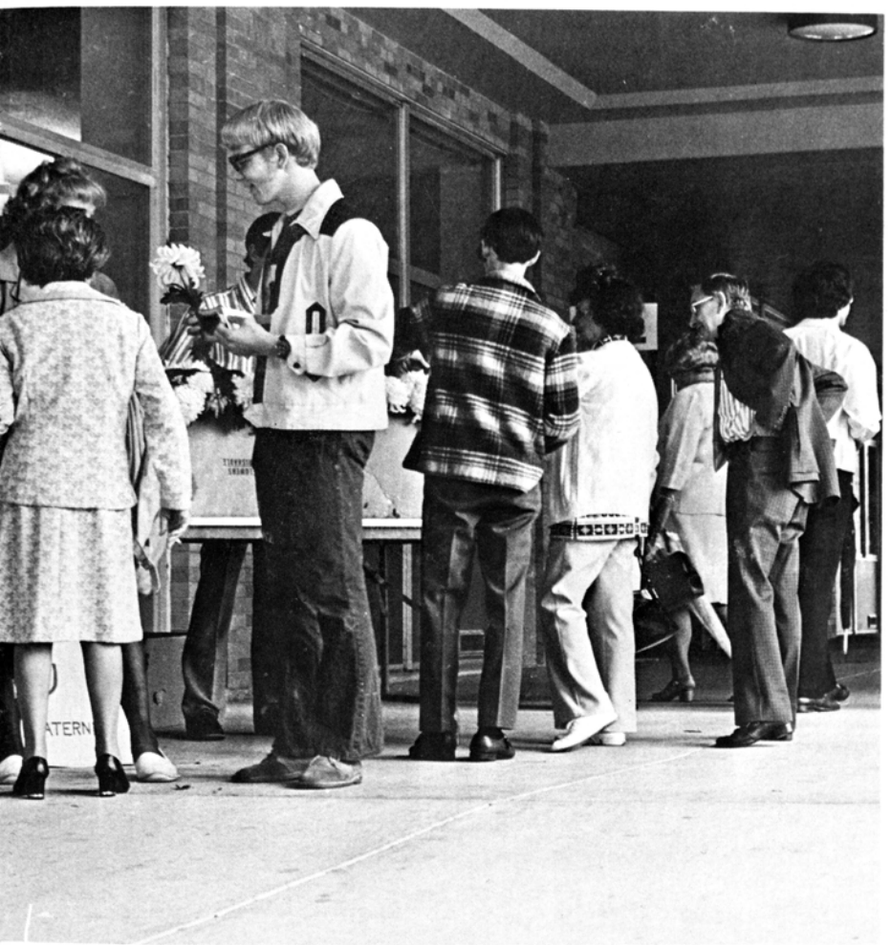

Industry Day

Parents Day

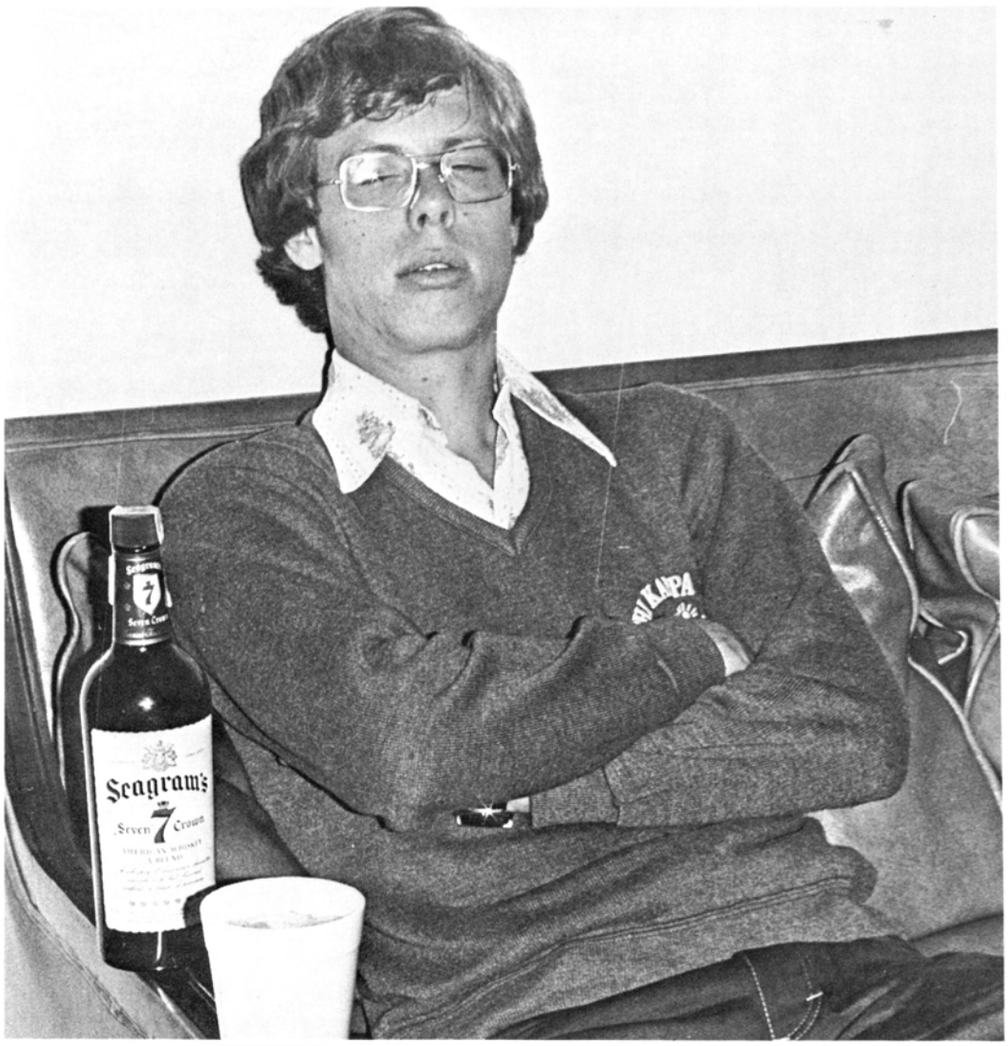

Industry Day, on October 2nd, was held by companies from all across the nation to give students a chance to find out a little information about the company, for possible summer or permanent employment, from both the displays and the representatives.

Parents Day gave to the parents what they wanted, a chance to see a little of all sides of the campus. Tours were given in the morning, while in the afternoon most were at the football game. That evening parents had an opportunity to see a faculty wives group give a performance of "See How They Run". Also the UMR Theatre Guild gave a performance of "Animal Farm".

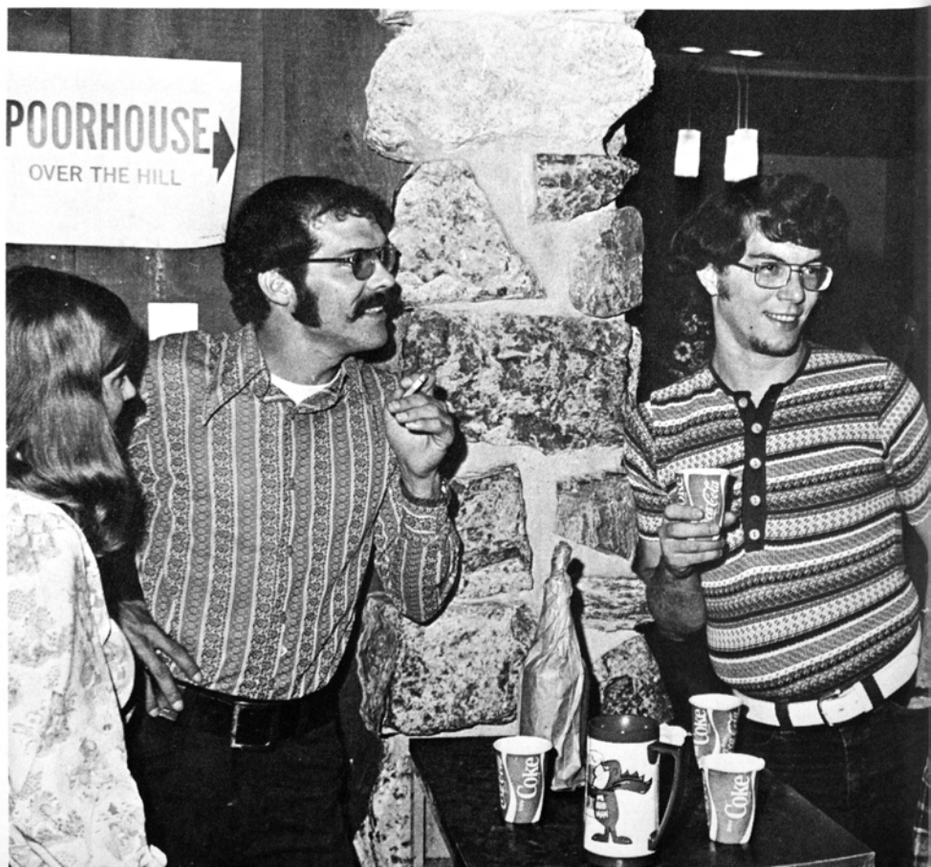

Alums return for a rainy Homecoming

Homecoming Party Weekend saw numerous alumni and dates coming down to invade Rolla, all looking to see old friends, meet new ones, and especially to have a good time. Having a good time wasn't hard with all the parties, teas, and Indian games going on. One of the highlights of the weekend was the concert given by John Hartford and Red, White, and Blue. A packed and enthusiastic crowd in the Multi-Purpose Building enjoyed both parts of the concert put on by the Student Union Board.

Football Miners put weekend into High Gear

As a large homecoming crowd of both alums and undergrads watched the UMR Miners take on the Central Missouri State Mules, they saw the Miners come away with a hard fought 24-14 victory, that helped put the weekend into high gear and help boost the Miner record to 1-2-0.

From Interviewing...

Lovely Debbie Egerstrom, who attended U.M.C., was representing the Phi Kappa Theta Fraternity and was escorted by David Rinas. The poor weather forced the coronation activities to take place Saturday night at the Coronation Ball instead of half-time at the football game. The first and second runner-ups were Monica Hance and Kathleen Warren.

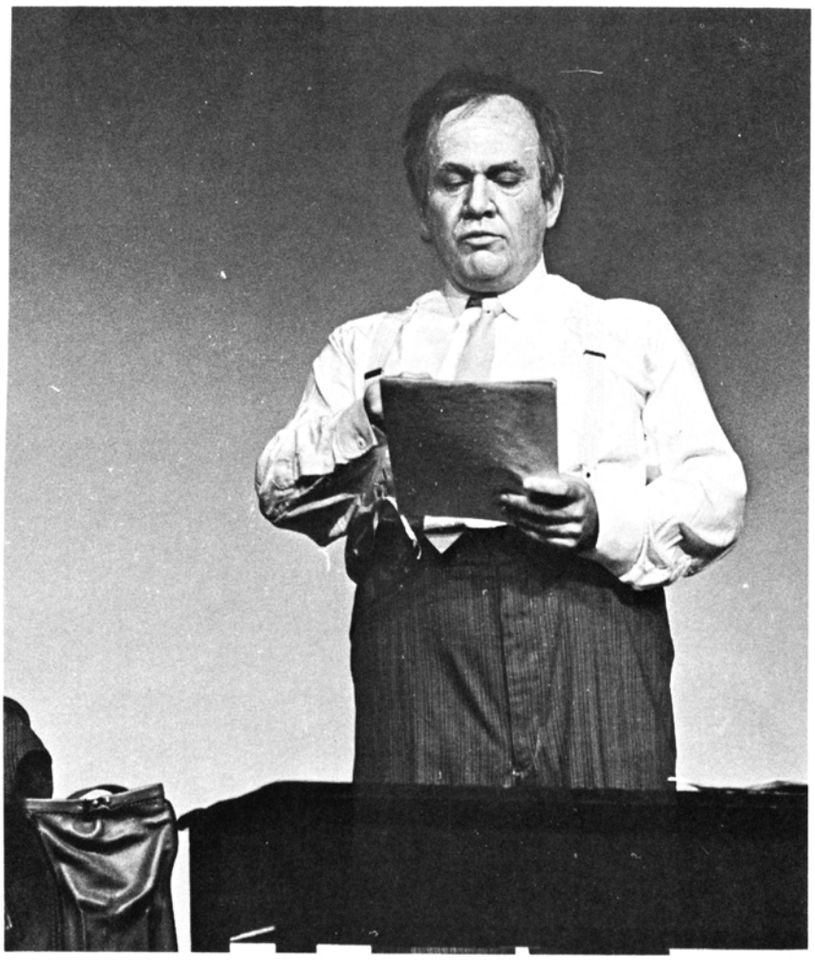

...To Queen

John Chappel as Clarence Darrow

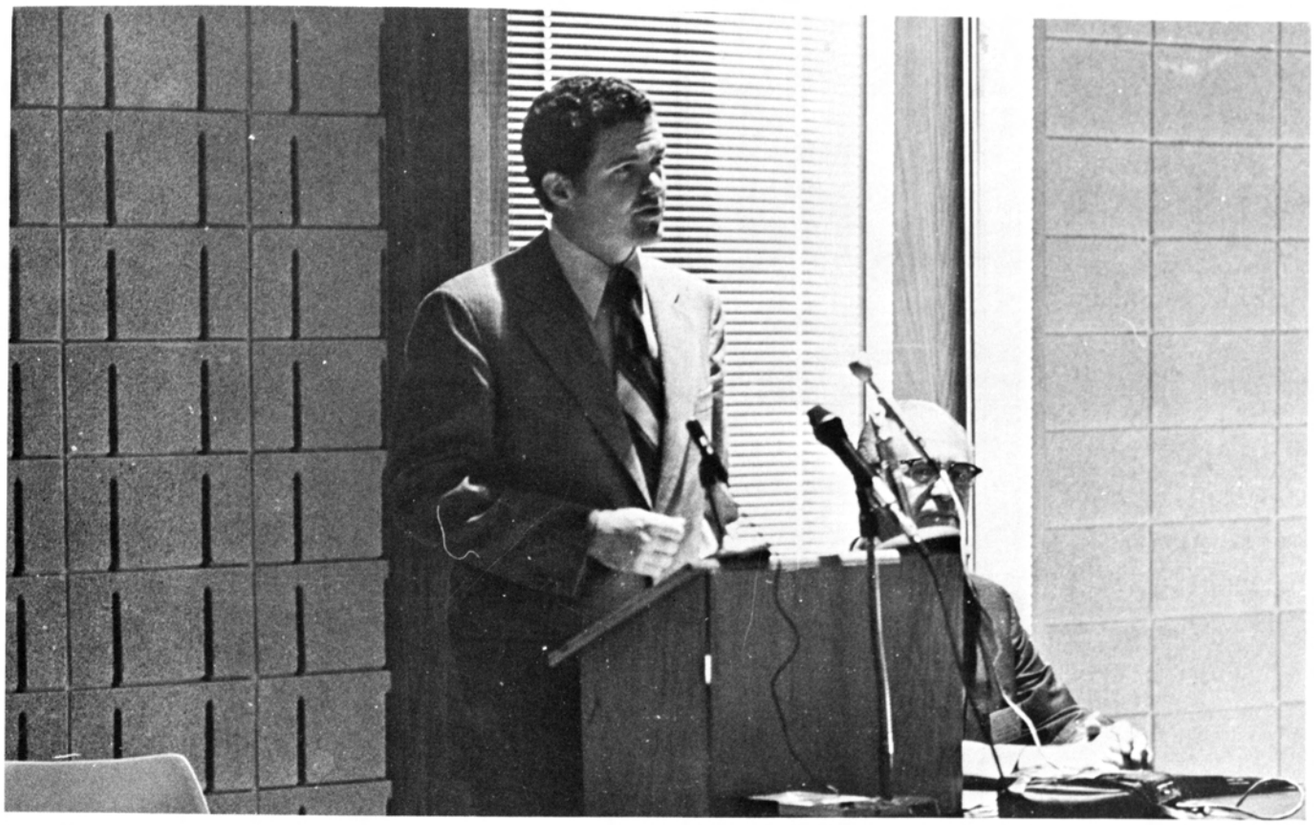

Governor Christopher (Kit) Bond and Dr. William Danforth were the two main speakers for the 4th annual College Government Conference held on the UMR campus. Topics discussed in the conference ranged from "State and Local Government" to "Future Employment Trends".

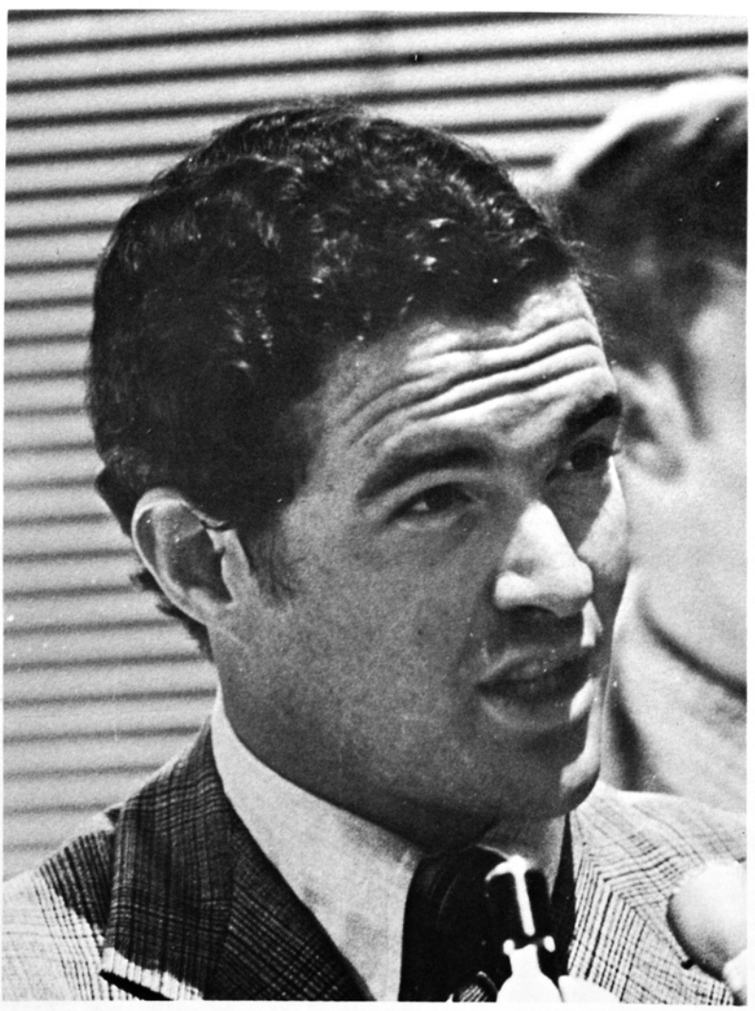

Then on Oct. 17, John Chappel returned to the UMR campus to give his performance of "Clarence Darrow-Defender of the Damned". His performance covered some of the spectacular cases of Darrow's stormy career. Mr. Chappel was well received, just as he was when he portrayed Mark Twain, on his previous visit.

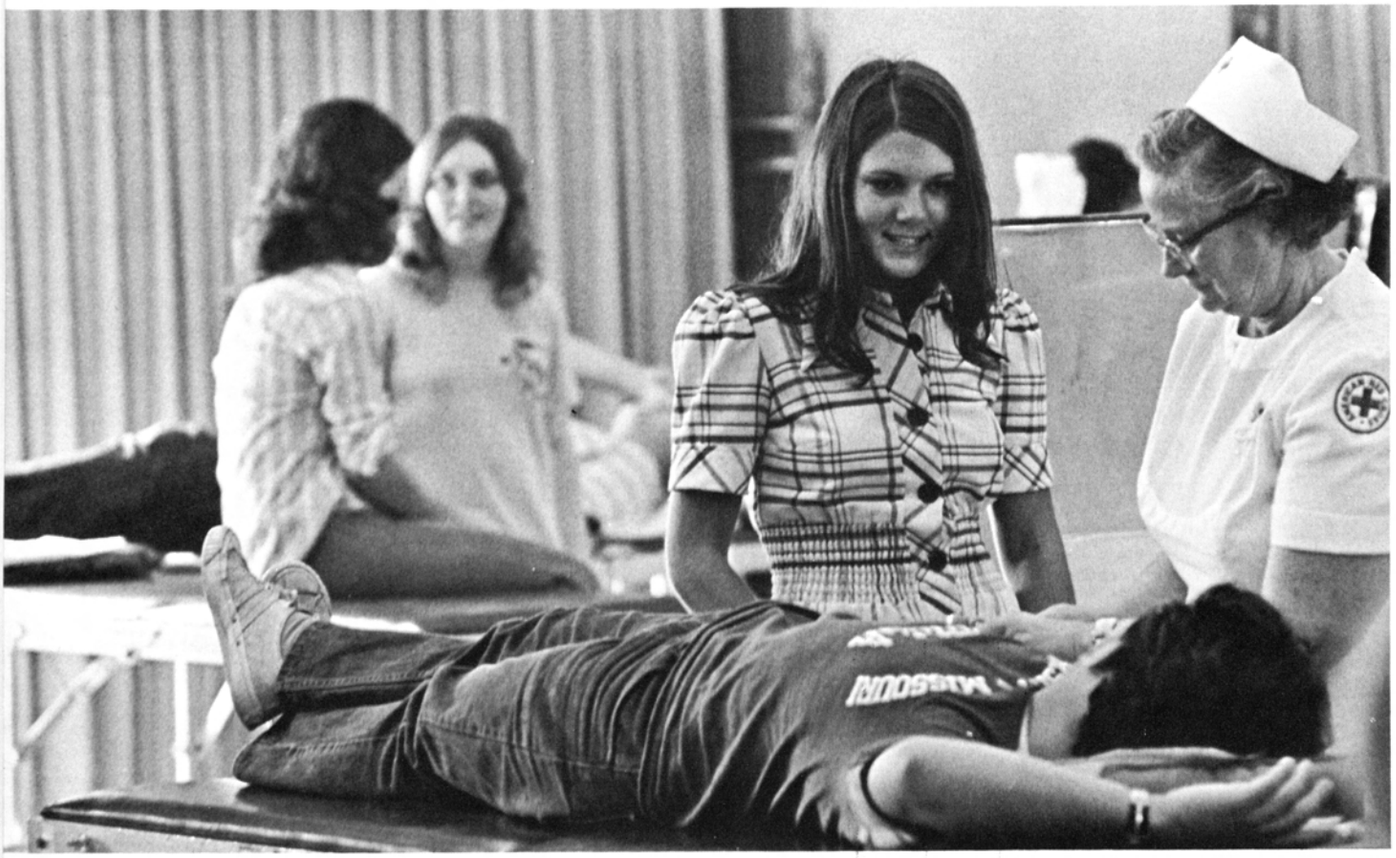

Governor Bond speaks at U.M.R.

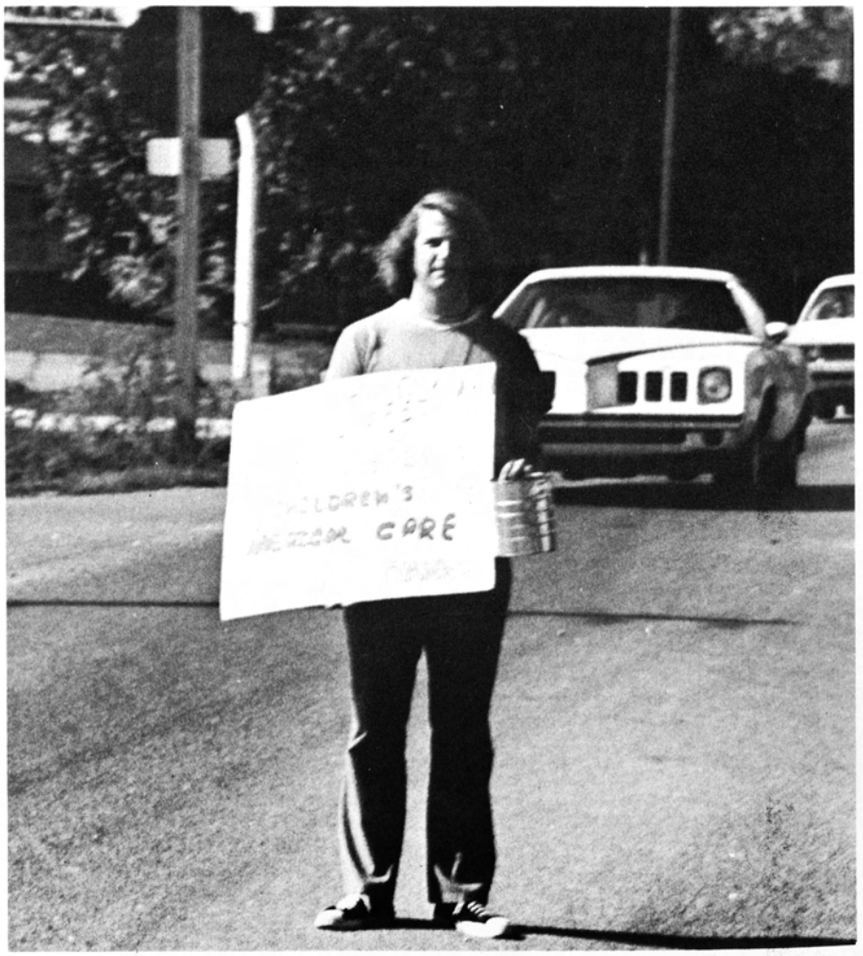

Students helping the Community

UMR students once again proved that they care about the Rolla area by helping out in a number of ways, one of which was the strong support given to the Red Cross, by the Miners, on their bi-semester blooddrives. Another way students helped out the community was the IFC-Cleanup that found many Greeks helping to clean up Rolla. Also Theta Tau, with its Ugly Man contest, helped the community more than ever.

Alpha Phi Alpha takes First

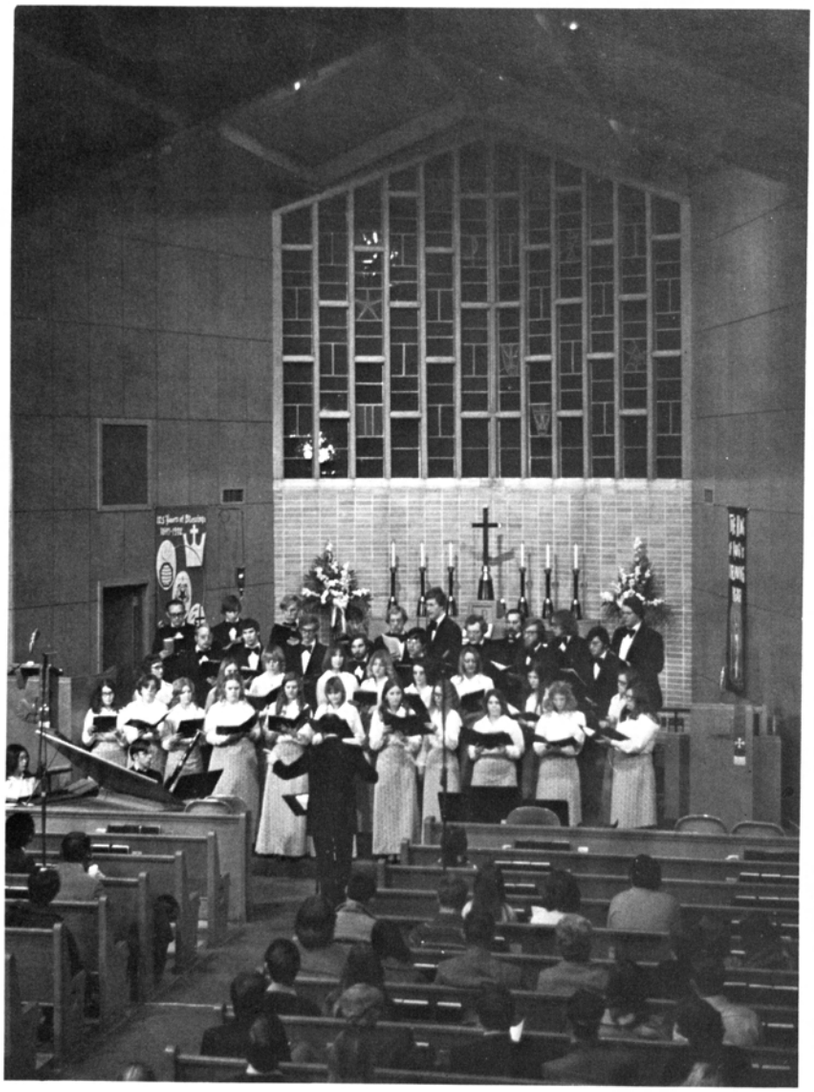

The IFC Sing started off the Christmas Party Weekend with a big bang as the Greeks of UMR showed off their many talents in this years sing. Some of this year's highlights were Alpha Phi Alpha's "Keep Your Head to Sky" and Teke's "Basketball Jones", while ZTA performed "I am Women" and Kappa Delta sang a couple of fine numbers.

ST. PAT'S

Rolla Singers spread Christmas Joy

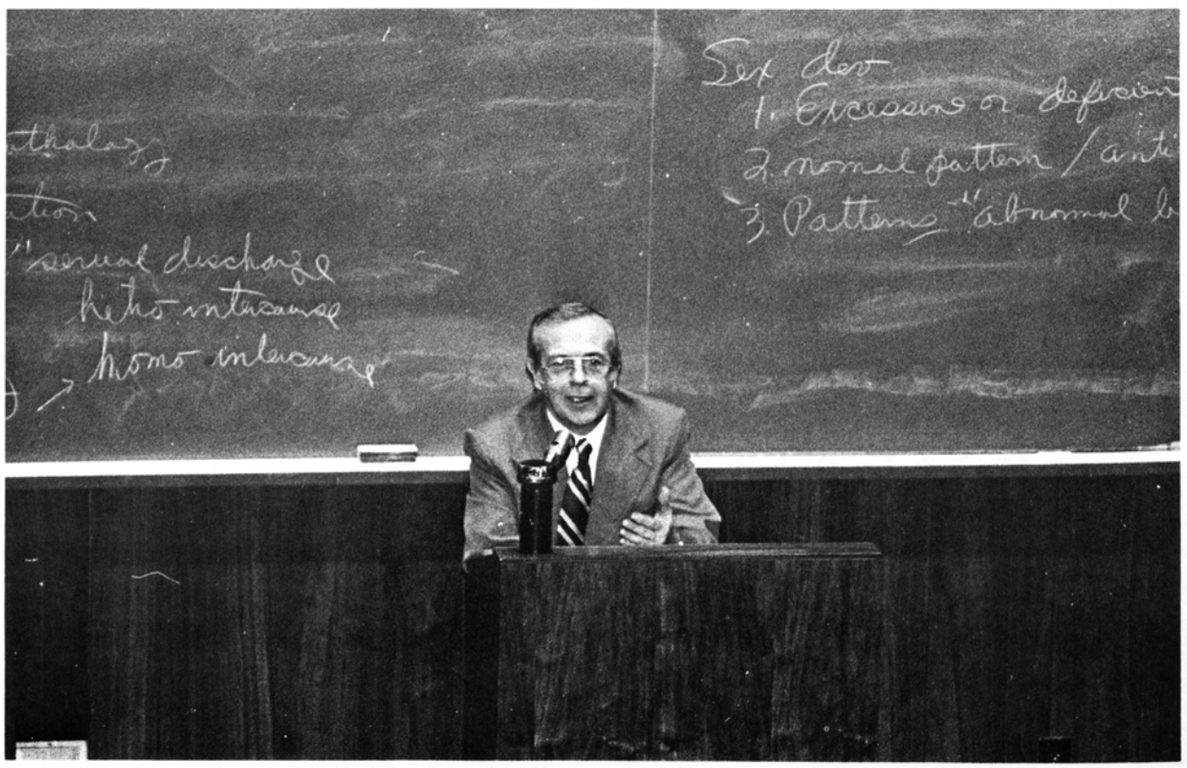

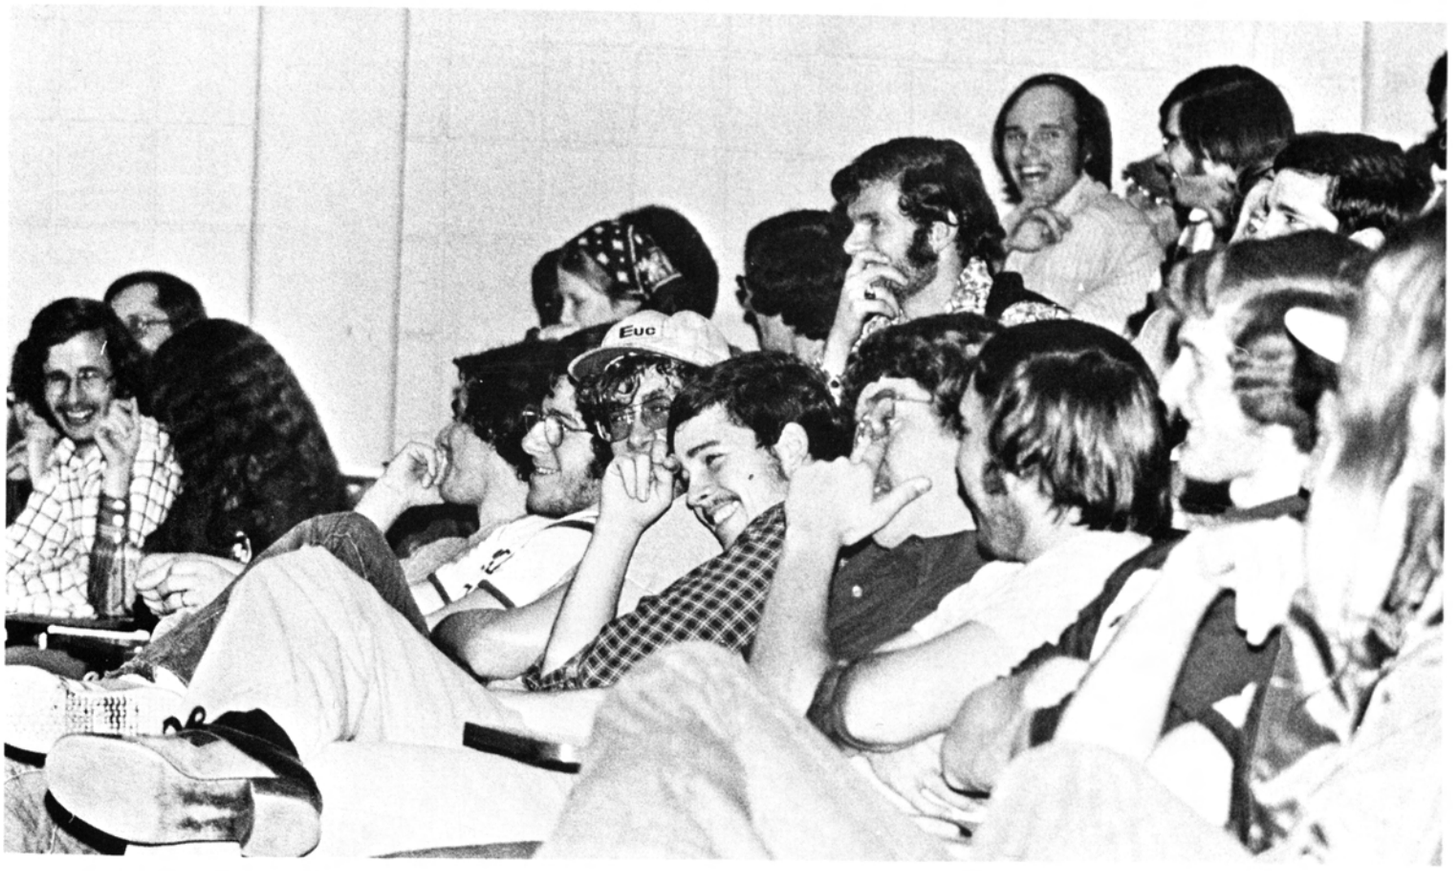

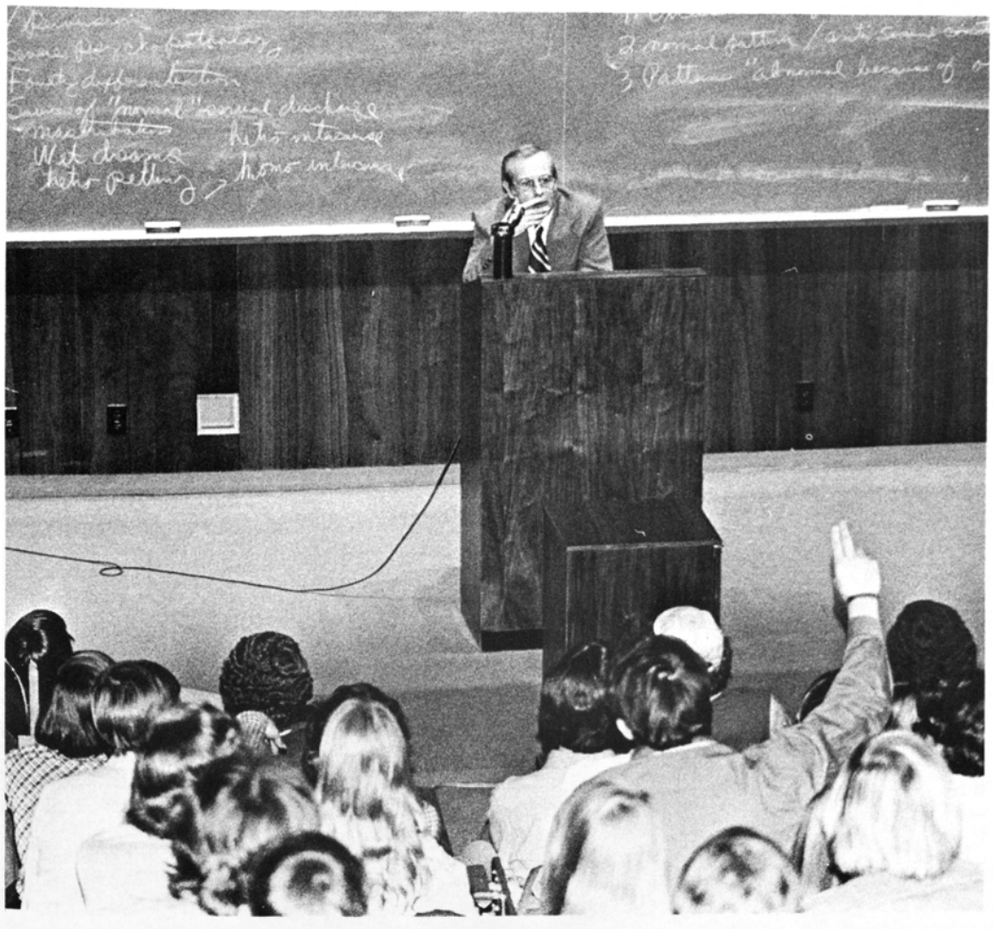

Rolla students always trying to help the community, did a very good job by putting on a presentation, at one of the area churches, of Christmas music. All towns people, young and old seemed to enjoy the music as much as the Miners enjoyed putting it on.

St. Pat and his loyal Followers

St. Pats brought all the Miners together as spring was coming just around the corner. You knew everybody was really in the St. Pats spirit when you'd go to class and there was so much green you thought you were in Dublin Ireland surrounded by Irishmen. The traditional killing of snakes and growing beards could be seen everywhere. Some people did grow beards and some people tried pretty hard.

Sha-na-na turns on packed house

This years St. Pat Concert was not at all like the last, everyone who came left with a little nostalgia and a lot of good music in their heads. Sha-na-na put on a fantastic concert, and the crowd responded with tremendous participation, great ovations, and asked for so many encores that everybody could have been there until Sunday. But the packed house of 4,000 did get their moneys worth.

ROLLAMO Board

This year the ROLLAMO Board was up to its usual antics. The year progressed well, with the various outings and teas that are a big part of the Board's agenda. There were, of course, regular (?) meetings to discuss the layout of the book, and the selection of the Rollamo queen and her court. And, as always, the last frantic rush to make deadlines before leaving for the summer. Needless to say, everyone is looking forward to more work in the fall.

Football Miners Suffer Tough Season Again

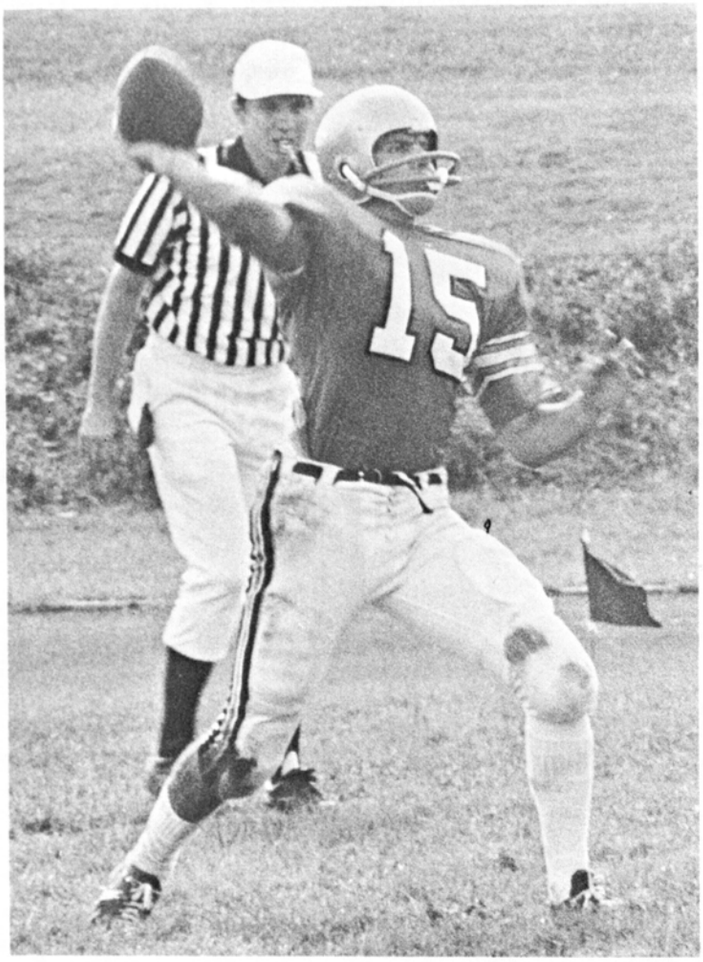

The football Miners received another setback this year, compiling an overall record of 3-6-2. Causes for a losing season were due to lack of experience of the young Miner team.

However, there was some success. In the game against Mo. Southern of Sept. 29, the Miners were up, and won 16-0. An enthusiastic homecoming crowd saw UMR beat Central Mo. State 24-14. In an exciting see-saw battle with Lincoln, the Miners emerged victorious, 26-25.

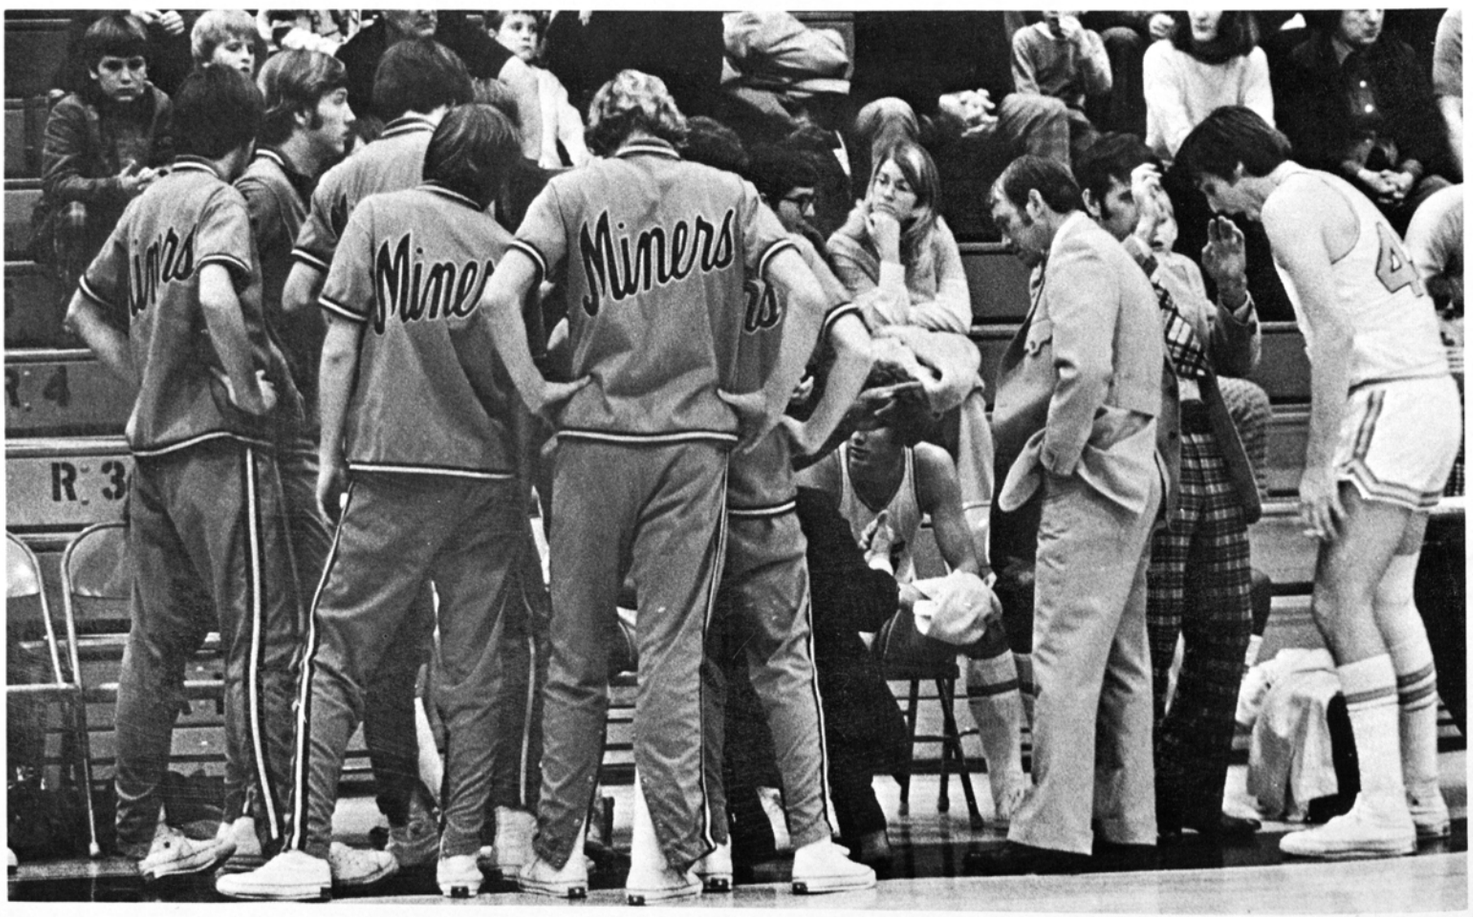

The Miners will have 16 of its 22 starters returning next season. The team will have plenty of depth with a high percentage of the freshmen coming back. Offensive keys to the team will be Greg Haug, quarterback and receivers Merl Dillow and Stu Dunlop.

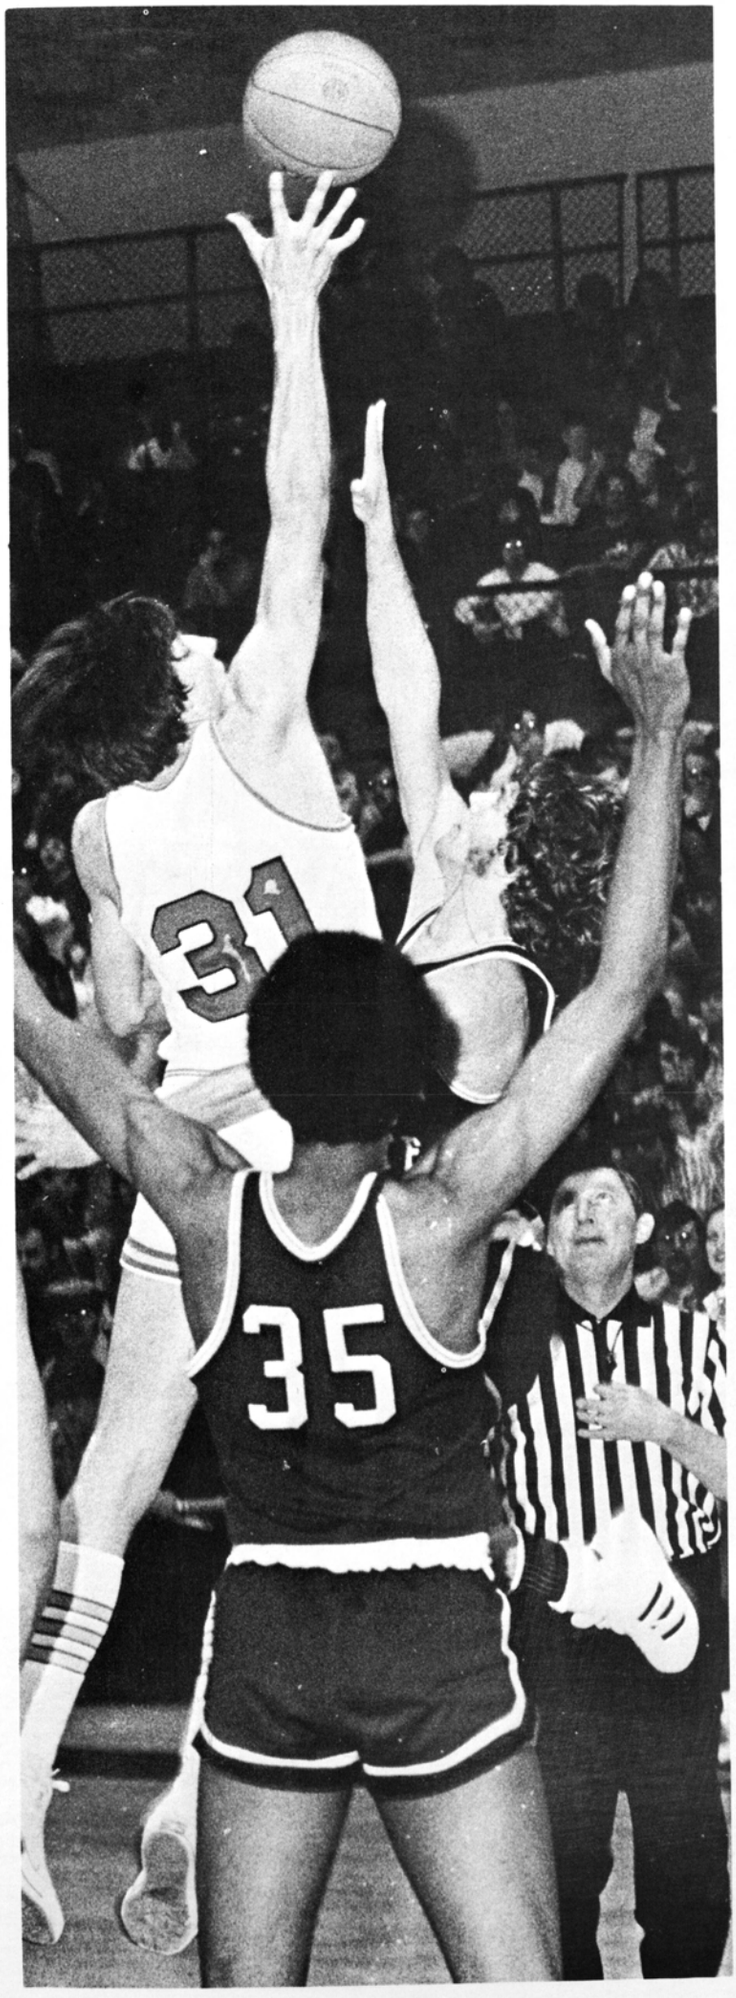

As a final note, three Miners were picked for all-conference honors. These were seniors Jim White and Steve Suellentrop, and sophomore Merl Dillow. In addition, many others were chosen for the second team and honorable mention.

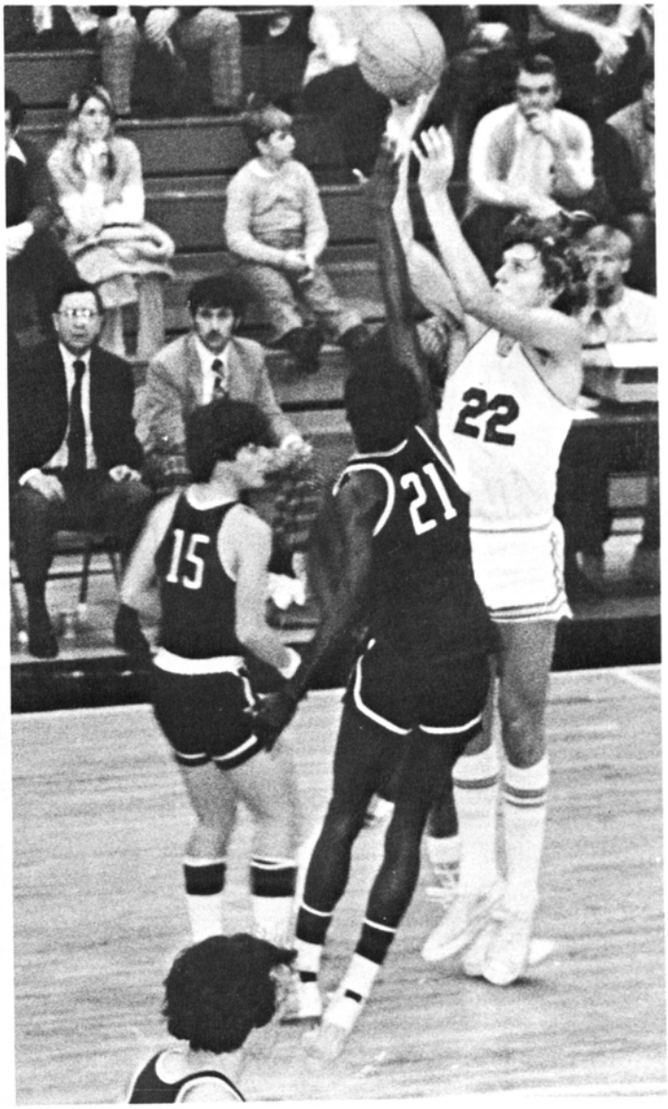

Stallings and Noel Lead
Miners to 2nd Place-MIAA

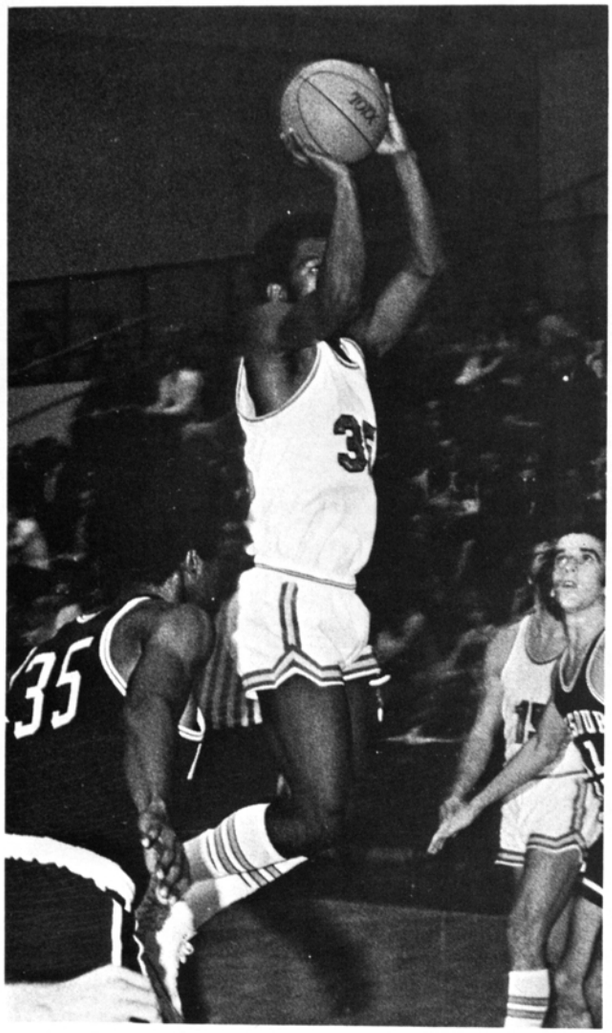

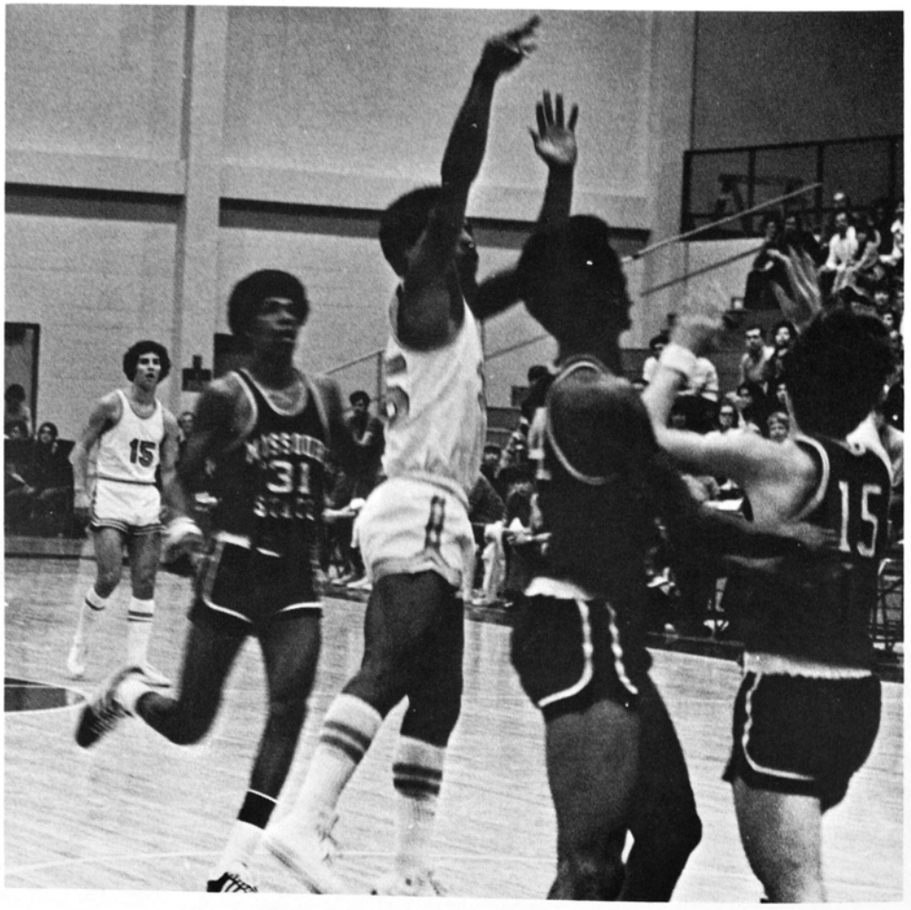

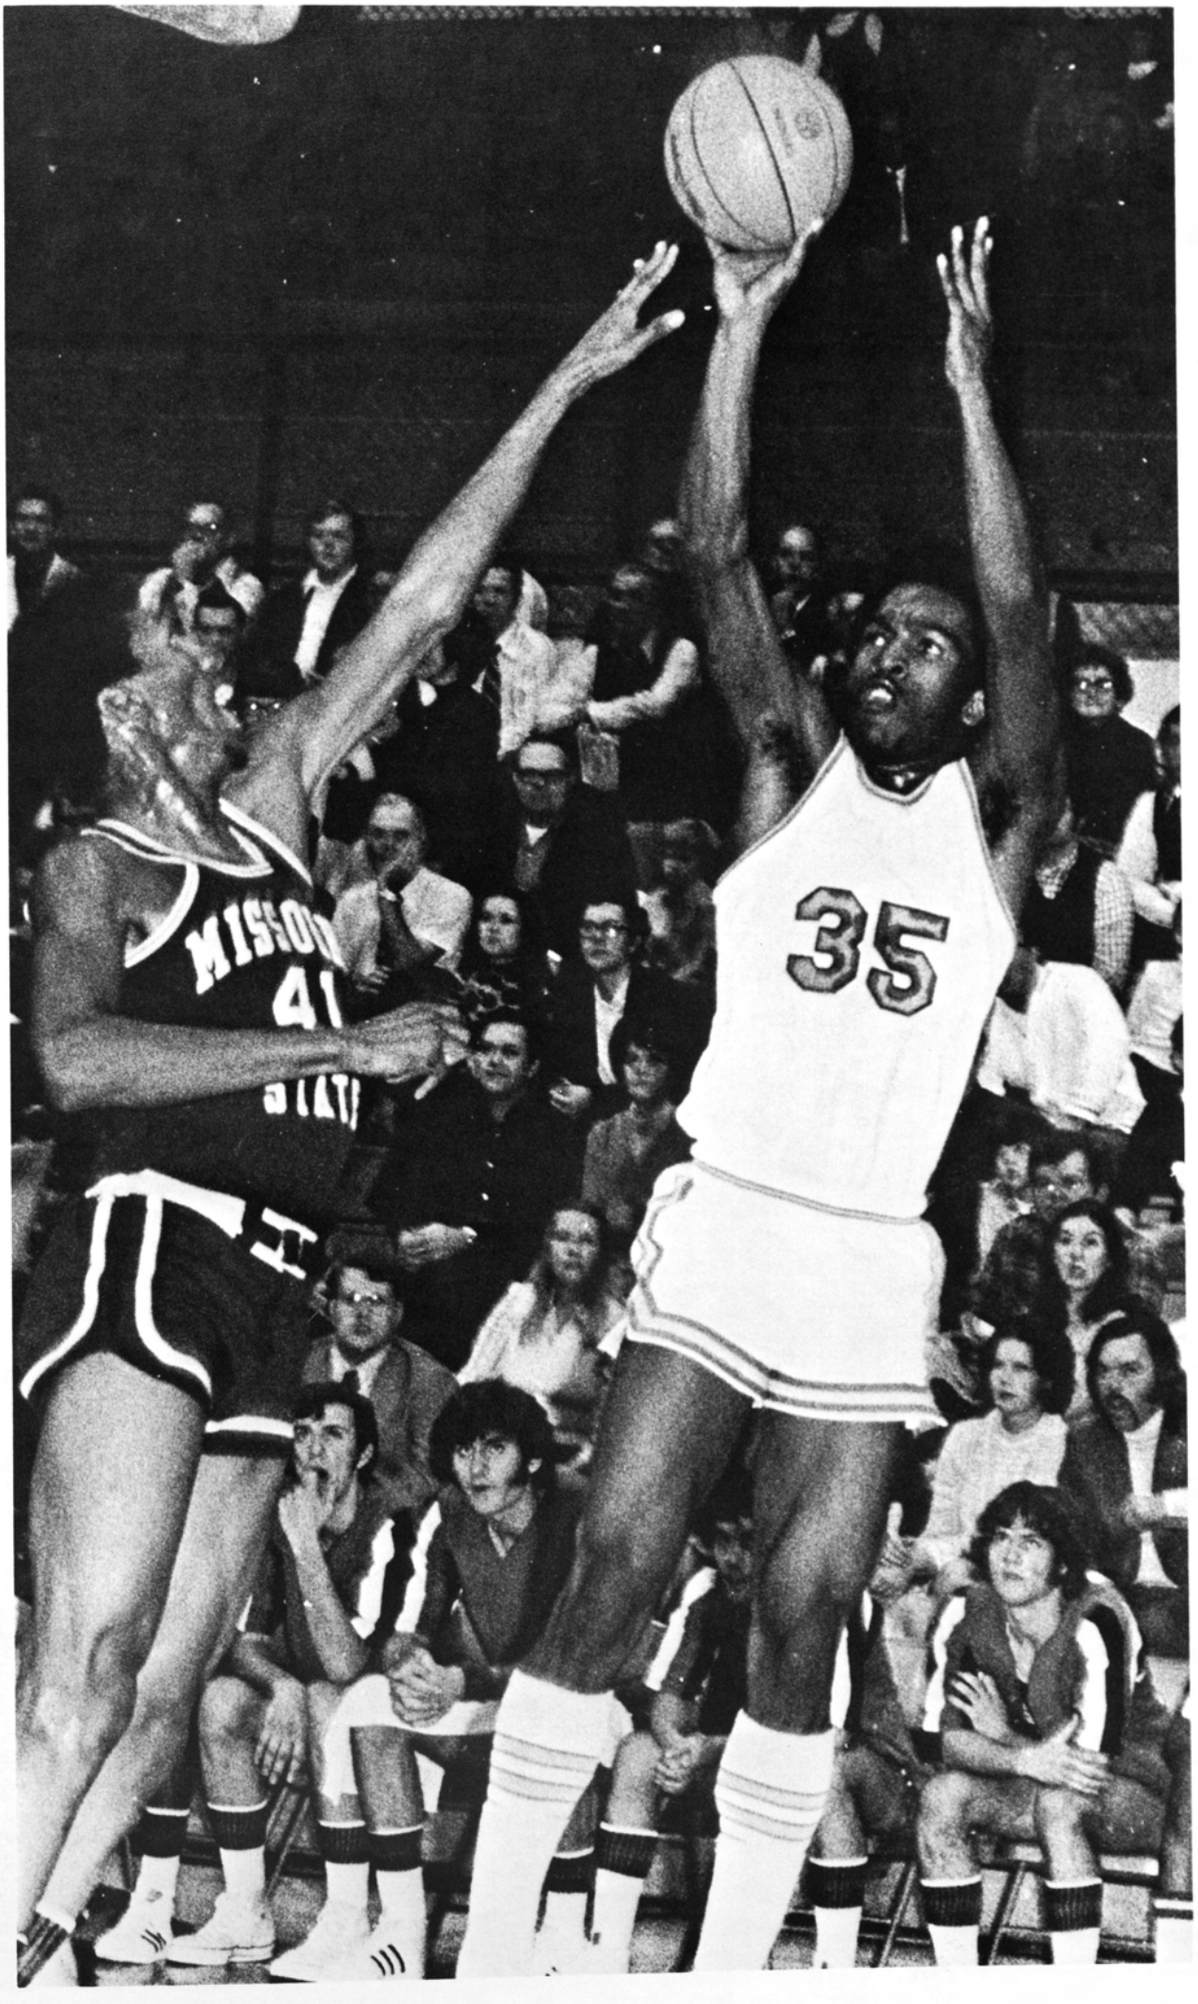

The UMR basketball team ended an exciting season by defeating conference champion Southwest Mo. State for the second time to finish the season with a 7-5 conference record and clinch a tie with Lincoln for second place in the MIAA.

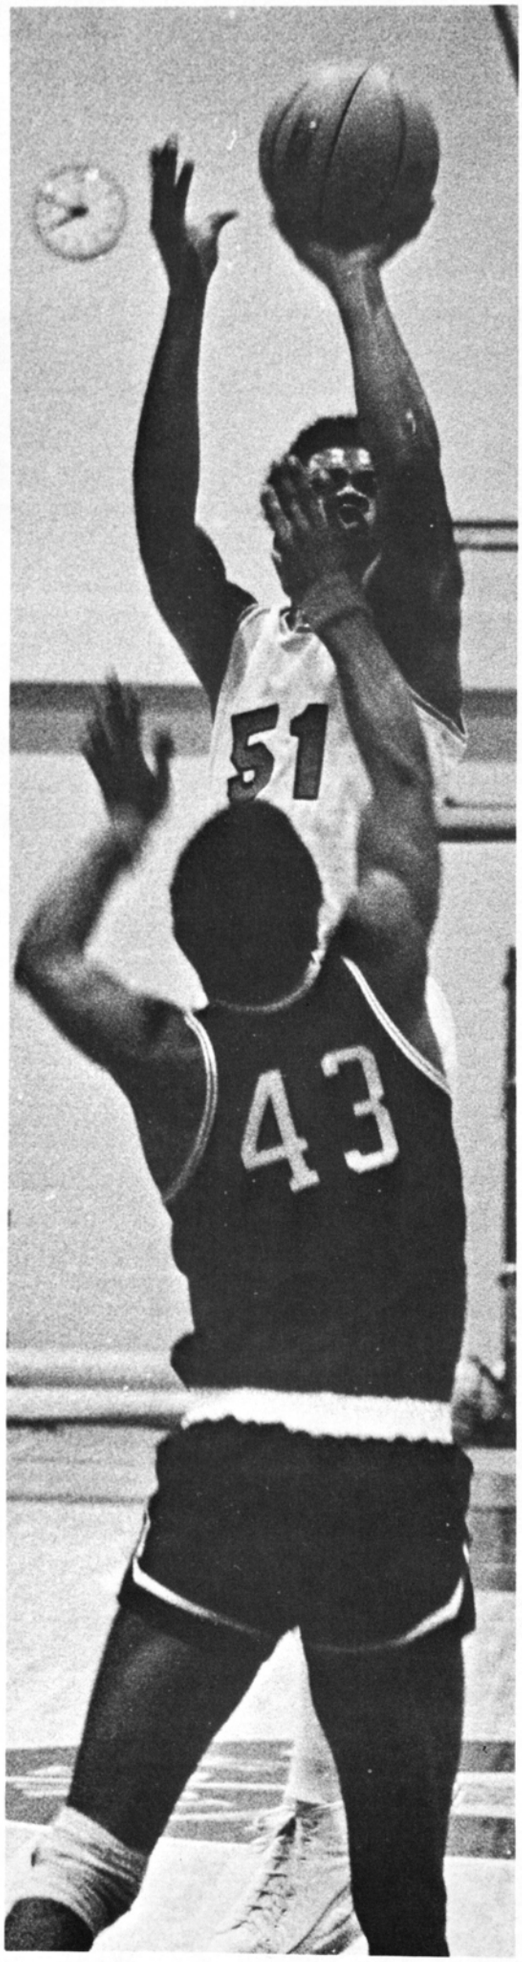

The Miners made a great try for the conference title. After a slow start and a 3-4 conference record, the Miners won four of the five remaining league games. The basketball team finished with an overall record of 12-12. The Miners played perhaps their toughest schedule ever with teams like Memphis State, SIU-Carbondale, Southwest Texas State, and Eastern Illinois.

Coach Billy Key hopes to be able to find replacements for the members of the team that will graduate this year. Perhaps the most difficult to replace will be 6-3 guard Ken Stallings. Ken was named Most Valuable player in the MIAA. This was the first time a Miner had been chosen for this honor. He established many UMR scoring records while he was here including most points in a game, 41 against Lincoln. He also set a record for season point total of 596. Ken ended up with a 25.9 points per game average. That was sixth in the nation for college division players. In addition to being MVP, Ken was named to the first team all-MIAA squad. He also made the district V all America team.

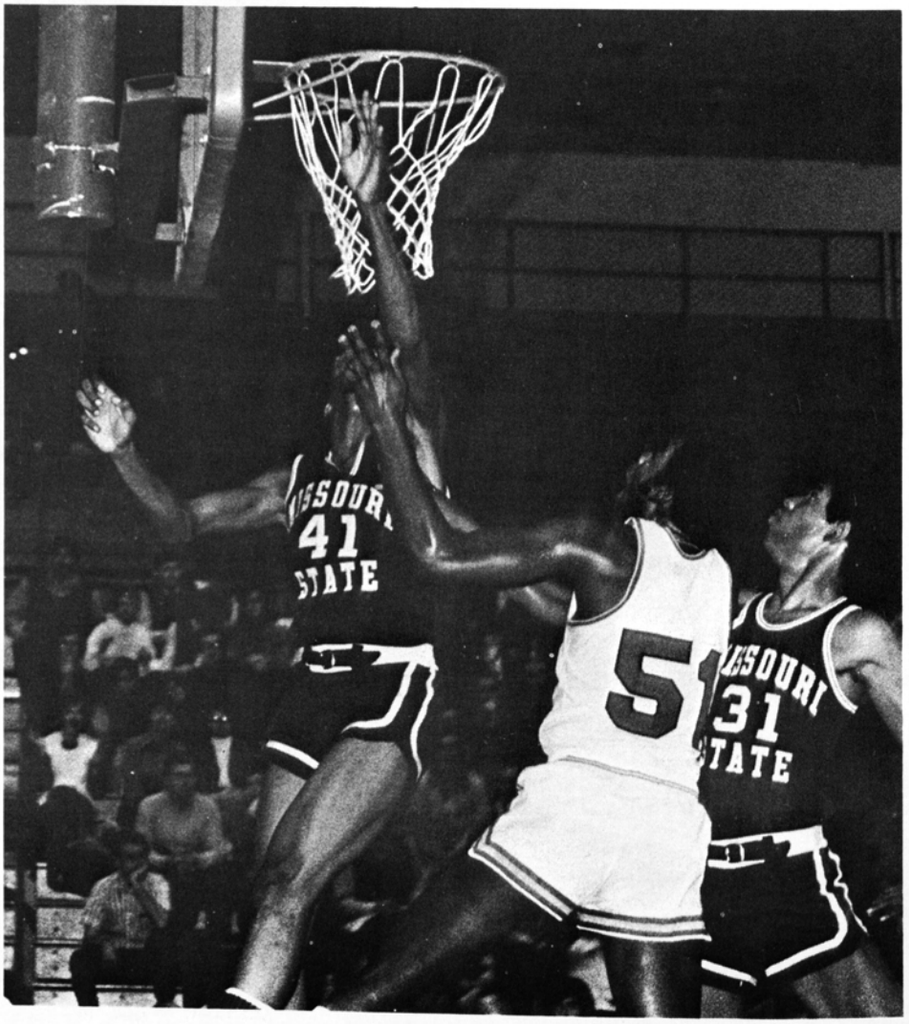

35

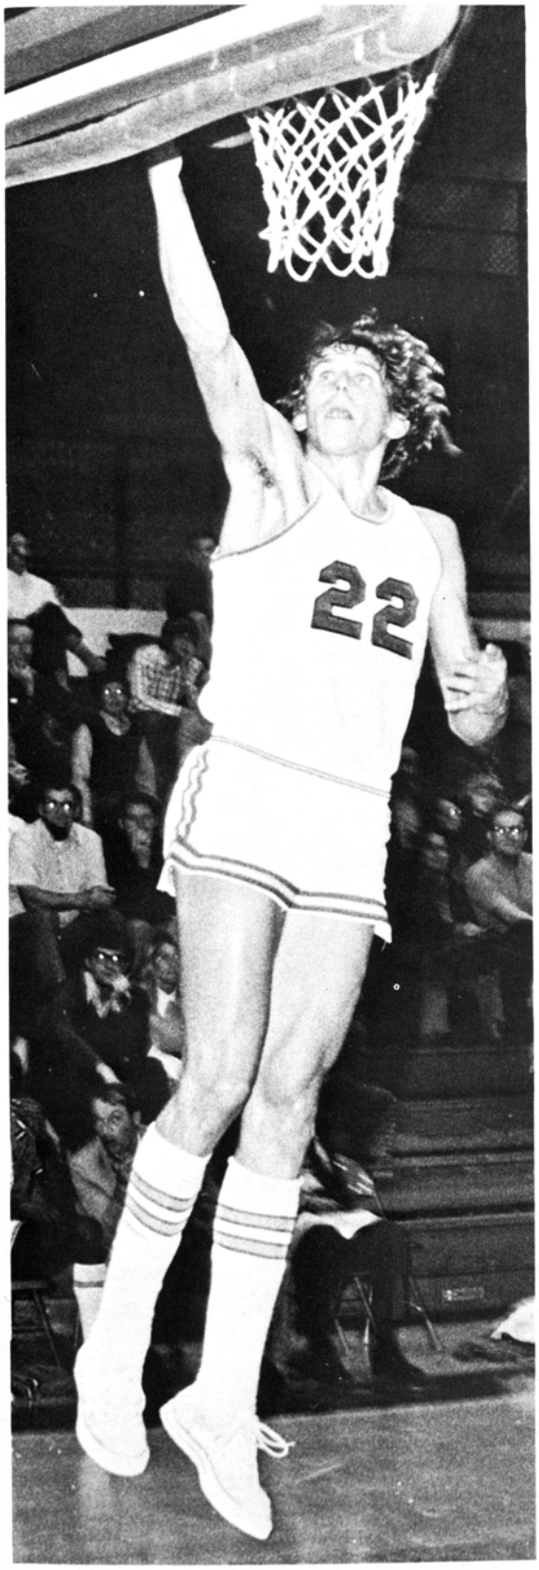

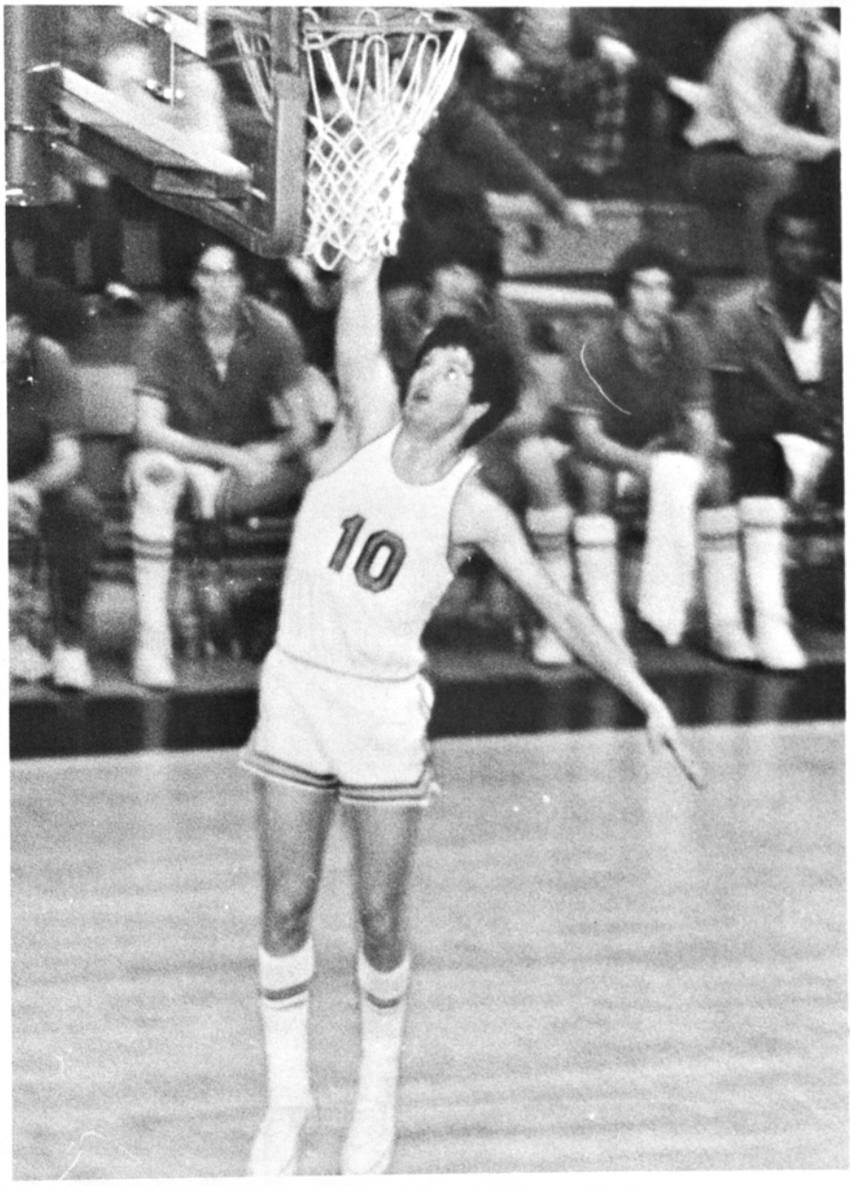

Also lost is John Gibson, 6-4 reserve forward who averaged five points per game. Another player leaving the Miners will be Tommy Noel, 6-5 forward, who played in all 24 games and averaged 15 points and 12 rebounds per game. He is the fourth leading scorer for UMR as a four year starter. His high game was 32 points and 20 rebounds.

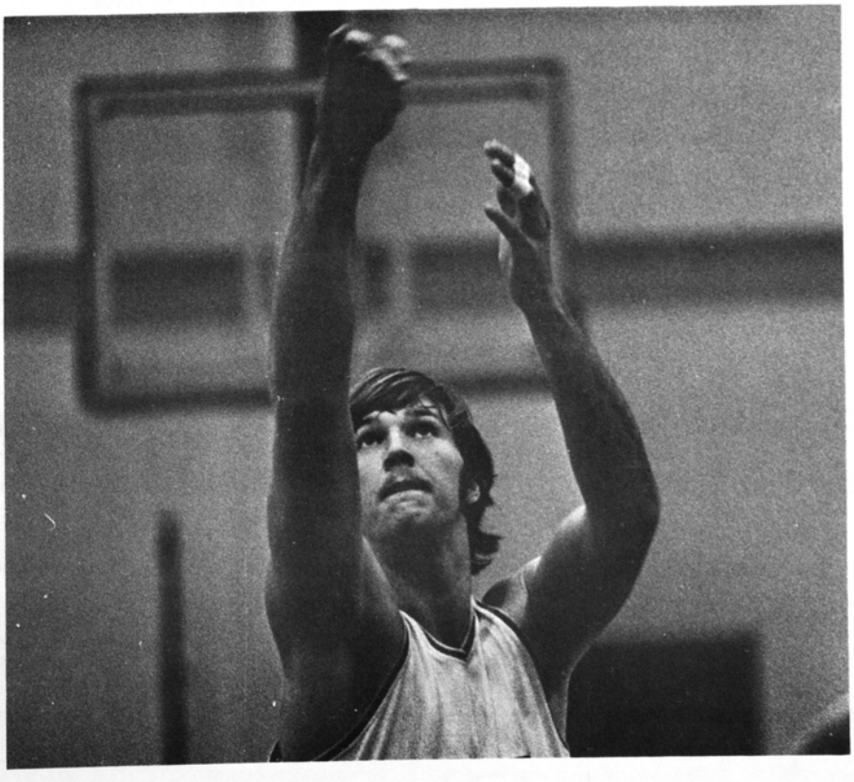

Although the coaches have lost some key personnel, they still have some fine players returning next season. Guards Royce Vessel and Bob Kissack will both be back. To provide strength on the boards, two freshmen, Bob Stanley and Ross Klie will be returning. Merl Dillow will also be back to give some help in the rebounding department.

The Miners hope to be back in the MIAA race with this nucleus of returning veterans.

22

10

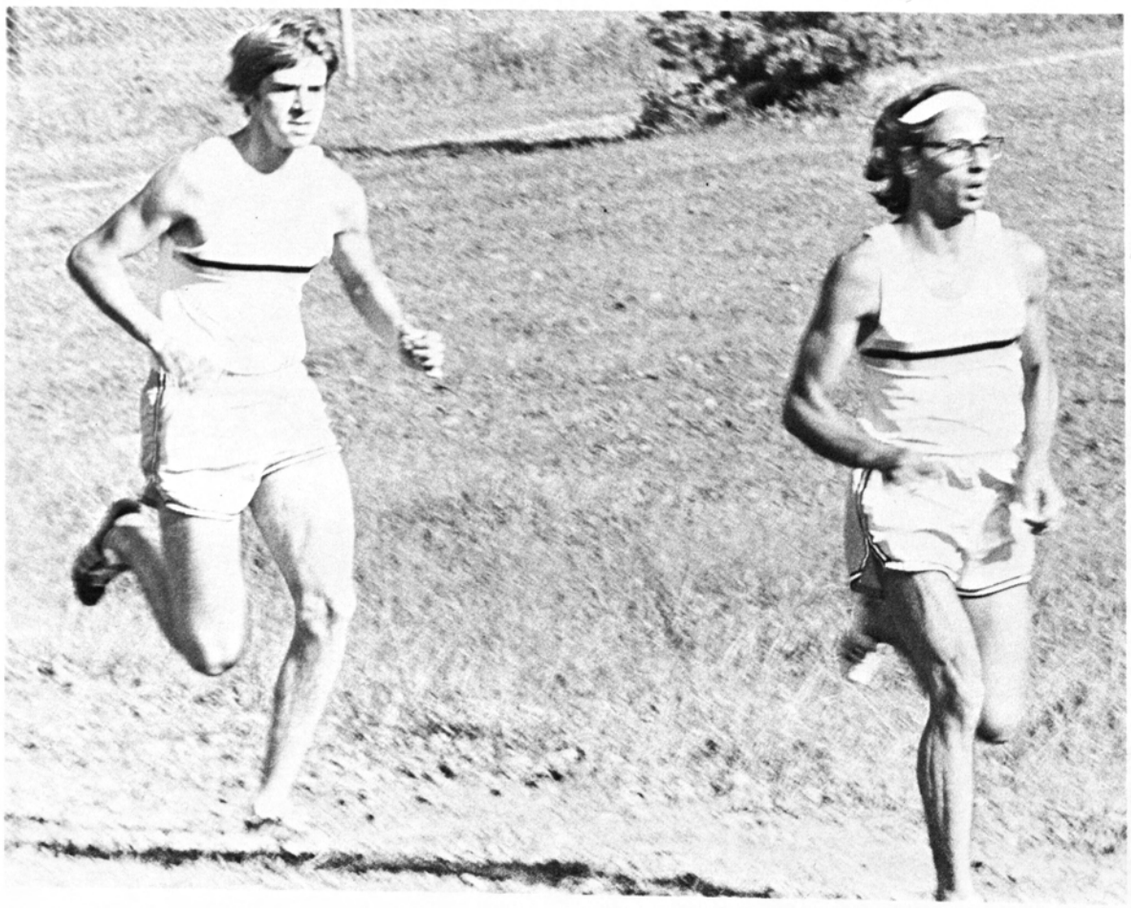

Though having a disappointing sixth place finish in the MIAA, the harriers did compile a 5-2 dual meet record. The season was highlighted by a third place finish at the SIU Invitational and victories over rivals Washington U. and UMSL.

Looking ahead to next year, the Miners won't lose any of their top seven. Back will be team leaders Mike Scheplin and Don Marlin, sophomore John Herman, and freshmen Bill Maples, Dave Craycraft, Paul Andrew, and Walnut Jensen.

Harriers Compile 5-2 Dual Record

Soccer Club

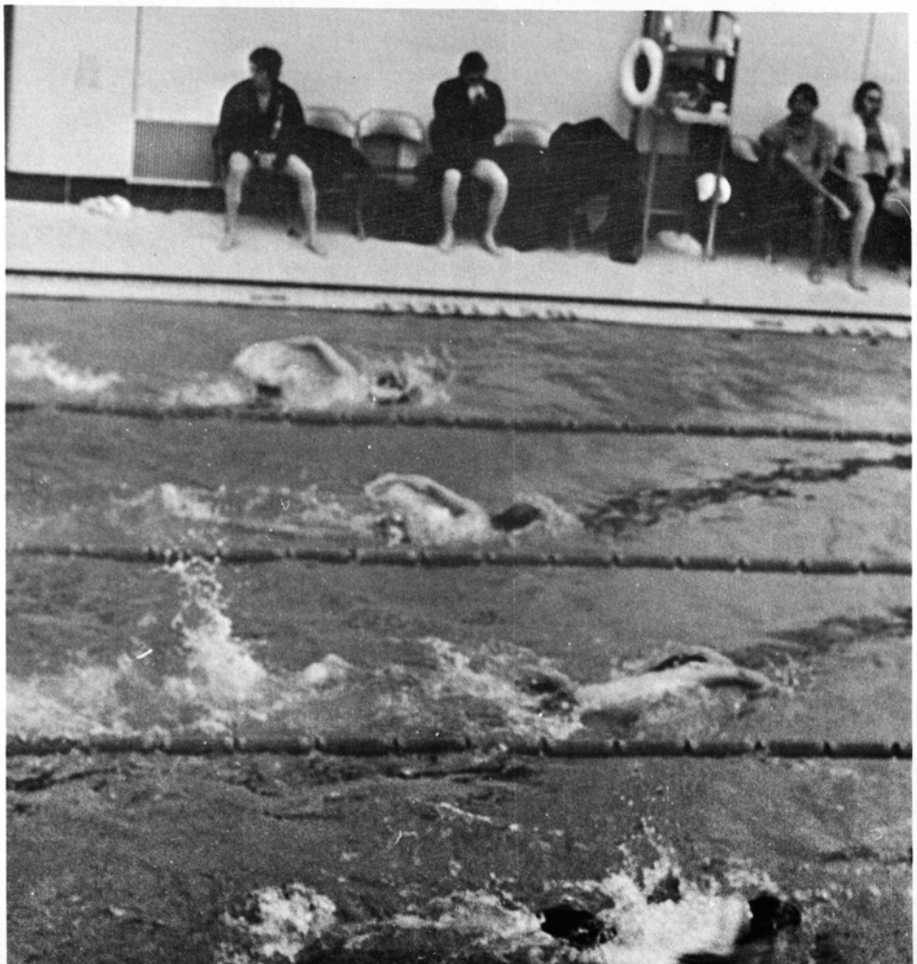

Expands Program

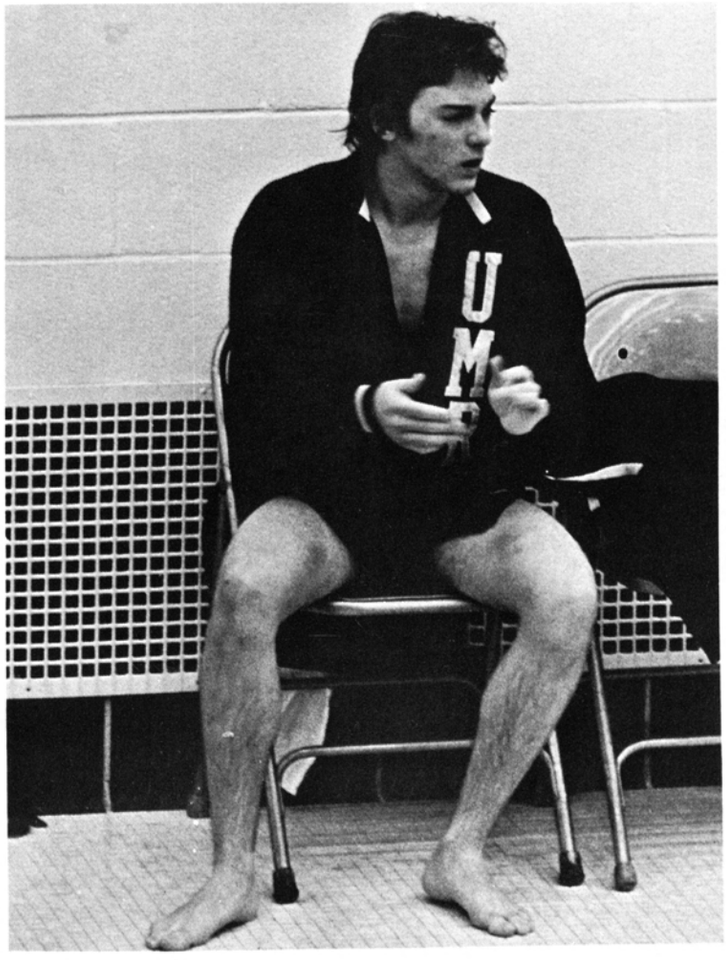

The UMR Soccer Club broadened its program to include more games and tougher competition this year. The players took a more serious attitude this year with rigorous practices and workouts. The overall record of the club was 3-8 as they beat Drury twice and Columbia College once. Next year the Soccer Club will include tougher teams in their schedule. These will include Floissant Valley, Meramec College, Harris Teachers College, Mizzou, and Springfield.

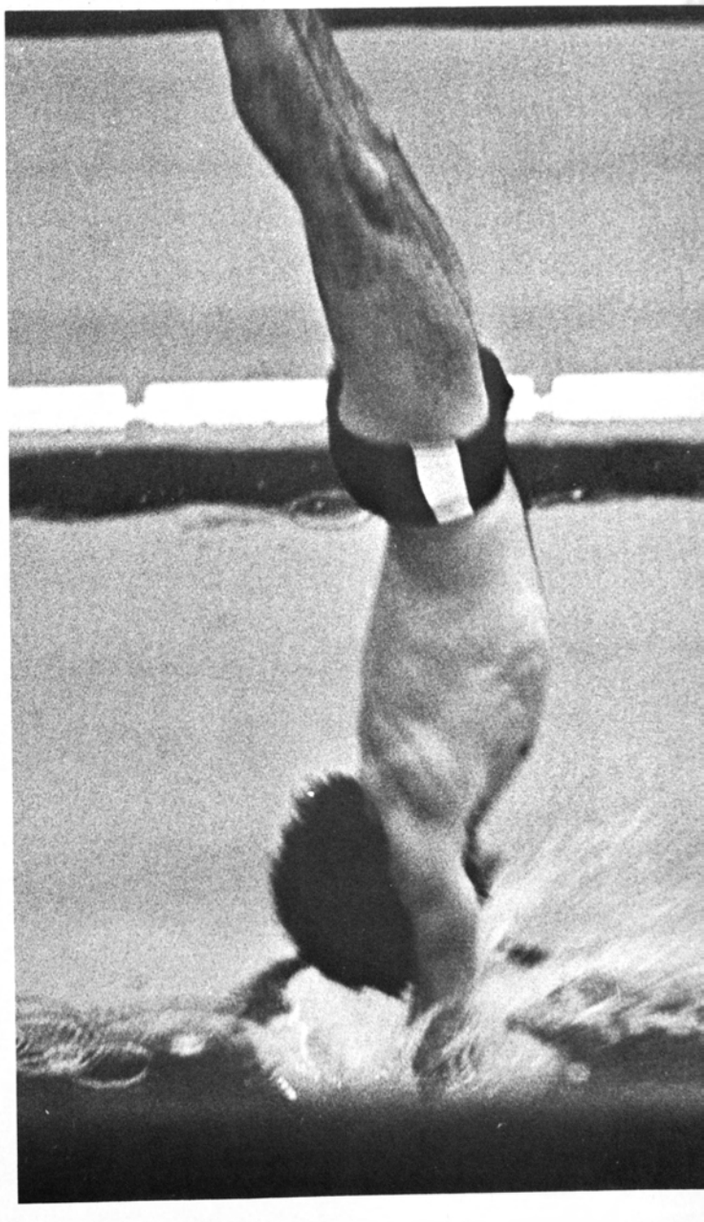

Tankmen 1st in MIAA

After three consecutive years of second place in the MIAA, the Miners defeated defending champions Southwest Missouri 155-151.

Freshman Bill Orr was a triple winner and was named outstanding swimmer of the meet. He won the 200 yard freestyle, the 400 yard individual medley and the 500 yard freestyle. Bill Kroeger won the 100 yard and 200 yard backstroke. Mike Norborg captured the 200 yard butterfly event.

The Miners finished their season with a 11-3 dual meet record.

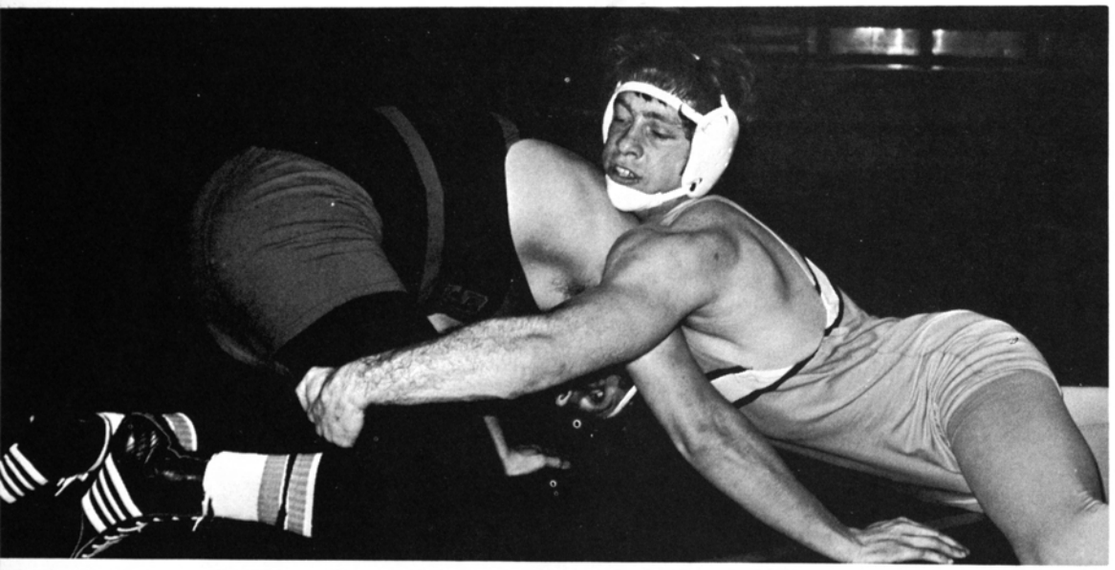

In the college division of the NCAA National Meet, the Miners finished 29th out of 82 teams and qualified Mike Norborg and Bill Orr as All-Americans.

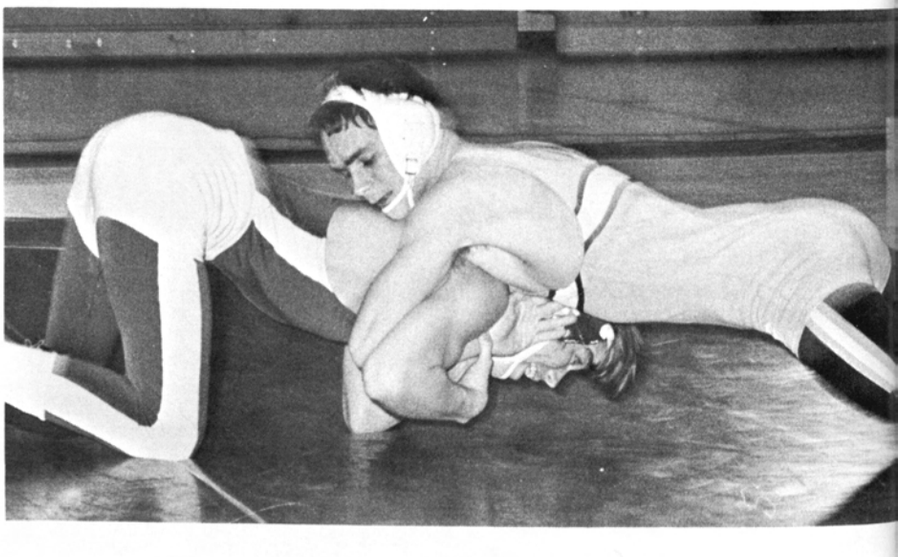

Missing all-America honors by four tenths of a second was our 400 yard medley team of Kroeger, Blood, Norborg, and Orr. But they did break the school record by five seconds.

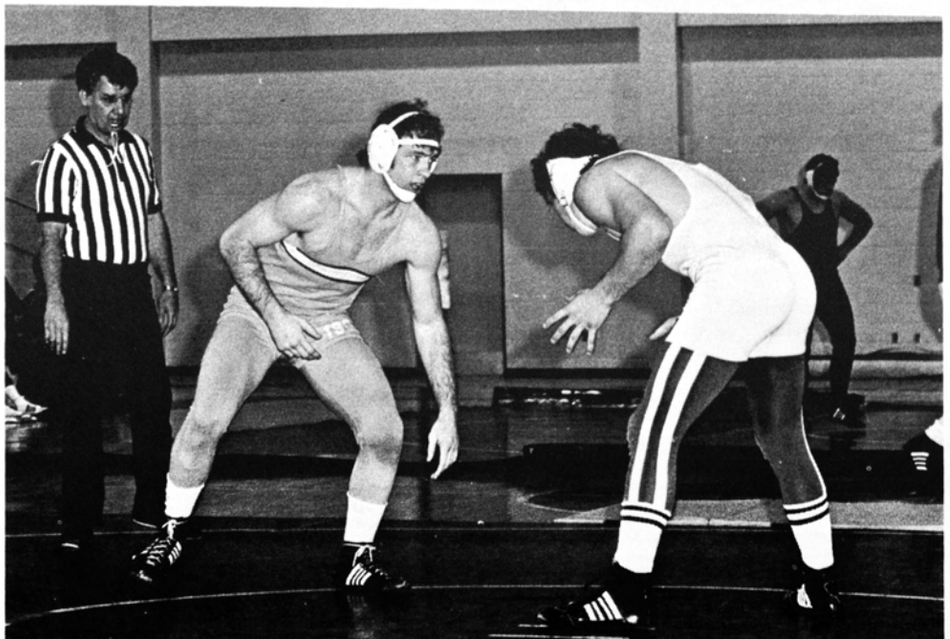

Other varsity records established were by Orr in the 500 yard freestyle, 4:53.8 and in the 200 yard freestyle, 1:47.5. The 800 yard relay team of Norborg, Entwistle, Wright, and Orr set a new record with 7:29.7.

Coach Pease said that with a good recruitment the Miners will be a power next year.

Inexperience Hurts Grapplers

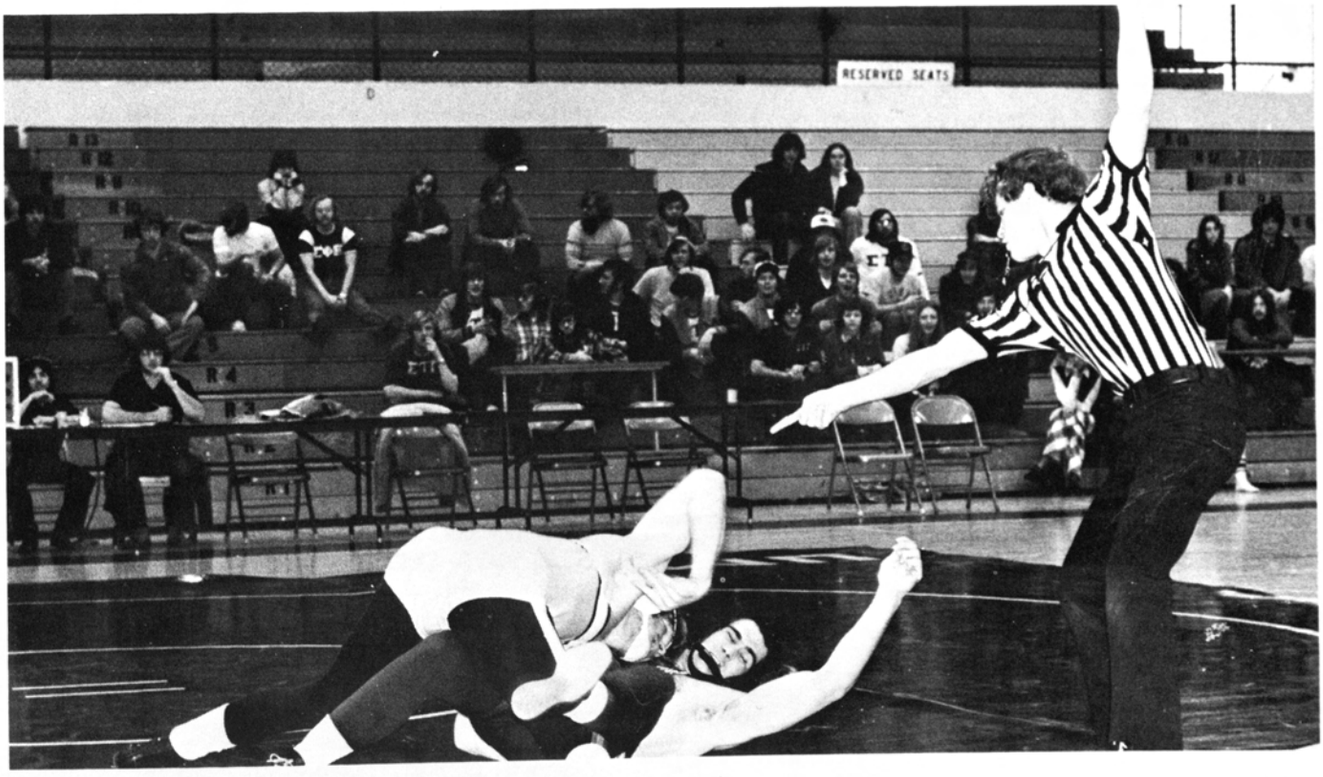

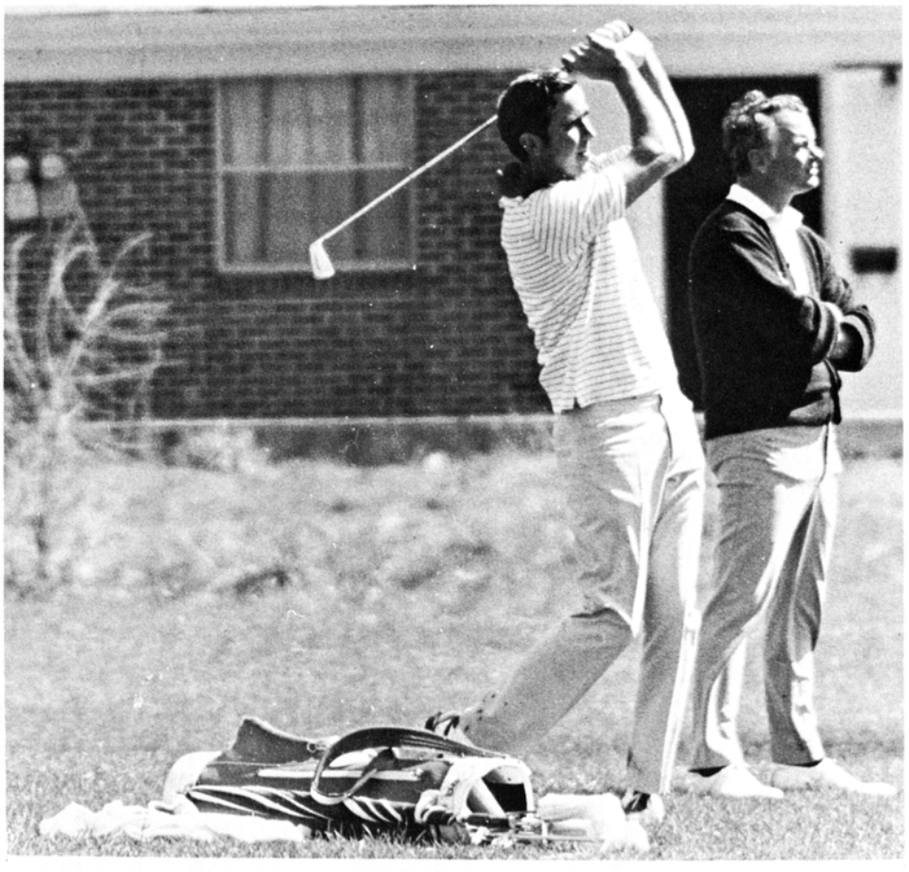

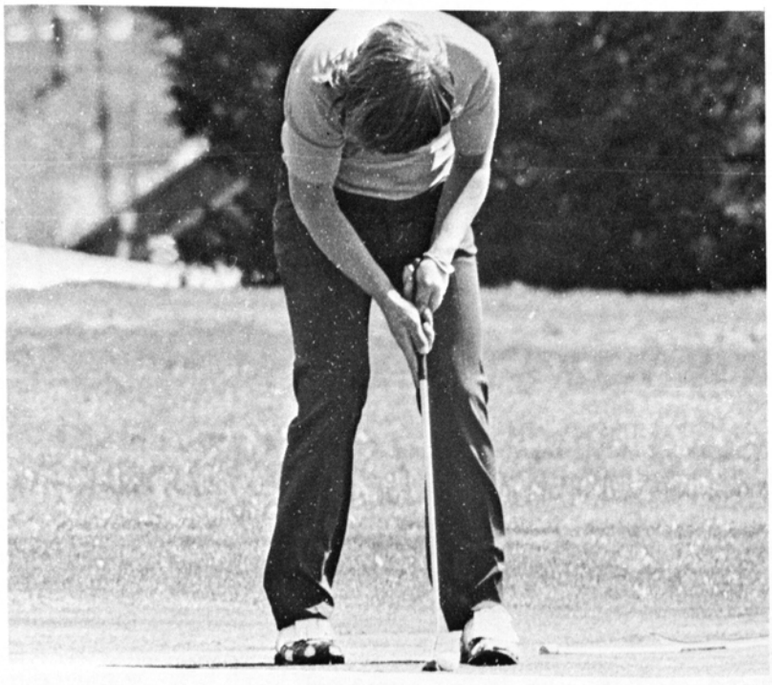

The young UMR grapplers suffered a disappointing season with a dual meet record of 2-12-0. There were some bright spots, though. Steve Ganz, a senior, ended the season with an incredible 21-2-0 record. He set a UMR record of most wins with 21 and tied records of most falls, 6, and most consecutive wins, 8. Another senior, Mike Blackmore finished the season with a strong 11-10-0 record. Although the Miners did not do well in the MIAA or All-Missouri tournaments, they finished first in the UMR Tournament with five champions. With this experience under their belts the Miners look to a better season next year.

Link Play Shows Good Record

The golf team was undefeated in the Dual and Triangular competition, with the highlight being our victory over Arkansas State University. Our Miners finished high in collegiate tournaments at Galveston Island Classic and in the Heart of America Classic in Central Mo. The Miners were lead by conference champion Steve Hill, who carried a 75 average throughout the competition. He will compete in the nationals at Tampa.

Netmen Have Off Year

The UMR Tennis Team survived a dismal season as they faced many experienced and talented teams such as SIU-Edwardsville and Washington University. The Netmen beat Lincoln twice, Central Bible College and Rockhurst during the long frustrating season. Increased student support for the Tennis Team could make a difference in the future as spectators were few and far between this year.

Good Defense Not Backed By Hitting

The baseball Miners suffered a heartbreaking season this year, posting a 6-22 record over-all, and a 1-11 record in the MIAA. Smith, who batted .385, was the only batter in the Miner lineup to bat over .300.

McMillan was the highest averaging pitcher, posting a 3-2 record for himself. No other pitcher except McMillan had above a .200 pitching average.

Ruggers Take 2nd in STAG Tournament

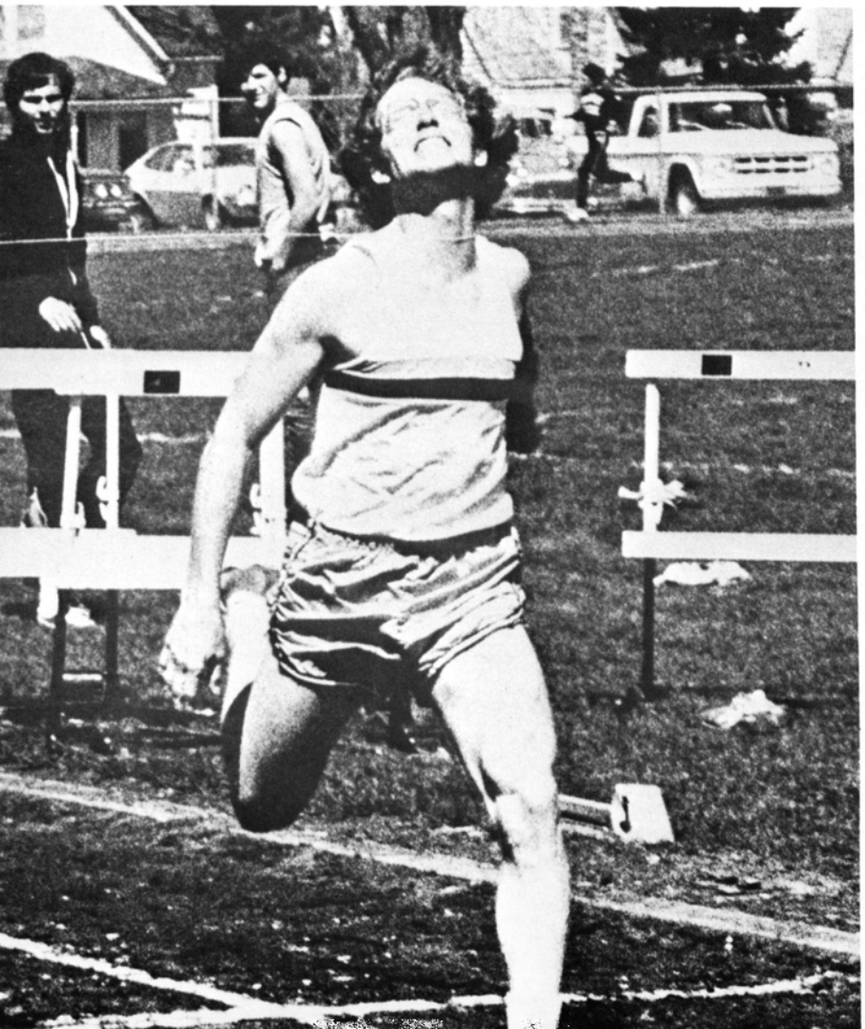

After a slow start in the fall of 1973, the Rugby Club put it together in the Spring to win some tough games. After defeating Rockhurst in the snow, the ruggers lost a heartbreaker to powerful Central Methodist 11-8. After that, they travelled to the Mardi Gras where the ruggers lost two tough games to eliminate them from the tournament. The ruggers came back to Missouri just to lose to Central Mo. State. The ruggers got psyched up as they demolished Southwest Mo. State and won handily over the River Quay Rugby Club. In the Stag Midwest tournament, the Miners earned the right to meet Warrensburg in the finals after beating Northern Iowa, Springfield, and Mizzou. In a tough contest the ruggers were beaten 19-4, thereby taking second place in the tourney.

The ruggers will try to rebuild their team next year due to the loss of many graduating seniors.

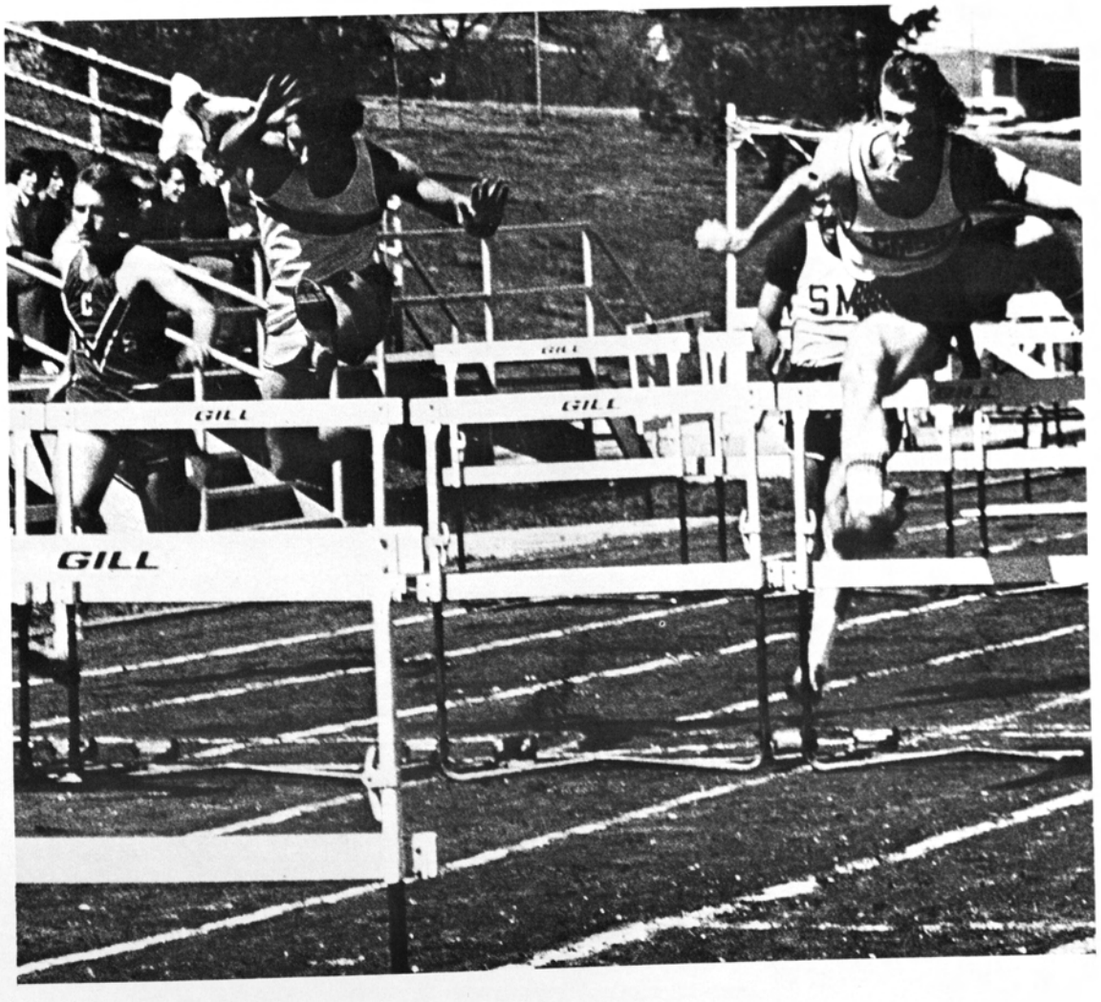

Trackmen Set New Records

Several of the UMR records went by the wayside this past track season. Included were the indoor long jump, indoor triple jump, and outdoor triple jump by Steve Smith. Also, the 60-yd. dash by Sam Brown and Floyd Harris. The two-mile run by Mike Schepflin, 3 mile run by David Craycroft, the high jump, by Ross Kile, and the 2-mile relay. Track man of the year was Steve Smith.

Kappa Sigma Wins Football

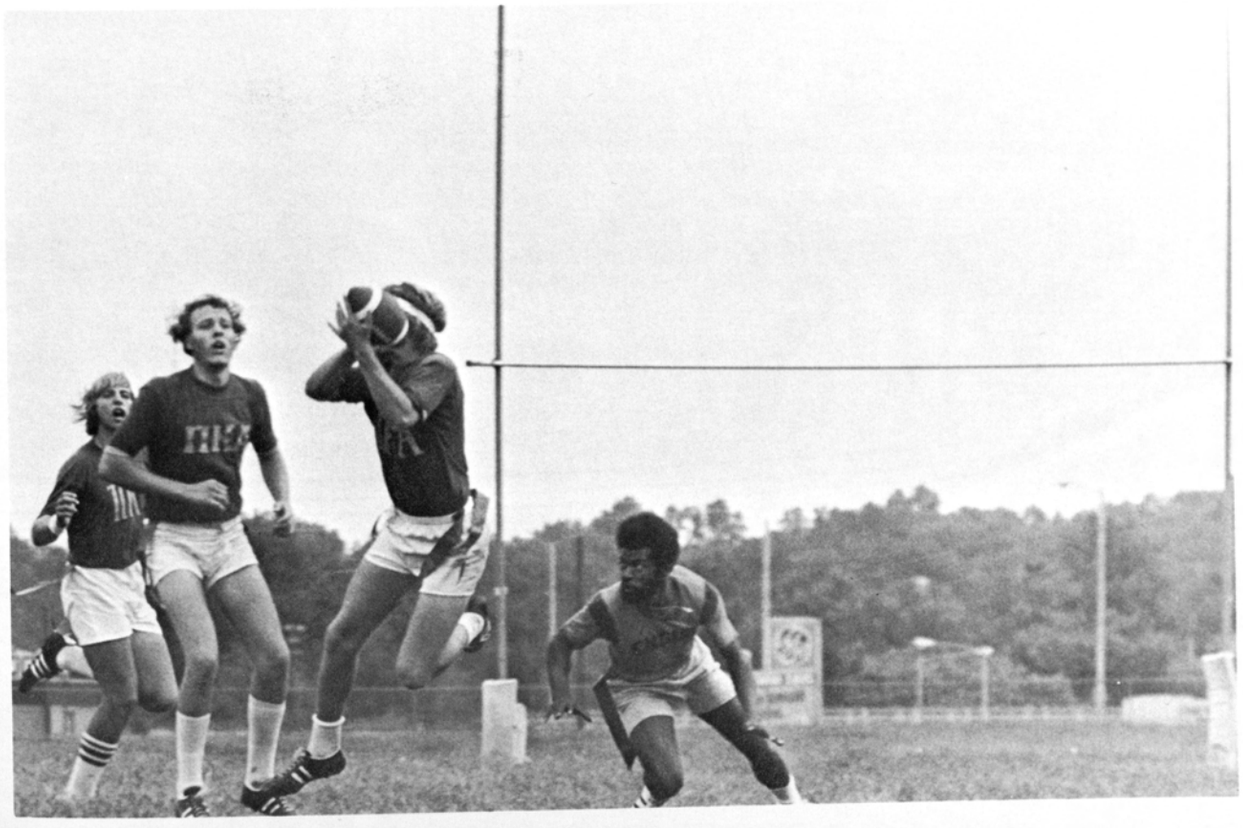

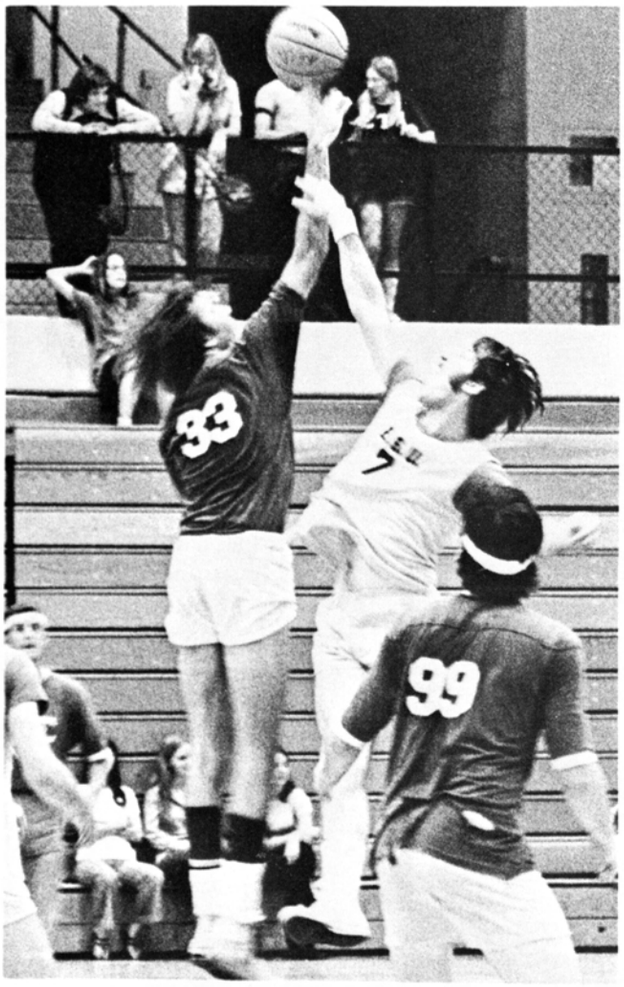

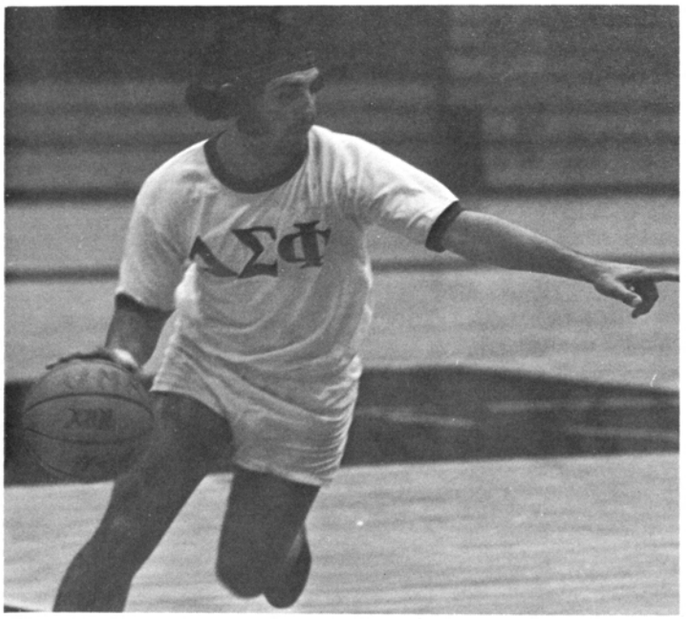

Intramural football was again the highlight of the year. Tough competition in all leagues made it impossible to determine league winners until the final games of the regular season. Emerging as victors were Sigma Tau Gamma, Kappa Sigma, Kappa Alpha, and the 1972-73 winners, Beta Sigma Psi. The championship game featured Kappa Sigma against Beta Sigma Psi. In a close contest, Kappa Sigma emerged as the winners in a 30-21 overtime victory. In the consolation final, Sigma Tau Gamma put it together to beat Kappa Alpha to take the third place spot.

Kappa Sig Wins

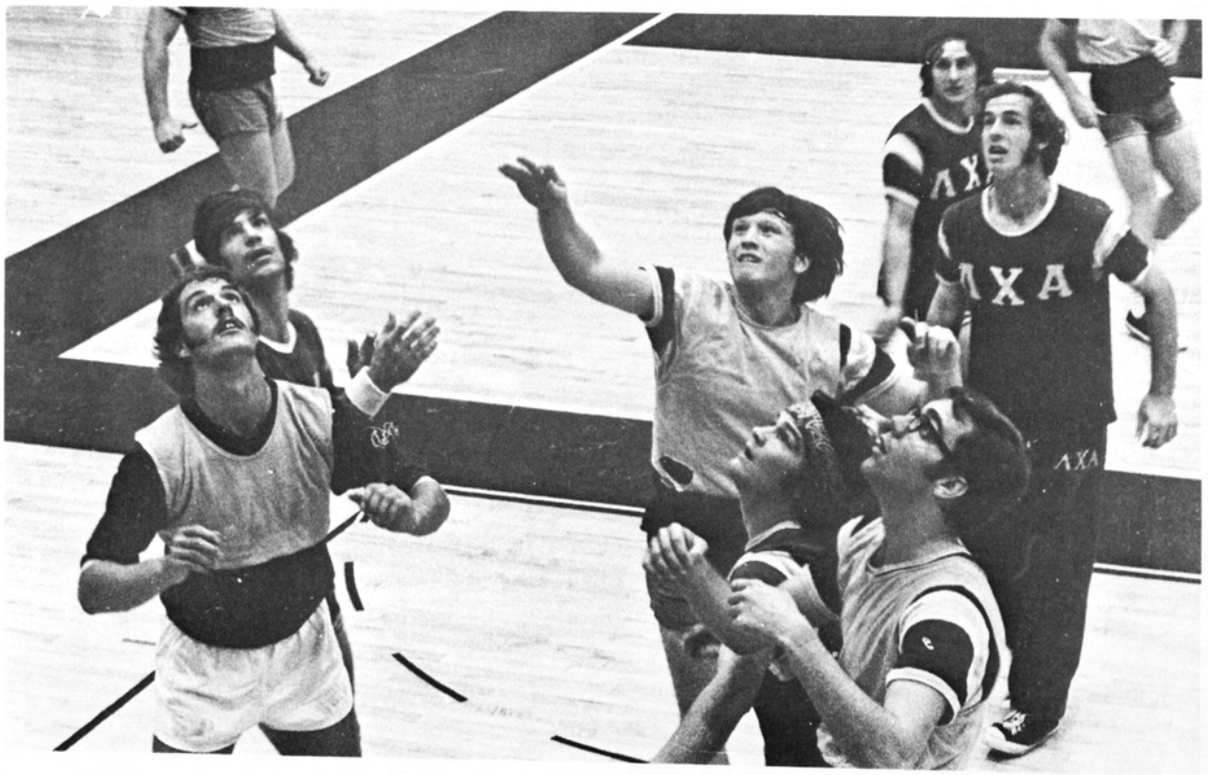

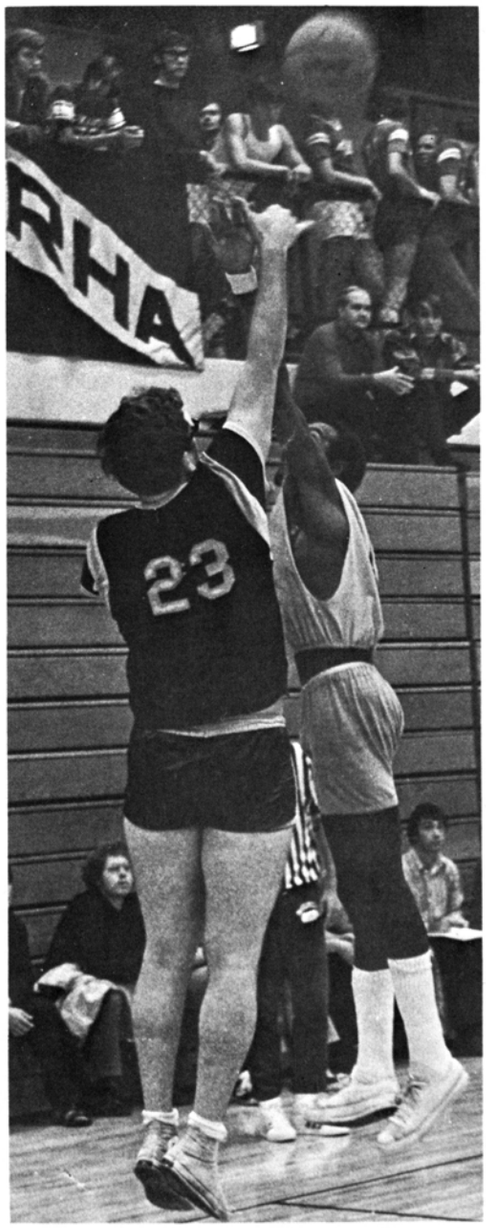

Third Straight

Intramural basketball was full of excitement again this year as four powerhouse teams fought their way through league competition to get to the finals.

Kappa Sigma won its third straight basketball championship with a 41-37 win over Tech Club. This was the climax of an incredible record of 25 straight wins over the last few years. In the contest for third place, MRHA defeated Beta Sigma Psi 45-40.

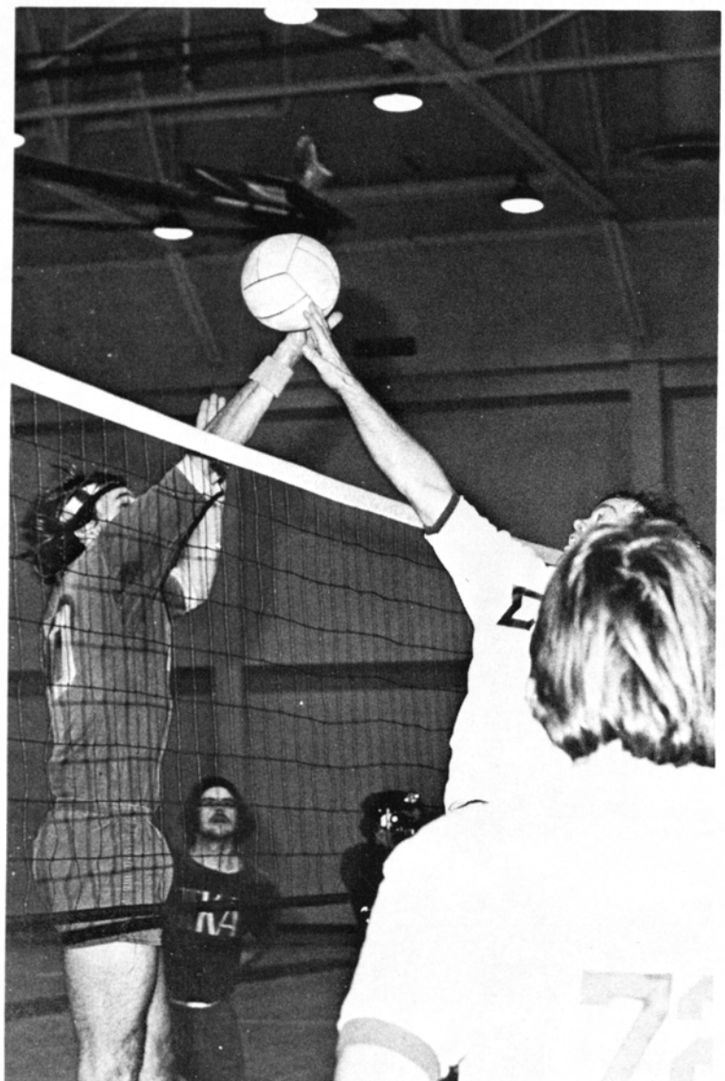

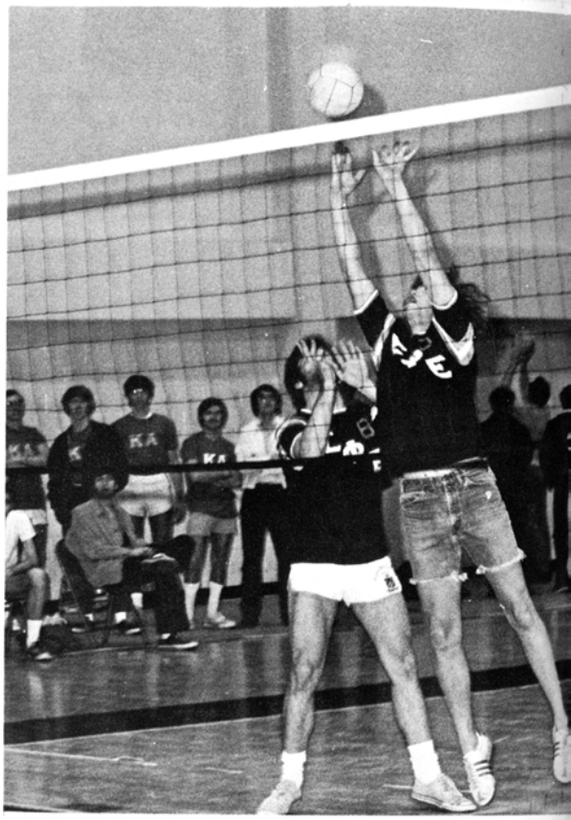

RHA
23

TKE Gains

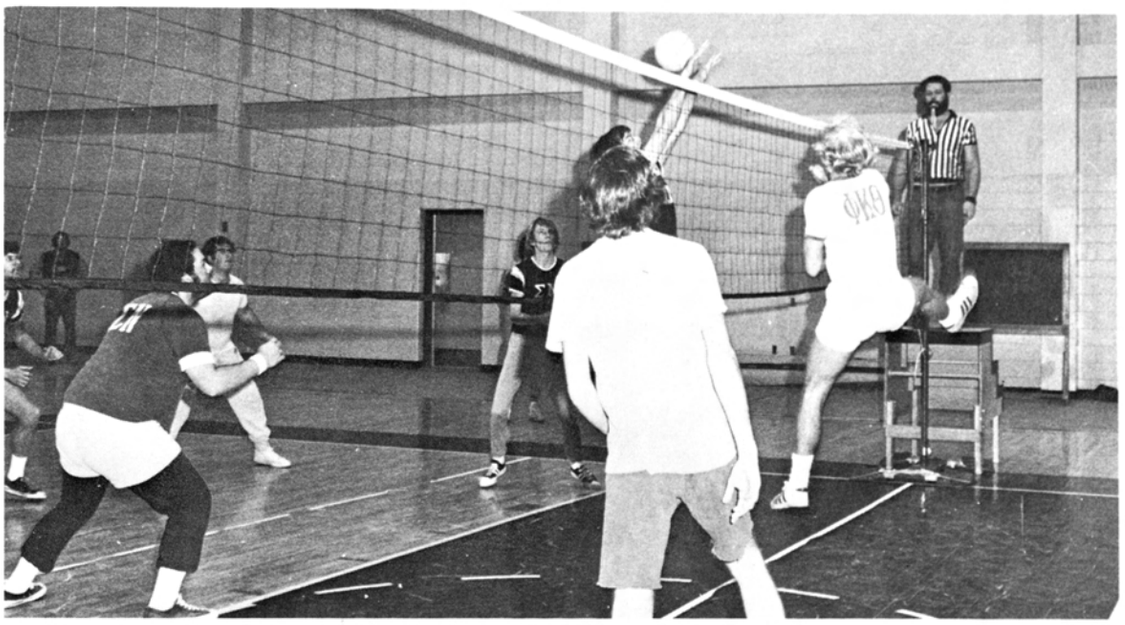

Volleyball Title

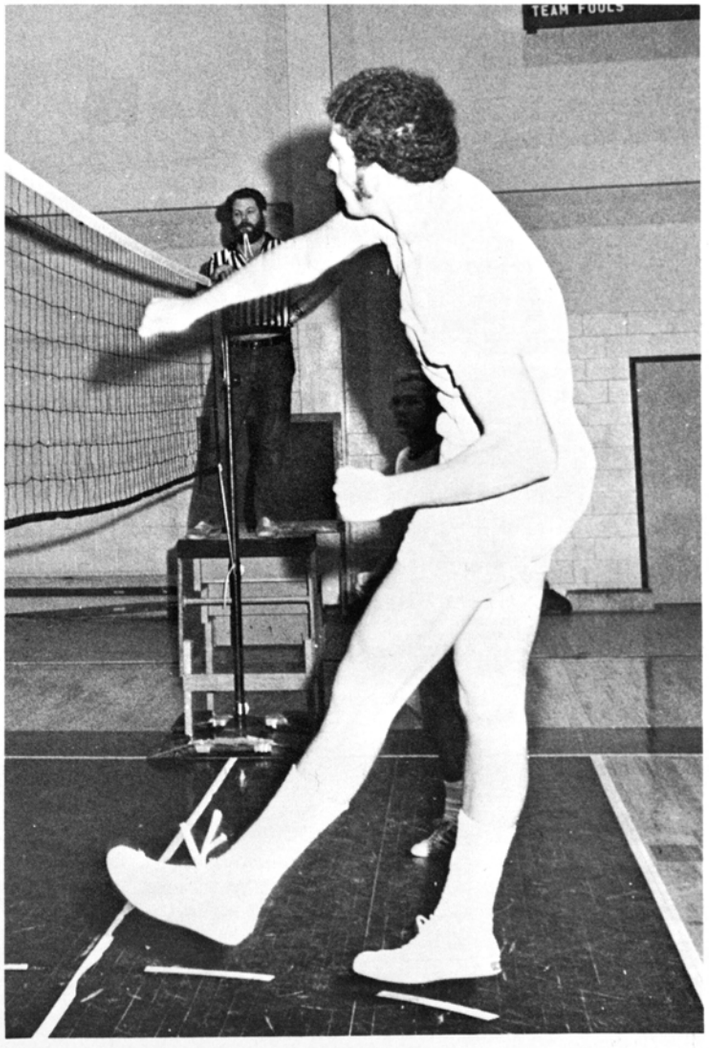

Tau Kappa Epsilon, after defeating defending volleyball champion Kappa Sigma, went on to beat Sigma Pi in the finals to become the 1974 volleyball champs. Great teamwork between TKE's setters and spikers enabled them to breeze through the finals. In the consolation game, a strong team from Beta Sigma Psi defeated Lambda Chi Alpha to take third place.

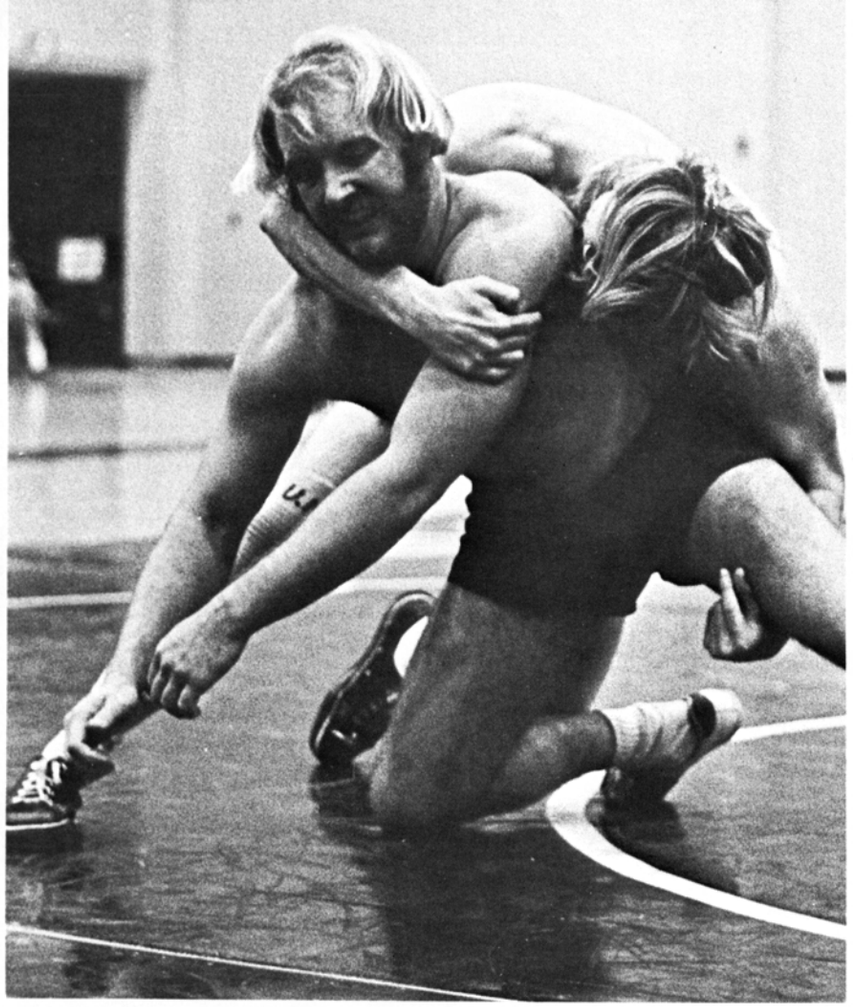

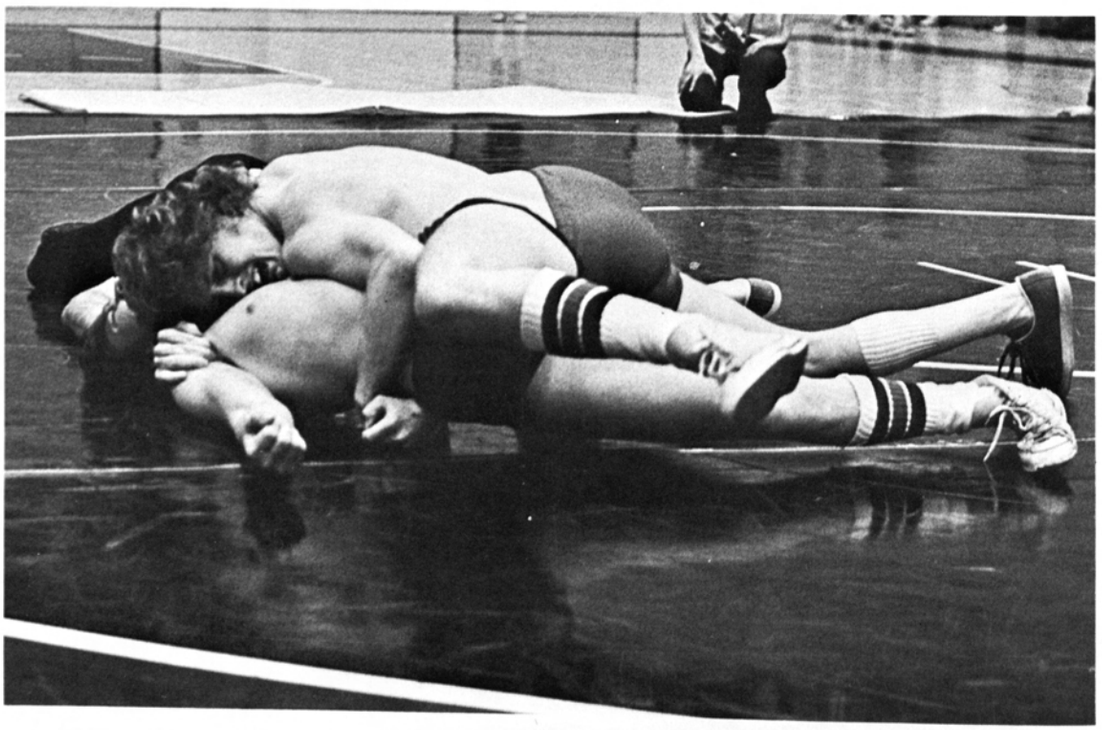

TEAM FOULS

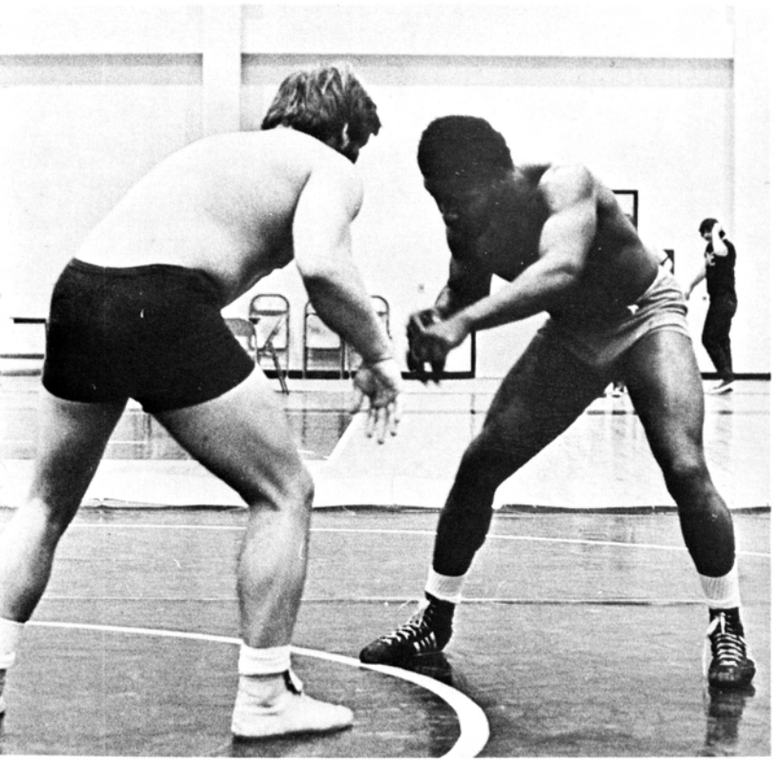

Kappa

Alpha

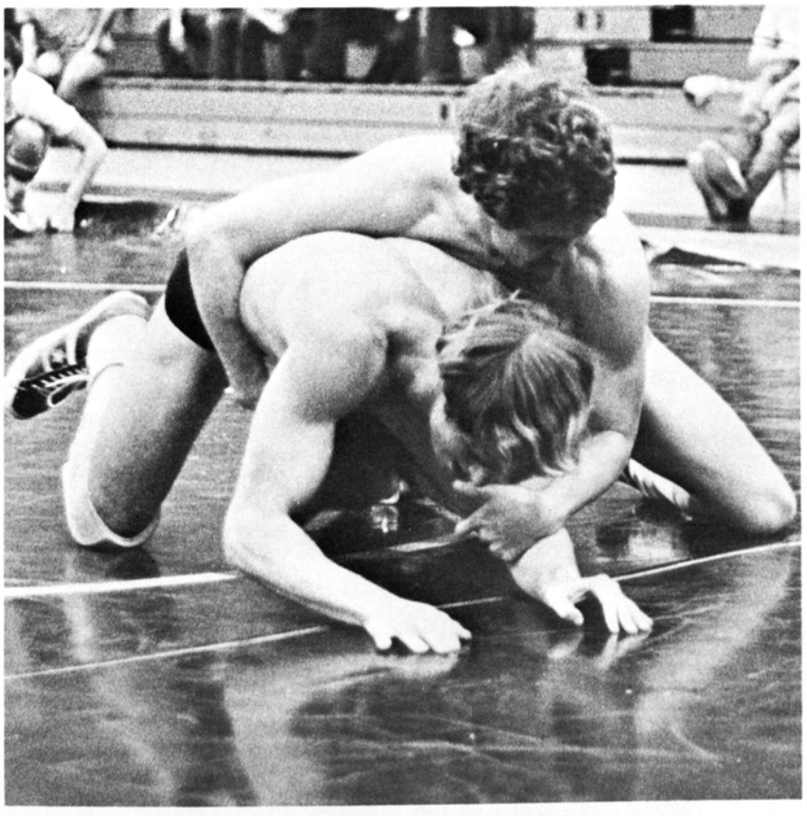

Cleans Up

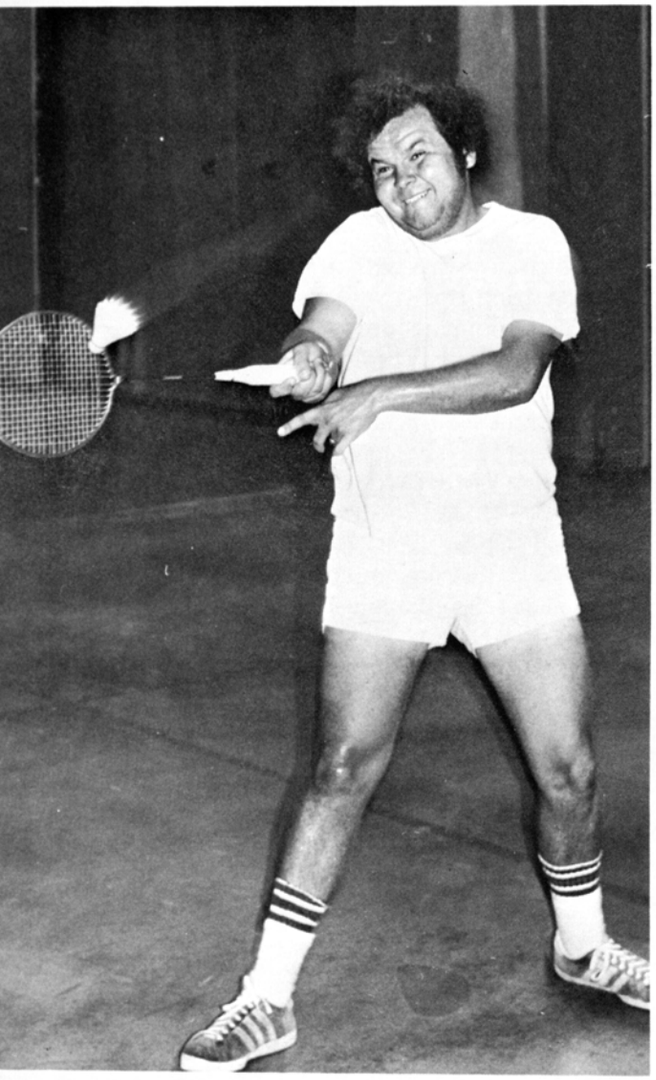

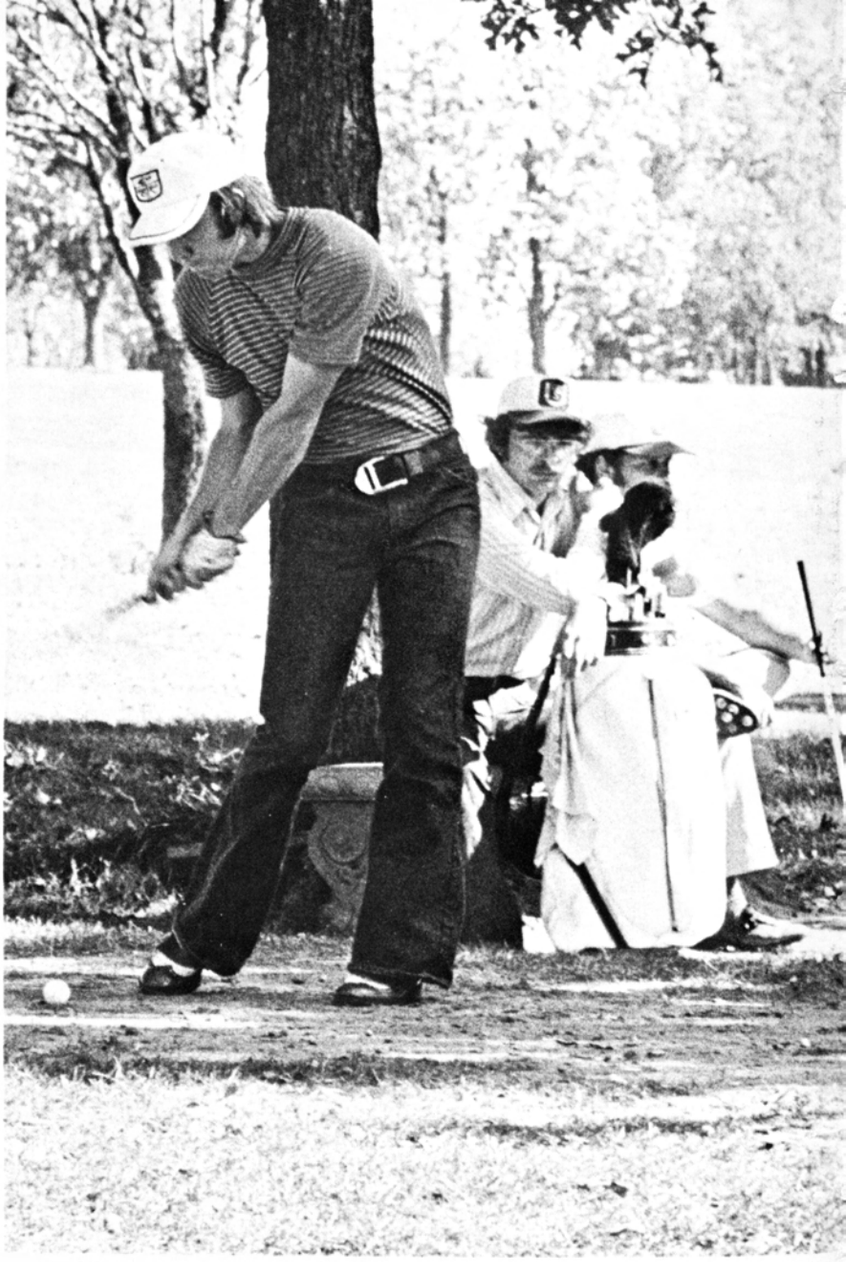

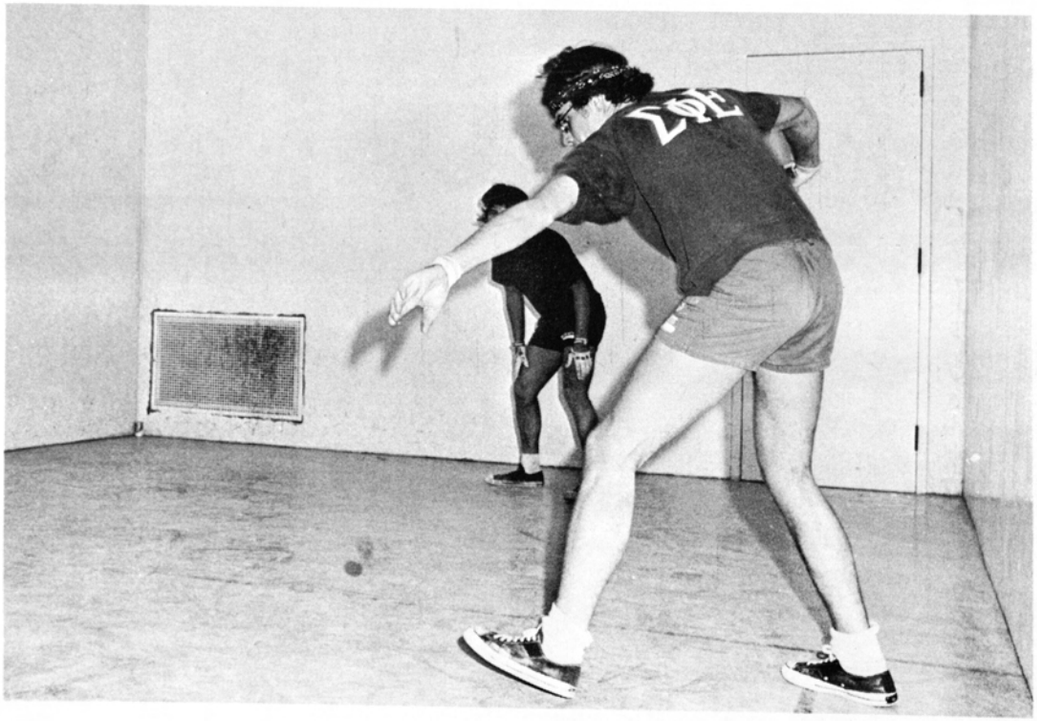

Kappa Alpha ran away with intramural wrestling again this year as they compiled 62 team points compared to second place Kappa Sigma who had 42 points. KA's champs included Larry Davis (130), Dennis Woodruff (160), and David Seaman (177). Other champions were Dennis Visos (123) PiKA, Francis Moore (137) Sig Ep, Jim Dudley (145) Tech Club, Ken Dufner (152) TKE, Mark Kassing, outstanding wrestler, (167) Kappa Sig, Gary Roebke (191) Kappa Sig, and Steve Suellentrop (HW) Kappa Sig.

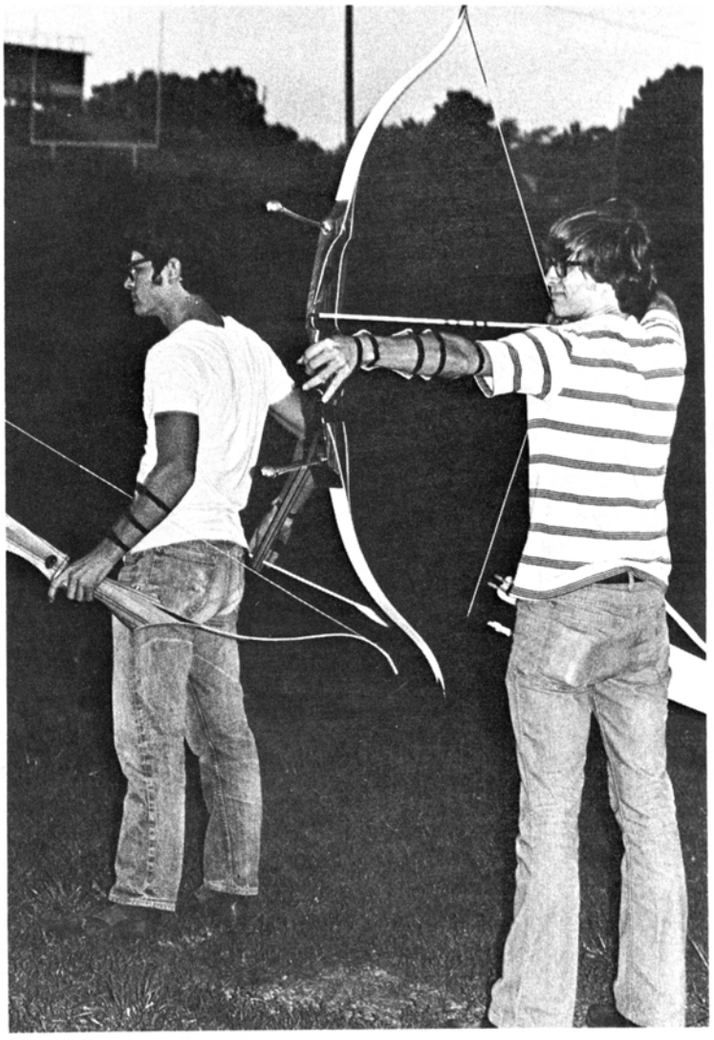

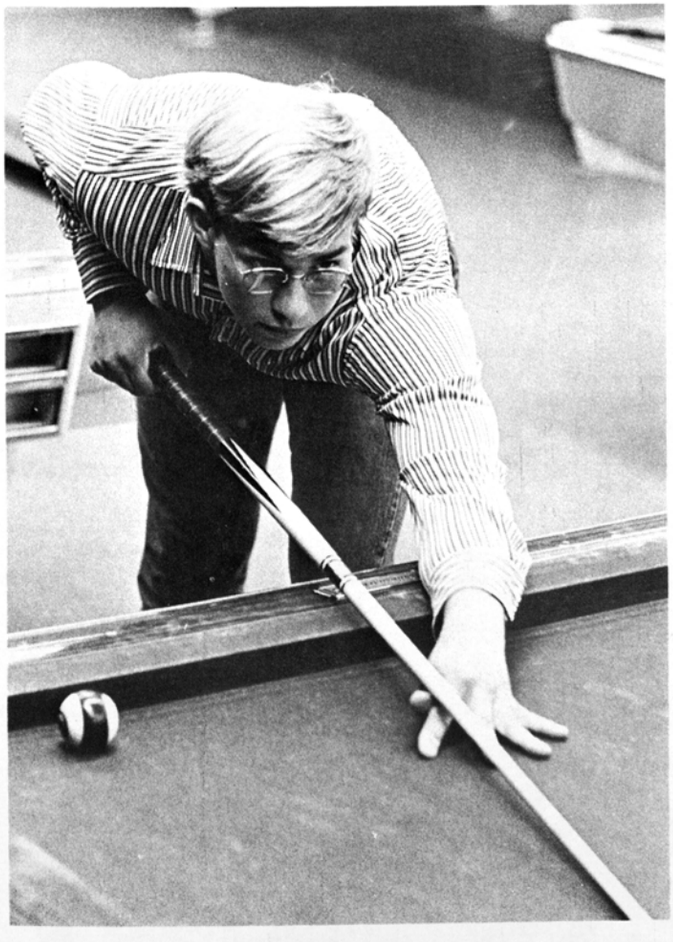

ΣΦΕ

Individual Sports Keep Standings Close

Individual sports helped keep intramurals close this year. In golf, MRHA was the team champion with Stein and Tattman giving them that honor. Individual medalist was Al Braun from Independents.

Key and Congiardo won archery for Lambda Chi with a score of 205 to nip out MRHA. Key was marksman with a score of 112.

Phil Weddle from PiKA was the billiards champion with Rau from GDI as runner-up.

In badminton Seiler from MRHA defeated Moehleman from Ind. for the singles championship, and Lang and Wilhelm from TKE beat Dombek and Holcer for the doubles title. Team champions was TKE with Sig Tau as runner-ups.

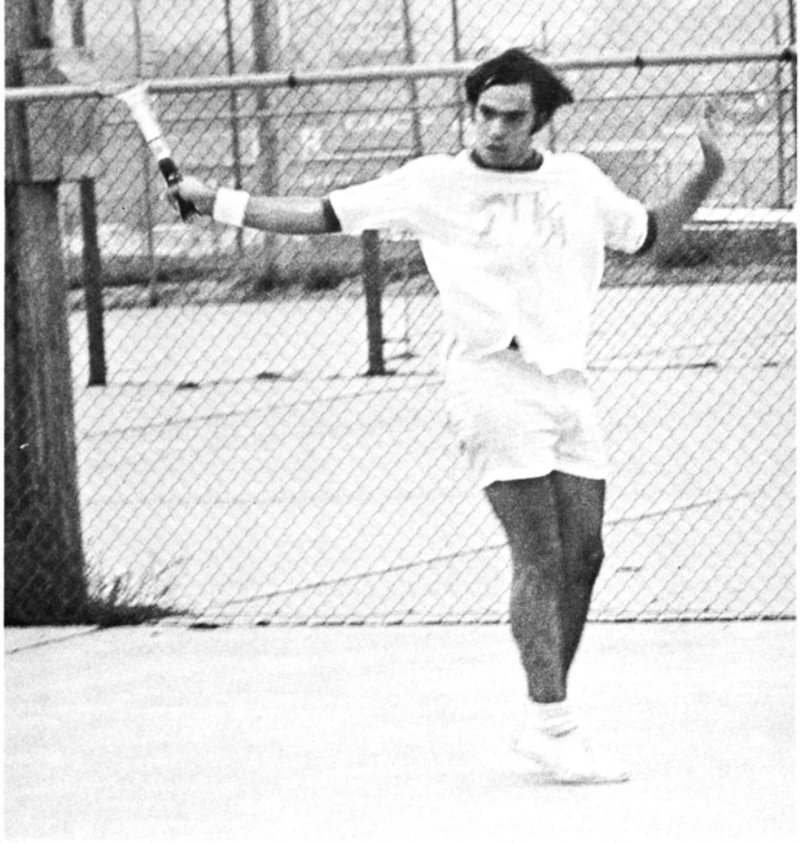

Scheckel of Delta Sig won singles handball by beating Stuat of Mates while Finer and Protempa of Delta Sig edged out Beitch and Chervitz for doubles championship. Team champion was Delta Sig with Kappa Sig coming in second.

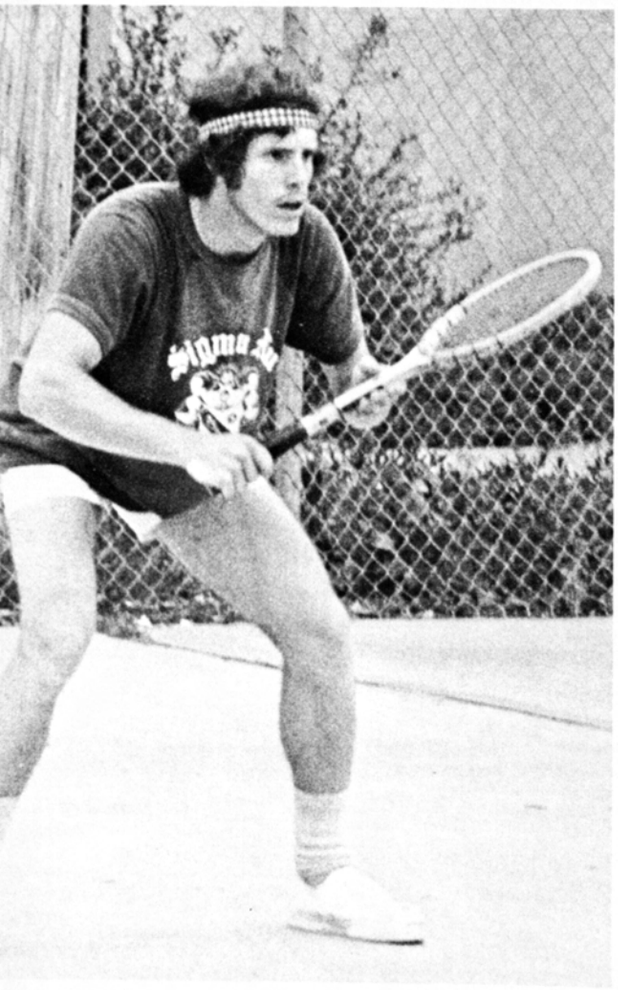

In cross country Hawthorne of Campus Club was the individual champ with Schreer from Sig Ep finishing second. Kieffer and Ziegler from Tech Club combined for the team championship while Sig Ep was team runner-up.

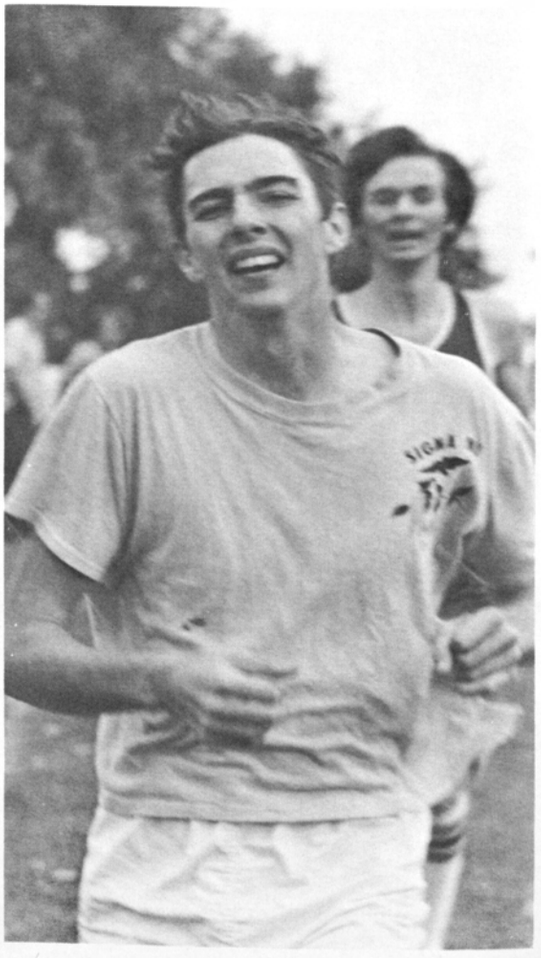

In soccer, powerful TKE beat the International Students in the finals to become champs.

In intramural tennis Buchcannon and Barczewski of PiKA were the singles champs while Murphy and Diestelkamp of Sig Tau were the winners of the doubles competition.

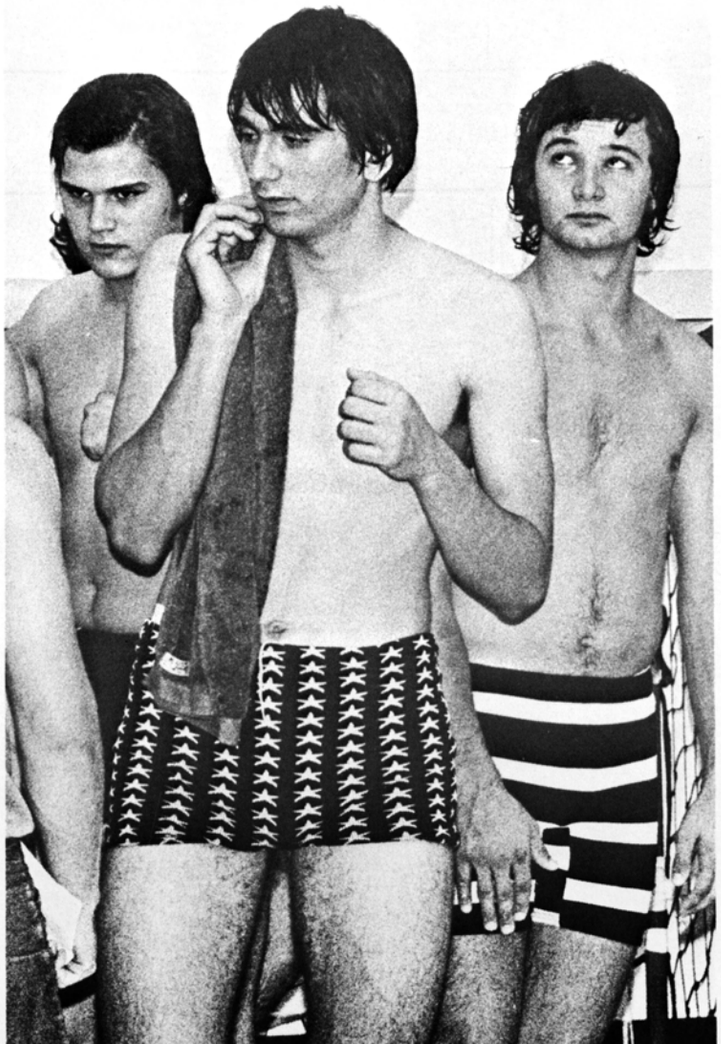

Winner of rifle was Kappa Sig with a score of 941 while Lambda Chi was a close second with a 918 score.

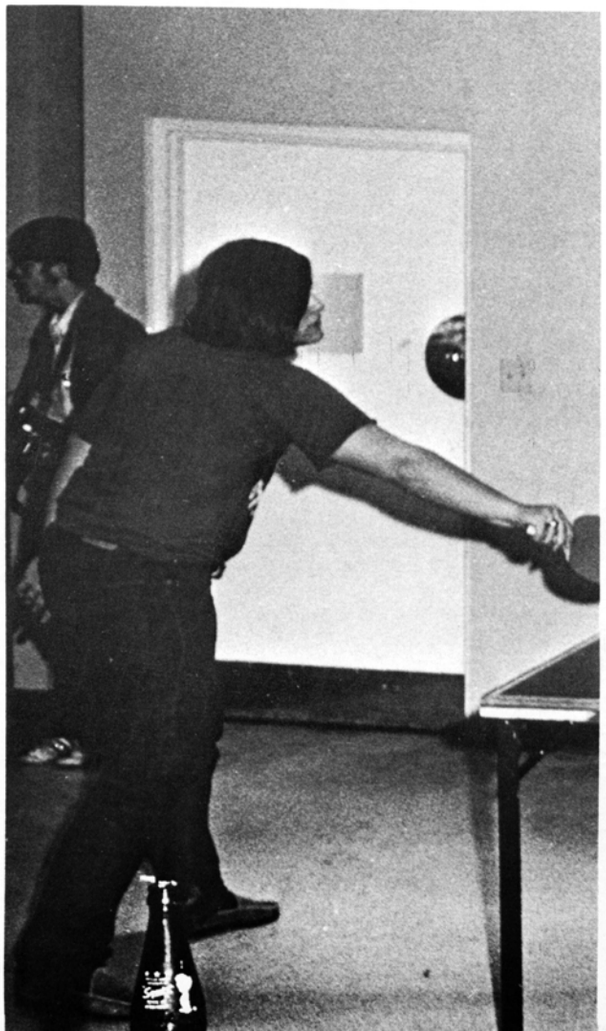

Kappa Sigma dominated intramural swimming again as they accumulated 49 team points compared with runner-up Kappa Alpha's total of 26 points. Kappa Sig won the 200 yard medley relay, the 50 yard backstroke, and the 200 yard freestyle relay to help clinch the championship.

Team champions for table tennis was Engineers Club with the International Students taking the runner-up spot. Jarapanich of Int. Stu. beat Hollocher of Engine Club in singles while the team of Payne and Garrett whipped You and Lam of Int. Stud. for the doubles title.

In bowling, the team of Simmons,

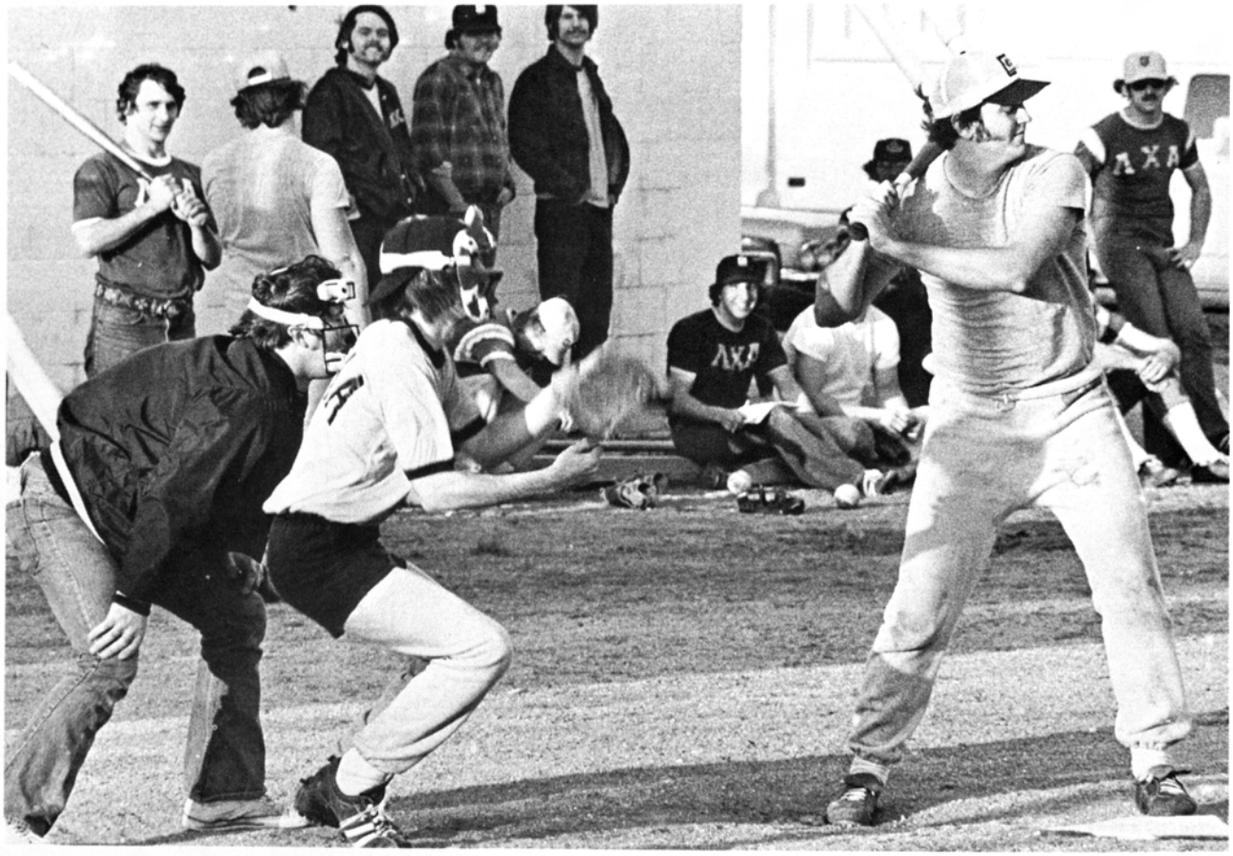

Wenk, Miller, Bertram, Fronich, and Mattloge from MRHA rolled a 2654 series to edge out TKE for the championship. High triple series was Hurley of Lambda Chi with a 594.

Rodens of TKE defeated Yomitz of GDI for the singles championship in horseshoes and Beta Sig's team of Johnson and Wegener won over

Woodruff and Seibel of KA for the doubles title. Team champions was TKE with runner-ups being Kappa Sig.

Intramural track climaxed the intramural season as TKE won it handily. TKE's relay team in the 440 was Meier Wilhelm, Signoria, and Charpentier. They won it in record time for intramurals. Runner-up was Alpha Phi Alpha.

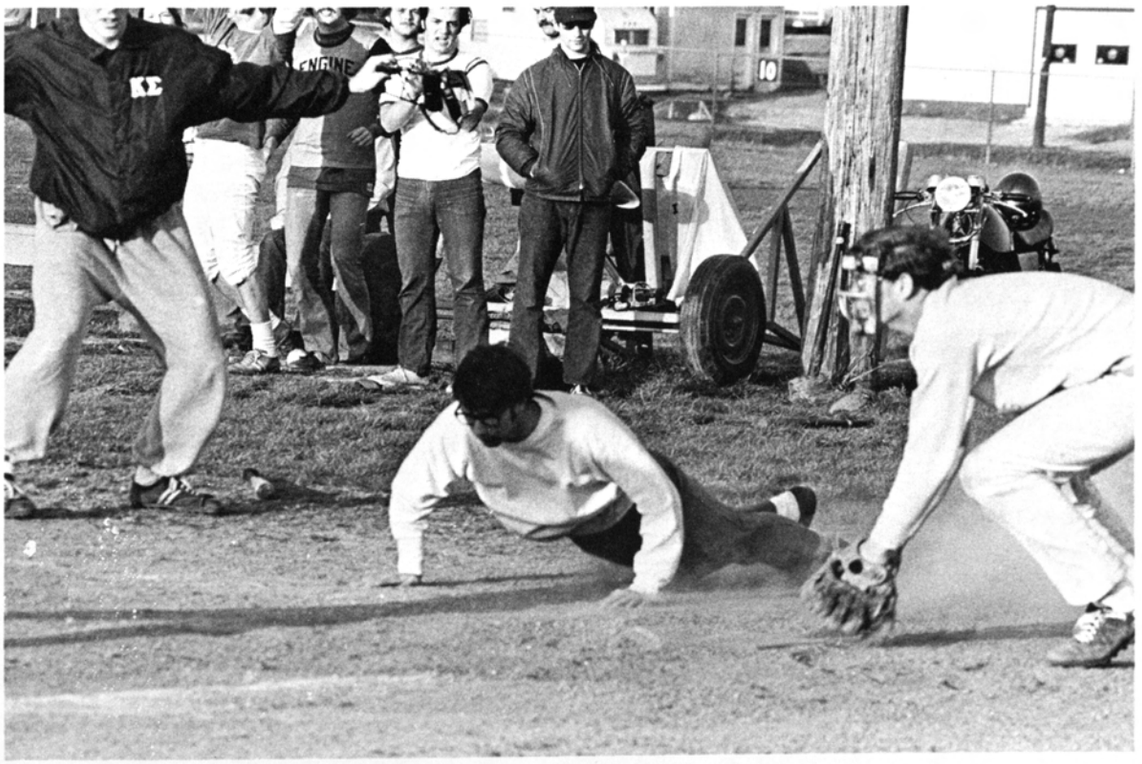

ΛΧΑ
ΛΧΑ

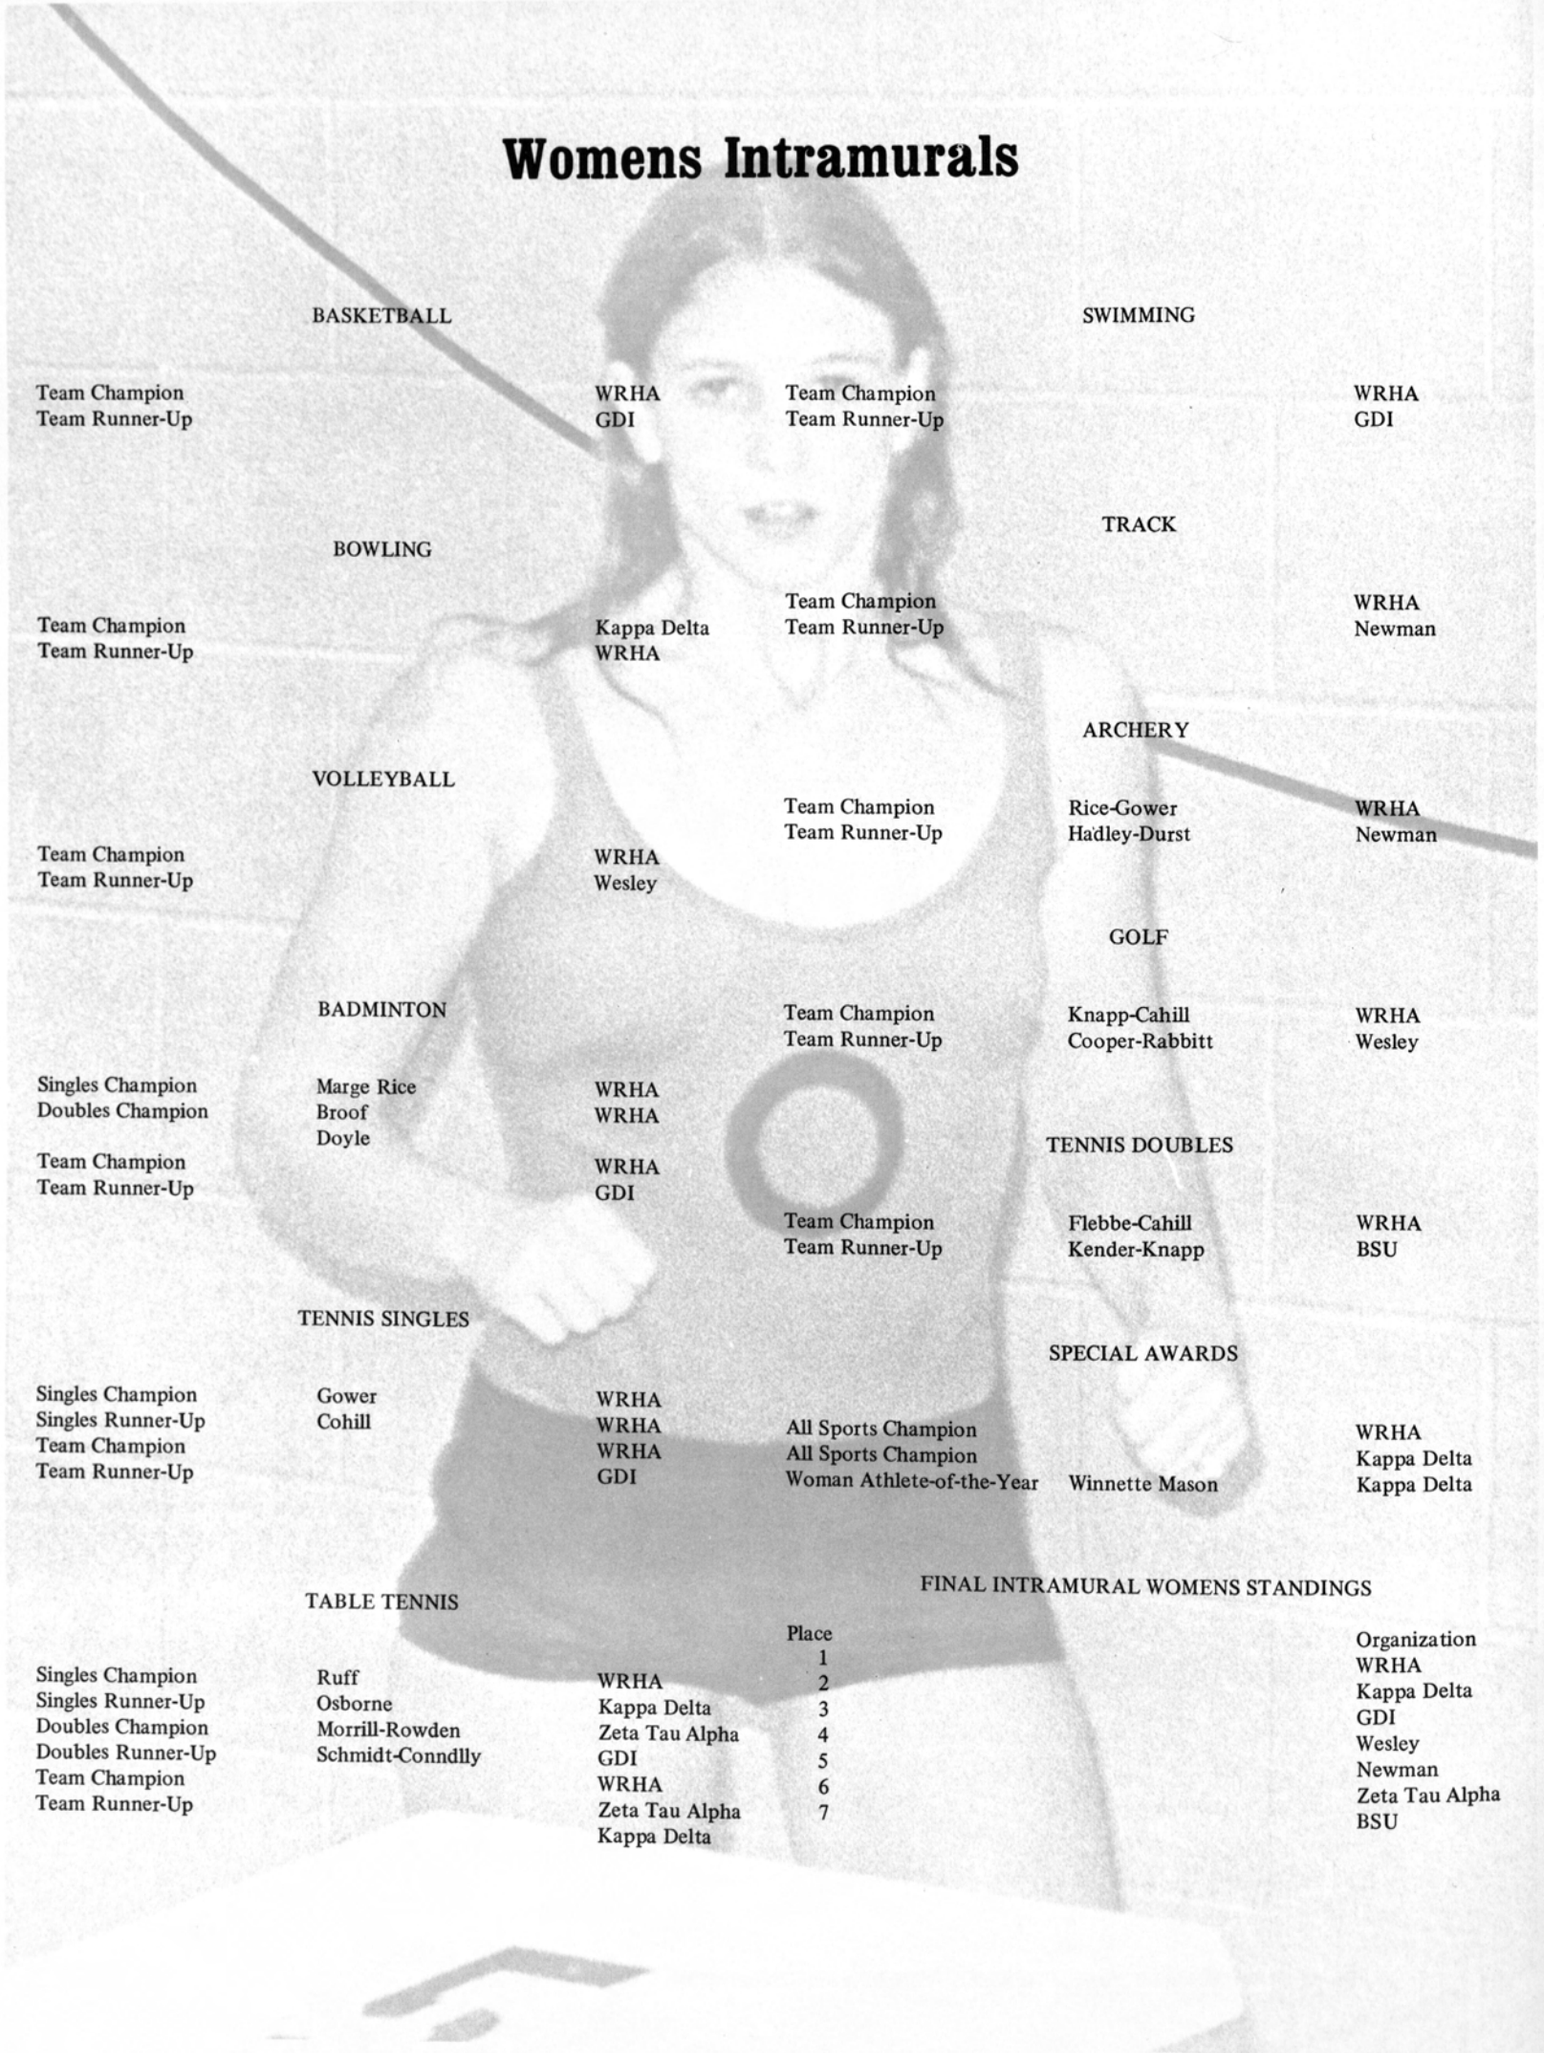

Pikers Win Softball

Intramural softball was played differently this year due to the weather. A double elimination system was set up in the leagues so the season could be completed. The final league champs was Kappa Sigma, Beta Sigma Psi, Sigma Pi, and Pi Kappa Alpha. The finals saw PiKA against Beta Sig. There was really no contest as the Pikers ran away with the game 9-2. Sig Pi beat Kappa Sig to clinch third place in the consolation final.

WRHA Dominates Women's Intramurals

First place in women's golf this year was taken by WRHA and second place was won by Wesley. Medalist was Knapp from WRHA and runner-up was Rabbitt from Wesley.

Women's table tennis was won by WRHA. Singles champion was Ruff from WRHA and doubles champion was the team of Morrill-Rowden from Zeta Tau Alpha.

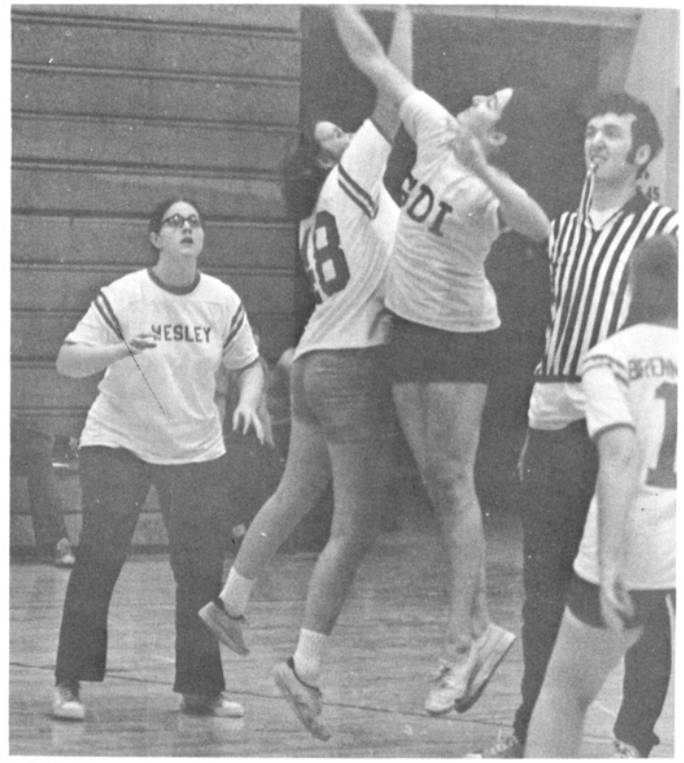

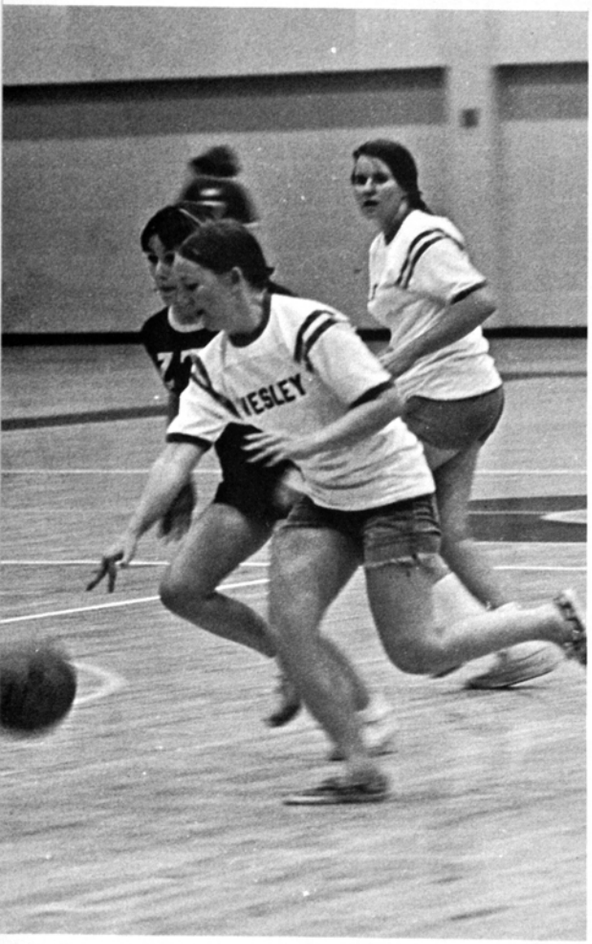

WRHA won singles tennis with GDI close behind in second place. The singles champion was Debbie Gower from WRHA and the singles runner-up, also from WRHA, was Peggy Choill.

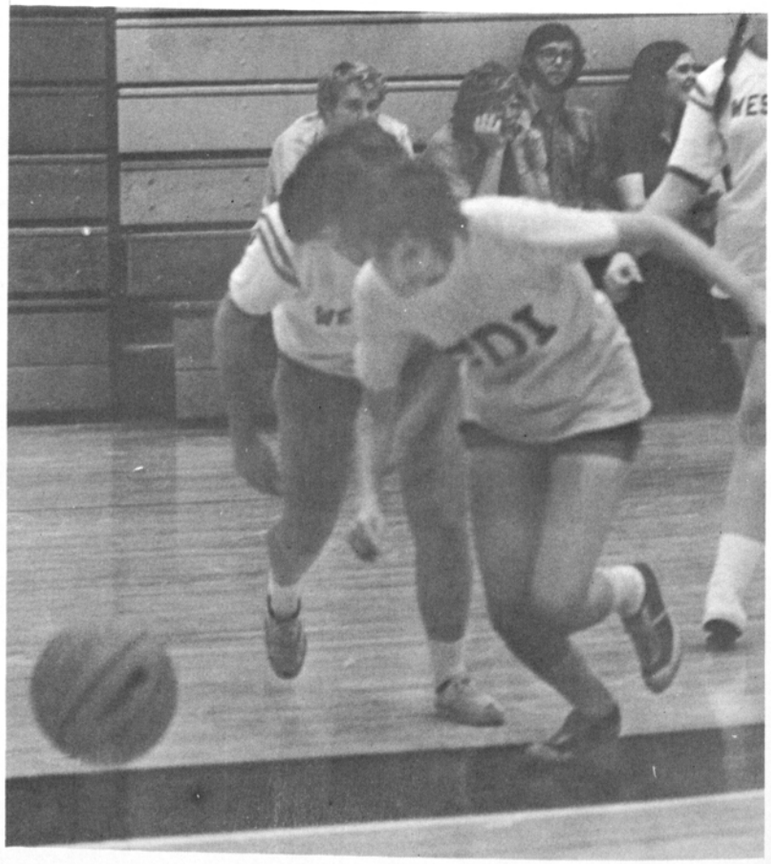

WRHA took first in both the singles and doubles competition in womens' badminton. Singles champion was Marge Rice and the doubles champion

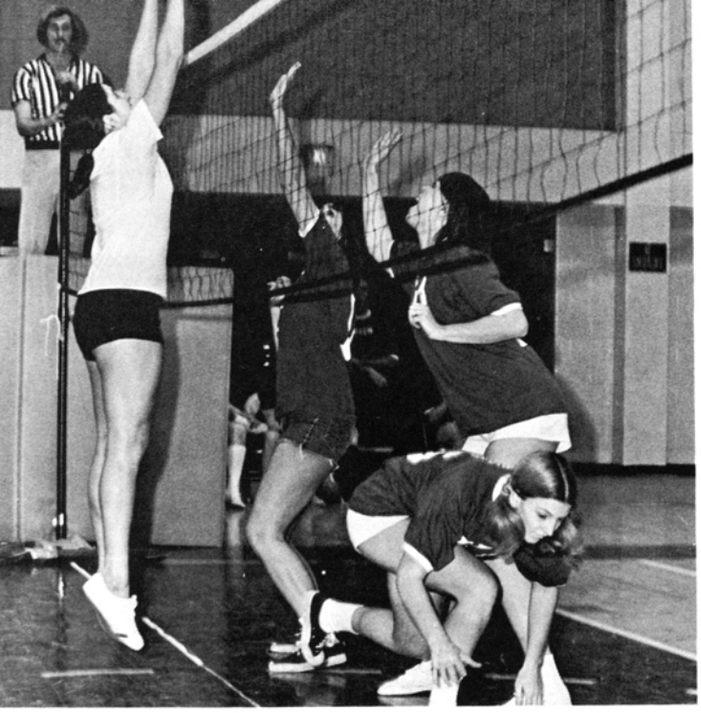

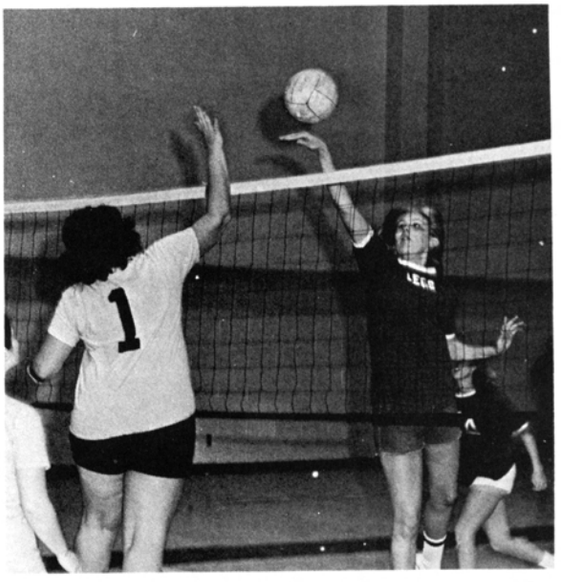

team was Broof and Doyle. GDI took second in both categories. High triple series of 455 in intramural bowling by Winnette Mason gave Kappa Delta first place in the event. Second place was WRHA.

Womens' billiards was also won by Kappa Delta with Sharon Brady the champion. Second place was GDI, During being the runner-up.

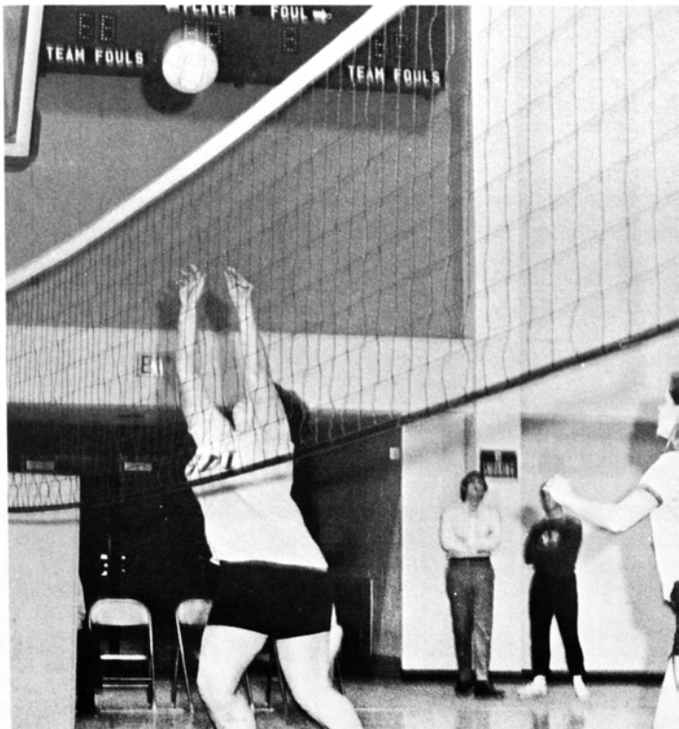

Womens' basketball was dominated by WRHA. GDI women took second place honors.

A total of seven womens teams participated in intramural volleyball, but once again WRHA was at the top. Wesley took second place in the sport.

unknown Armenian autocrat

"Is it progress if a
cannibal uses knife and fork?"
Stanislau Lec

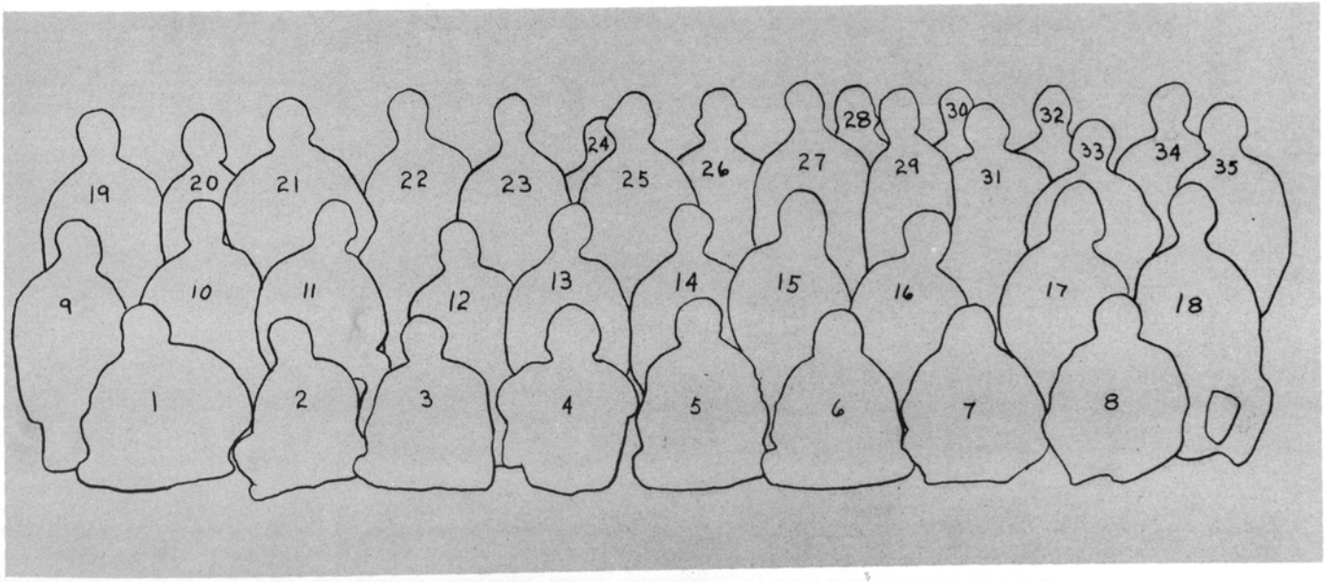

"Progress imposes not only
new possibilities for the future,
but new restrictions."

"The desire to understand the world...

and the desire to reform it,

PATS
74
ΒΣ

are the two great engines of progress

without which, every human society...

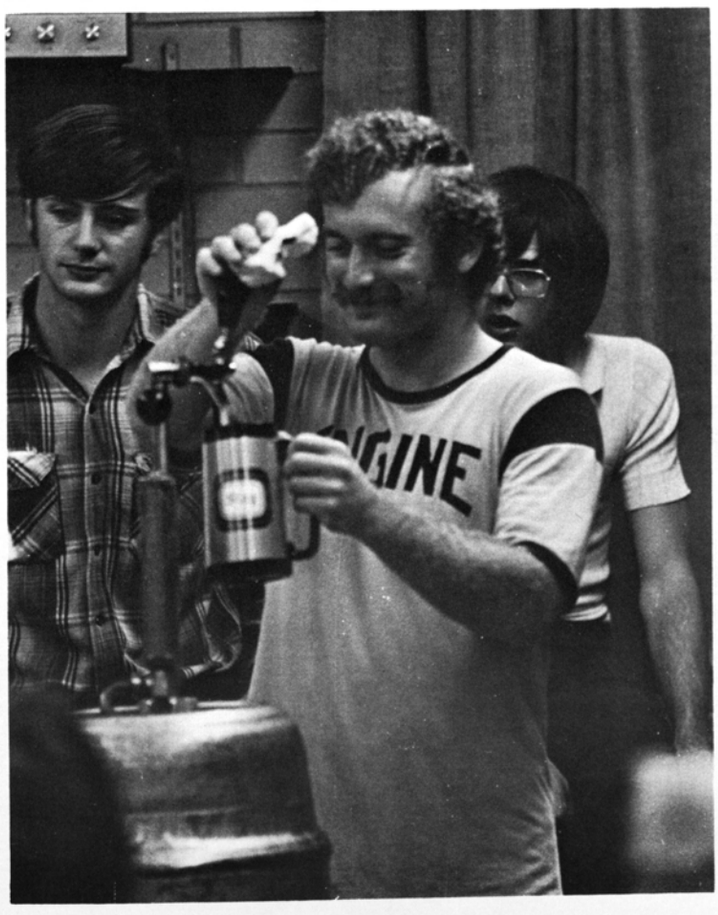

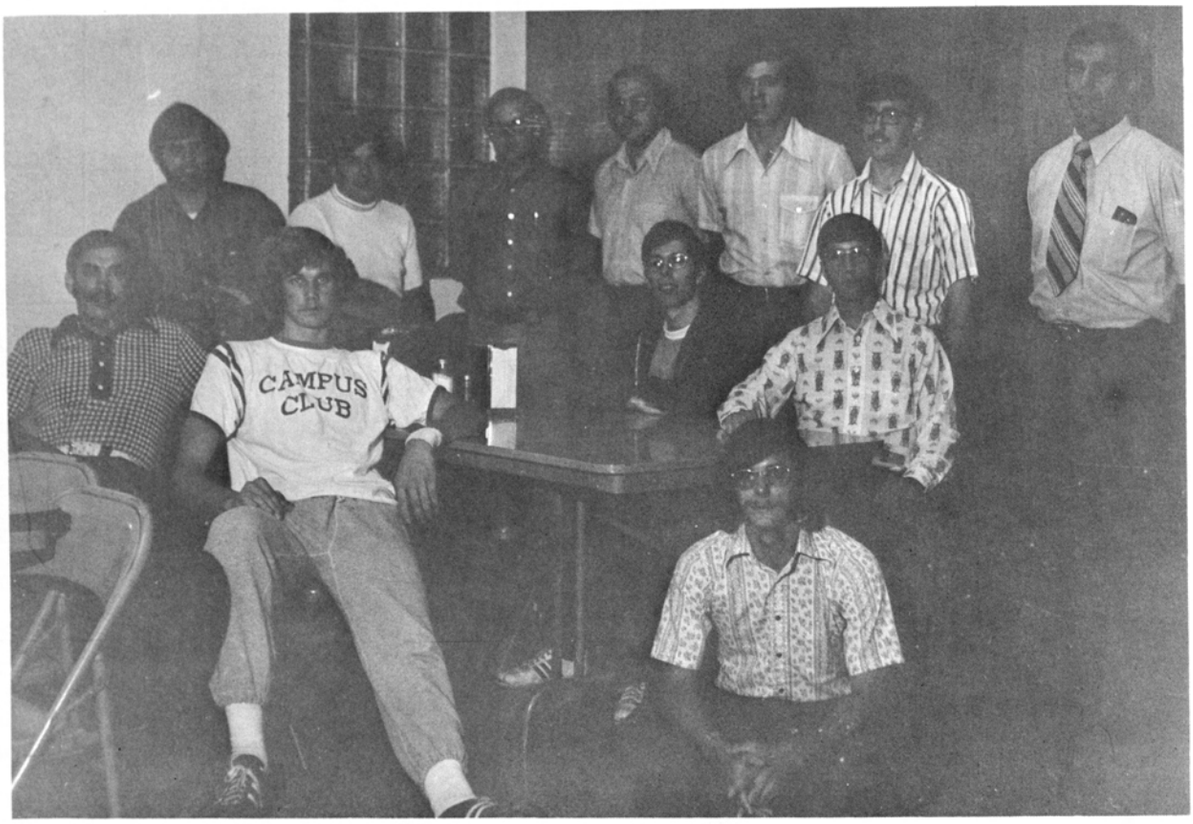

would stand still or retrogress."

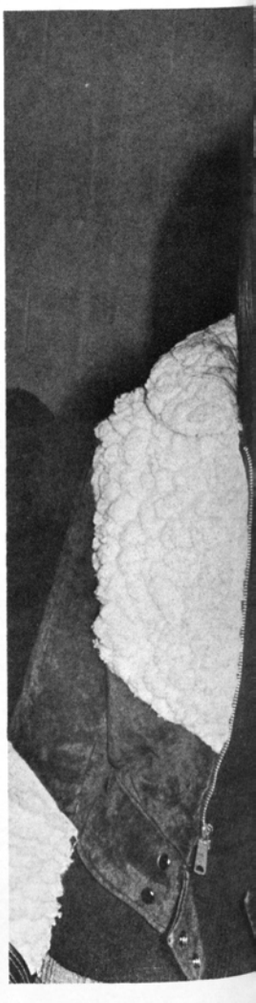

-Bertrand Russell

"Progress,
Man's distinctive mark alone."
Robert Browning

"All progress is precarious,
and the solution of one problem
brings us face to face with another problem."
Martin Luther King Jr.

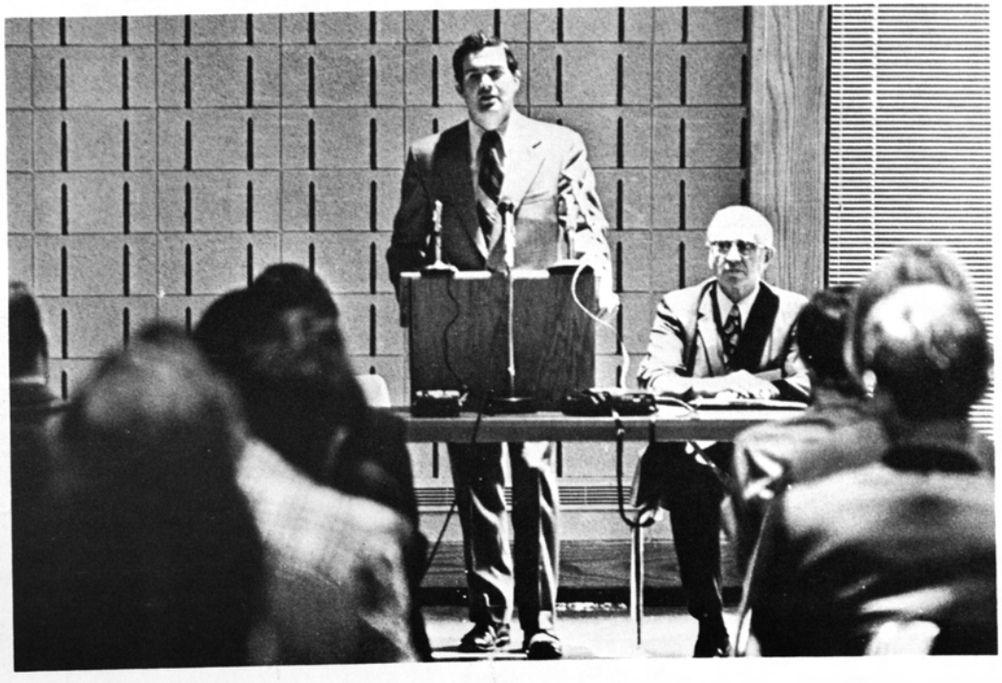

"The world owes all it's onward impulses to men ill at ease. The happy man inevitably confines himself within ancient limits."

Nathaniel Hawthorne

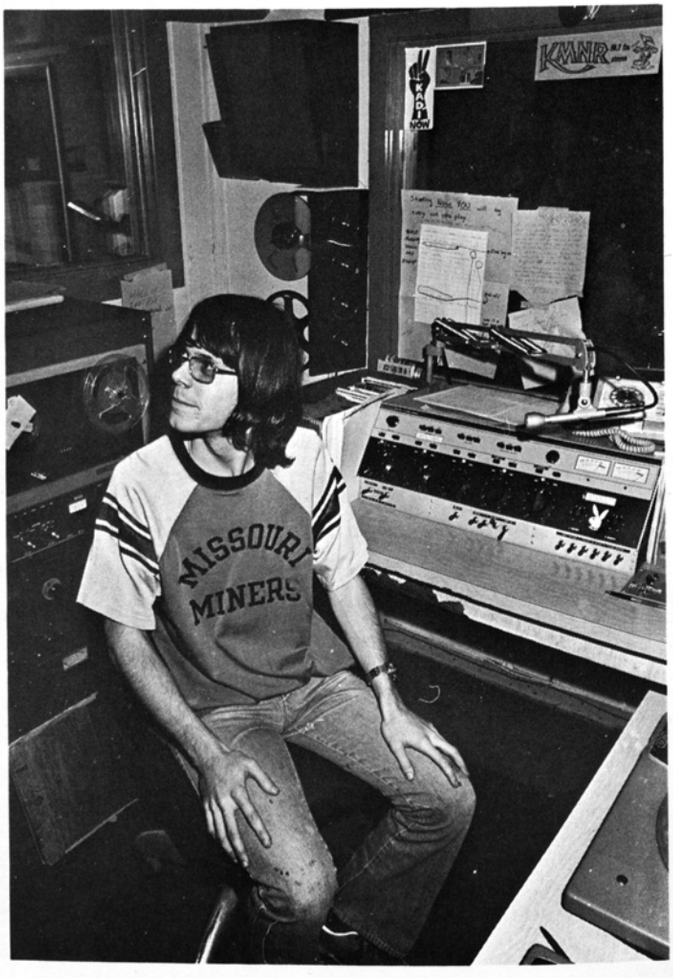

"Progress, therefor, is not an accident, but a necessity. . . It's a part of nature."

Hubert Spencer

"Everything nourishes what is strong already."
Jane Austin

"The progress of human society consists. . .in. . .the better and better apportioning of wages to work."
Thomas Carlyle

"There can be no progress if
people have no faith in tomorrow."
John F. Kennedy

"All progress
is based upon a universal innate desire
on the part of every organism
to live beyond it's income."
Samuel Butler

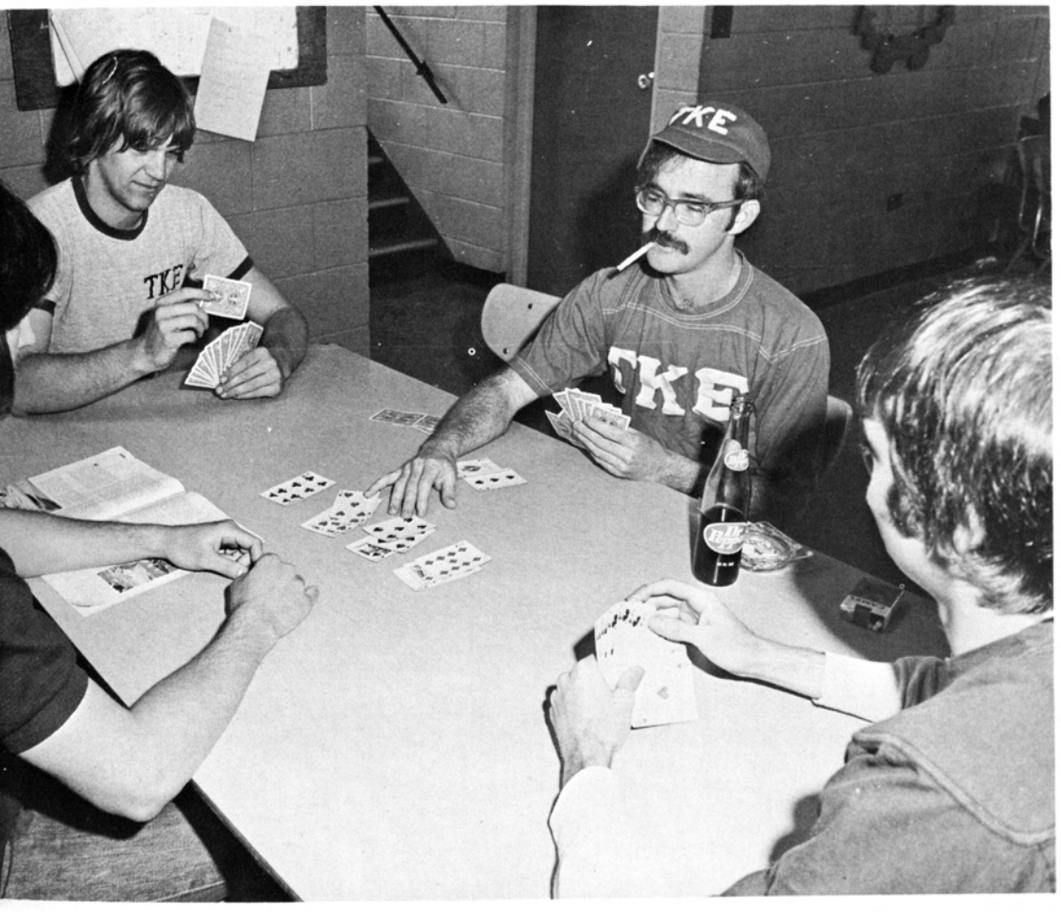

"The past, the future,...

...two eternities."

-Thomas Moore

"Today, the need for engineering graduates is so great that we shouldn't have to concentrate on gradepoints as much as in the past. Take this opportunity to become involved in our campus organizations. Whether it be a social, service, or academic honorary organization; with enrollment as low as it is, it will take a concentrated effort on your part to carry on the work of each organization and to strengthen its position when possible. Besides it really is "good times" to be involved."

John Cummings

"To be entirely successful, an individual must be really involved; but to be happy, he needs only to be real."

Dave Rinas

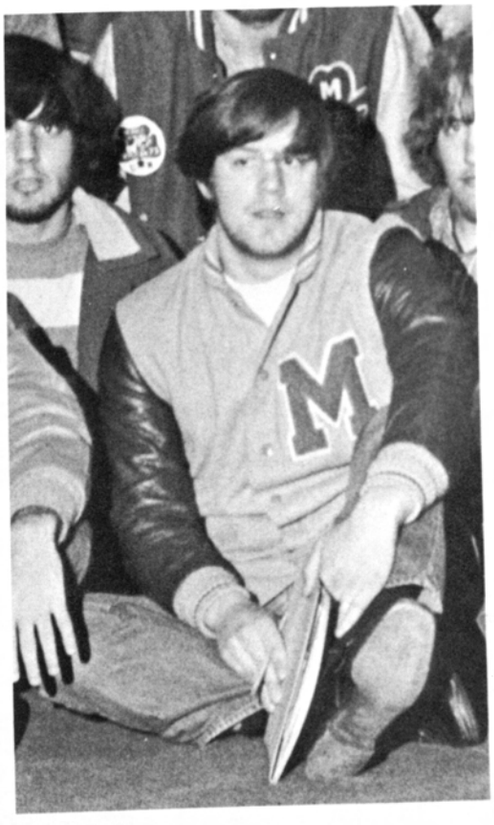

"Lets all drink a couple of B's, smoke a few numbers and get naked."

James Joseph Watts

"As president of Theta Tau and Blue Key, I had to refuse the presidency of other organizations. There comes a time in every students life when he must stop being a campus jock and get back to the business of graduating. I've had a great time."

(The President)
Tim Holcer

"College is a time for learning and expanding one's talents. It is also the greatest single opportunity for enjoying oneself. An efficient student will obtain optimum benefits from all phases of his college career."
Daniel Osbourn

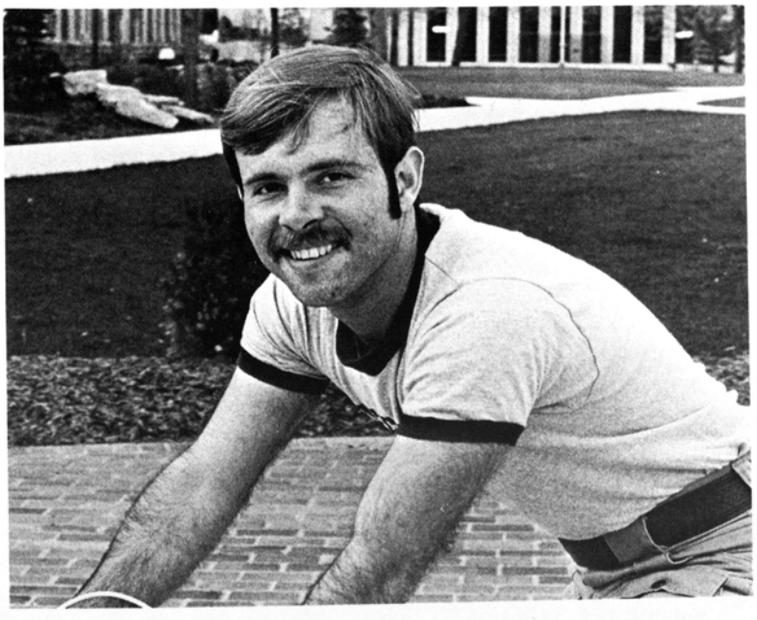

"A coed at UMR is in a unique situation from which she can benefit immensely——and I don't mean catching a husband! Any girl with serious career plans in the technical sciences or engineering fields must be able to communicate well with her colleagues, which are predominately men. She must feel at ease talking to a group of men, be able to work with them as if she were one of them, yet still remain a woman in their eyes. Through active participation in activities on campus, one learns to respect individuals for what they are, and cooperate and work as a team in order to produce some worthwhile results. This experience is extremely valuable in any job situation."
Joan Brune

"Organization and discipline are the keys to success on this campus. First one must organize his studies, his activities and his time. Then he must organize his mind."

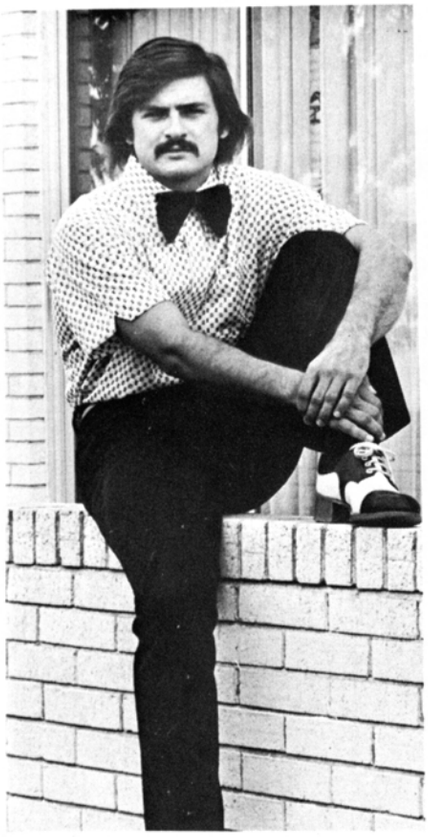

Harvey G. Randall

"I'm proud to be able to say that I graduated from UMR because of its fine engineering heritage. This heritage seems to unite the students here in spirit and in goal. I only hope that this school will continue as a top engineering university and not be transformed into an advanced high school. If anything, an effort should be made to raise its reputation as an engineering center."

Kent Gastreich

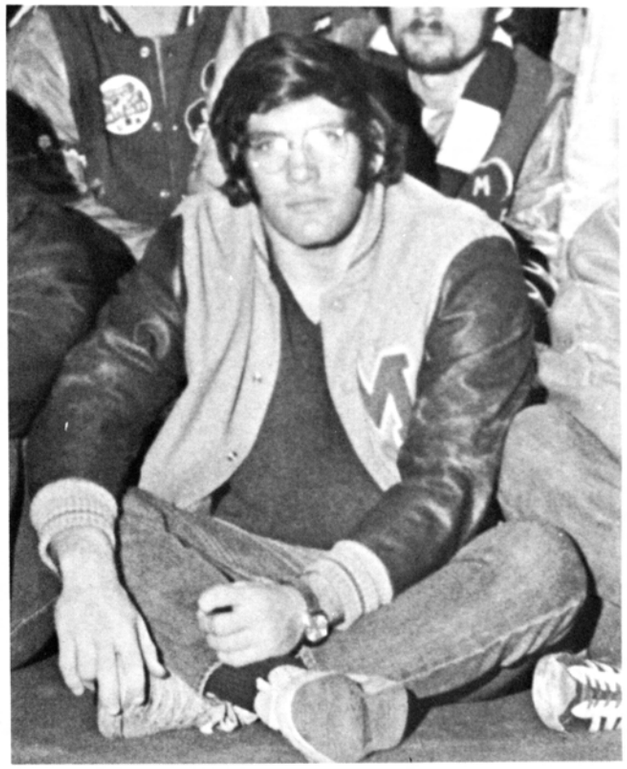

"Rolla---A Unique Experience."
Charles Flaminio

"To all the people who have said to me; I know why you're at Rolla- all those boys!; here's my answer: Success at UMR isn't measured by the number of dates one has; what makes for happiness here is the same for girls as well as guys-friends, hard work, and involvement."
Sue Hadley

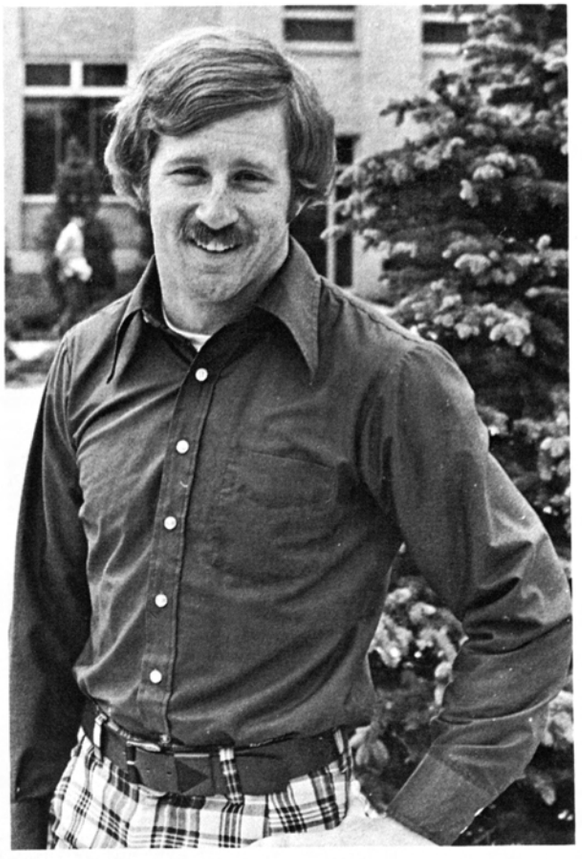

"UMR is a unique school. It holds opportunities for anyone willing to accept the responsibilities and challenges that go along with them. As a student athlete, UMR gave me the chance to participate and excel in sports, while receiving a quality education and participating in extracurricular activities as well."

J. Gary McAlpin

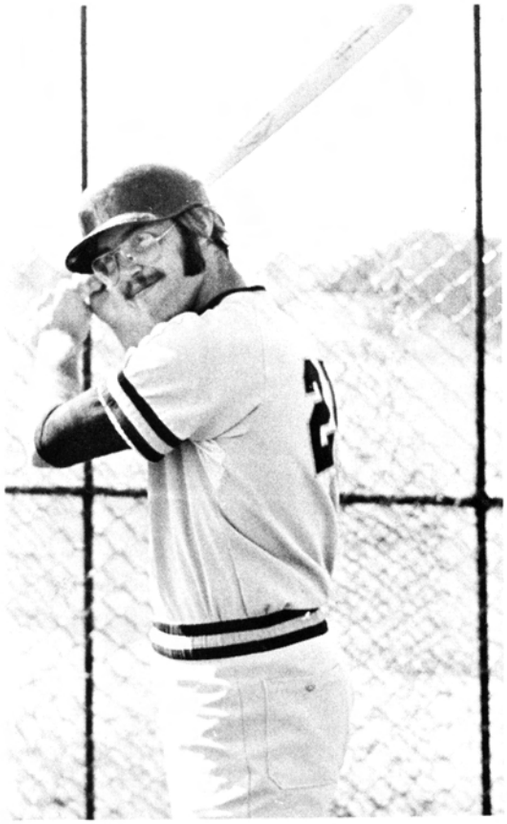

"With the exception of a comparable social atmosphere, UMR has a lot to offer the person who is willing to devote the necessary time and energy. Organizations, academics, and athletics afford the student a chance to participate in nearly anything he/she want to do."

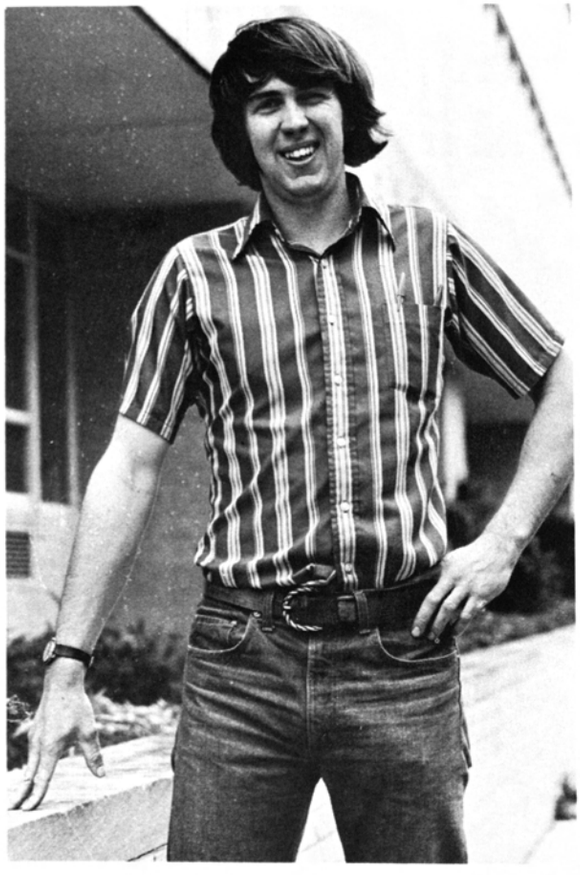

Daniel Cartwright

"On this campus we live a surrealistic life in the sense that we are sheltered from numerous responsibilities and conflicts that we would undergo in the professional world. The Greek system is advantageous in the sense that it INITIATES our endoctrination in handling these same responsibilities and conflicts."

Mark Smith

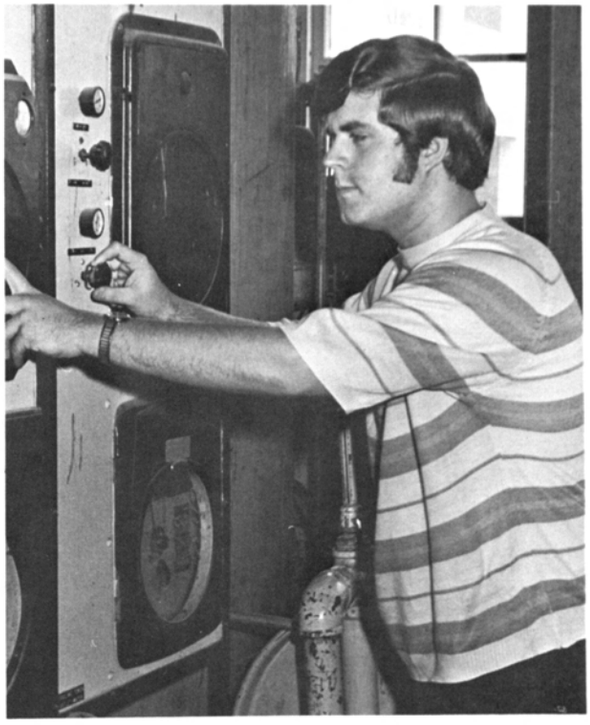

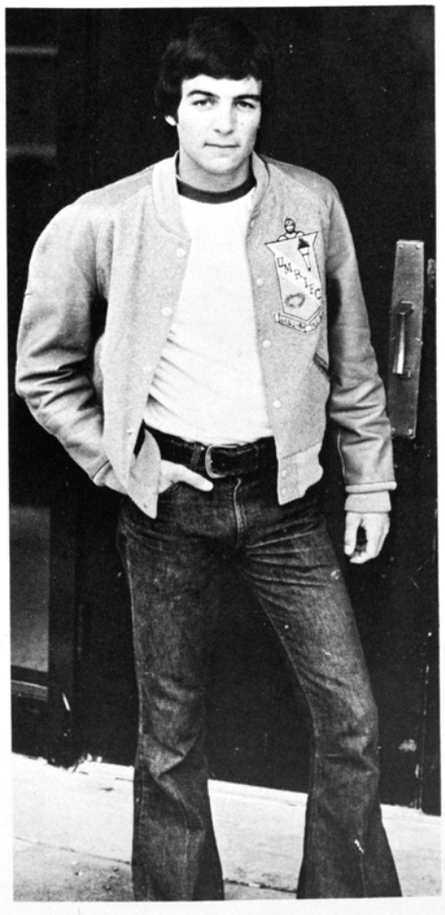

"You only get out of an education what you put into it. Engineering for the most part is the application of common sense and a few clever tricks on nature. The only trouble is one must be able to convince us that it is not black magic."

Leonard Laskowski

"Education, in the larger sense of the word, demands the broadening of one's outlook and scope of interests. Thus one's purpose at UMR is not only to learn how to apply scientific principles, but also to learn how to communicate with people. Extracurricular activities provide an excellent opportunity to accomplish the latter. After all, a student is a person who is learning to fulfill all of his powers and then using them in the service on mankind."

Marvin E. Borgmeyer

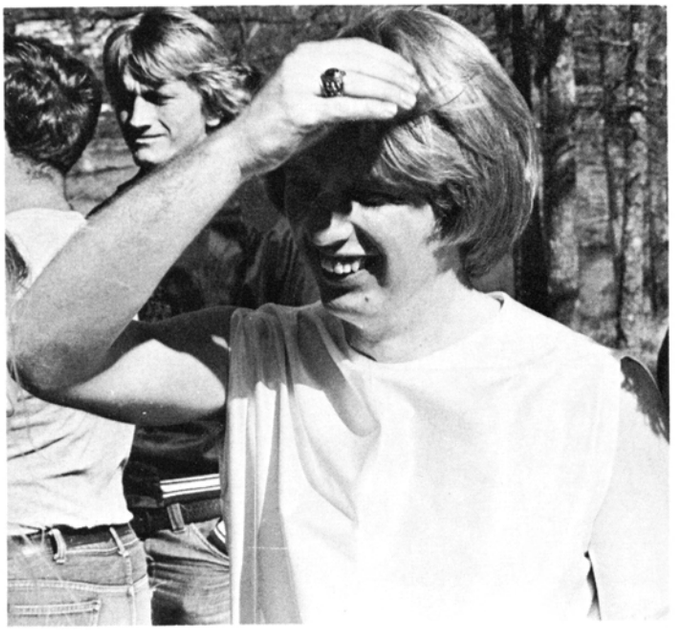

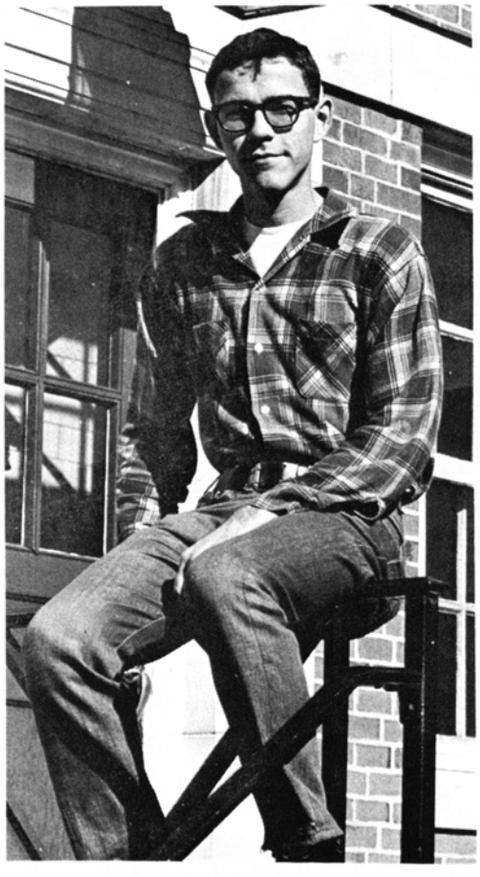

"Many people picture the engineer as a computer grinding out problem solutions and having about as much personality as a computer. Campus activities afford the student as excellent opportunity to mix with people and to develop in ways not found in a textbook."

Mark Weidinger

"My four years at UMR have been very rewarding. If I had to do it over, I would still come to UMR. But I do feel that UMR faces a very serious problem in maintaining a superior faculty. This university has forgotten that its primary purpose is educating individuals, and not research. The present policy of publish or perish has cost UMR several outstanding educators. If UMR is going to attract outstanding educators (people who can communicate their knowledge to others), it must begin to reward these people, both financially and authoritatively.

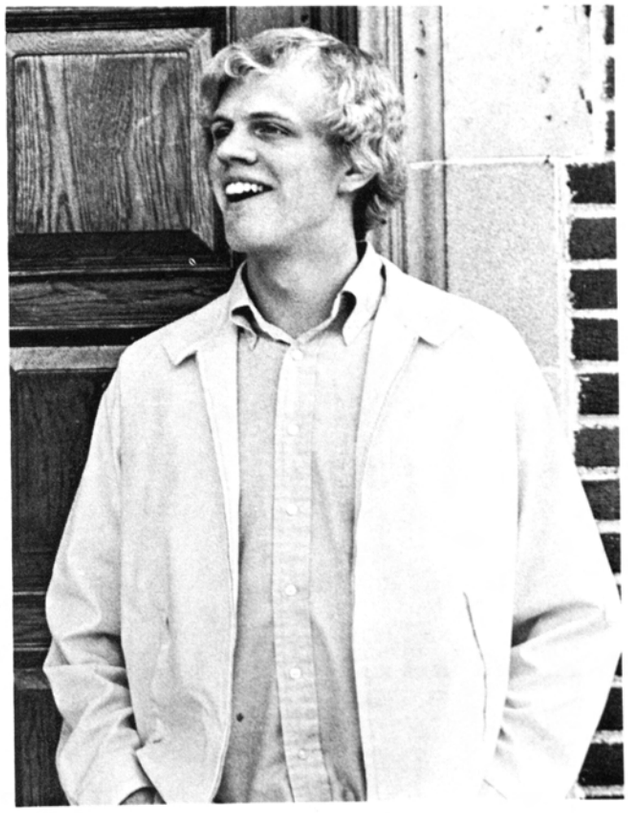

Michael Hurst

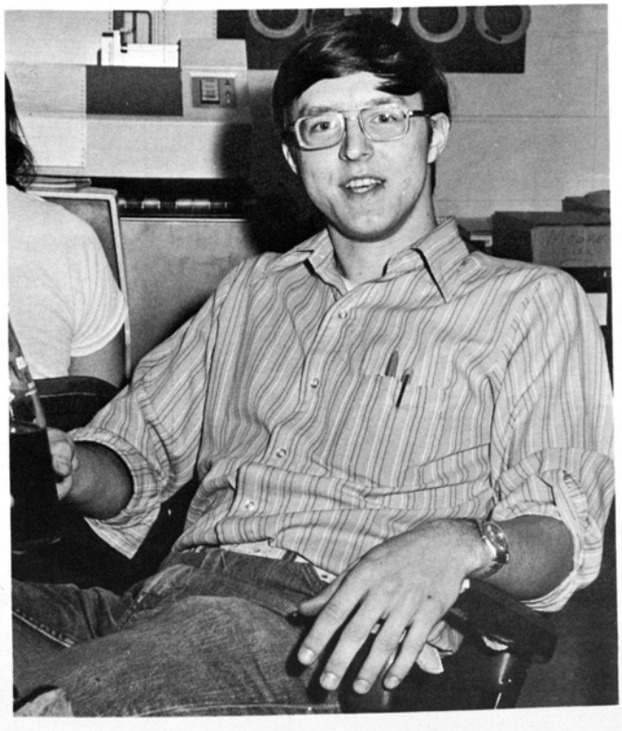

"Worst of all (is) when you are the slave-driver of yourself. . .Public opinion is a weak tyrant compared with our own private opinion. . .Why should we be in such desperate haste to succeed and in such desperate enterprisis?"

(Thoreau)
Alan Kornacki

"Sometimes I think UMR places too much emphasis on conveying knowledge and not enough on developing a student's judgement, integrity, and desire to be the best. I've found that these qualities are usually developed by participation in extracurricular activities and associated experiences in friendship and leadership.

Bob Brennecke

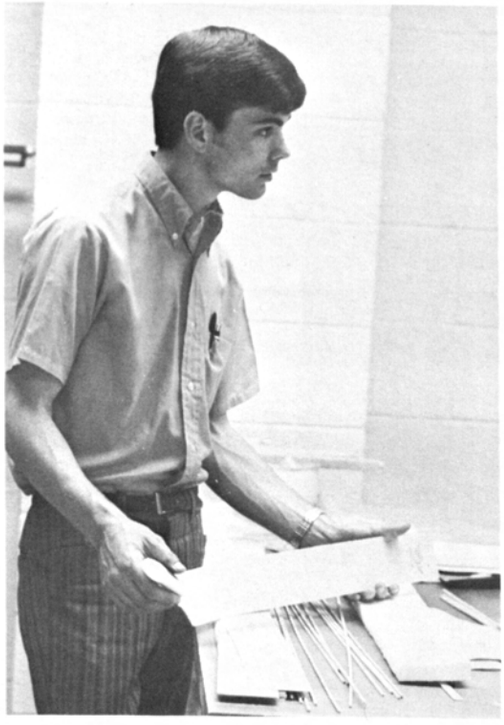

"Too many students come to UMR seeking only an academic education, and that is all they get. They forget that an equally important college goal is the ability to communicate and work with people. This is gained mainly from extracurricular activities, provided the student takes an interest in the activity. If he joins just for a name to add to his resume, he has missed the majority at what he could have gained."

Paul Horstmann

"An education should not consist of the memorization of formulas, algorithms, or definitions, but rather it should consist of learning where to find these tools and how to use them. Possibly the most important skill, without which all these tools are useless, is the ability to communicate effectively. You must be able to get your ideas across to others, and you must also be open to their ideas and suggestions. Communication is the one two-way street too many of us travel blindly in one direction, never knowing the other half of traffic even exists."

Larry B. York

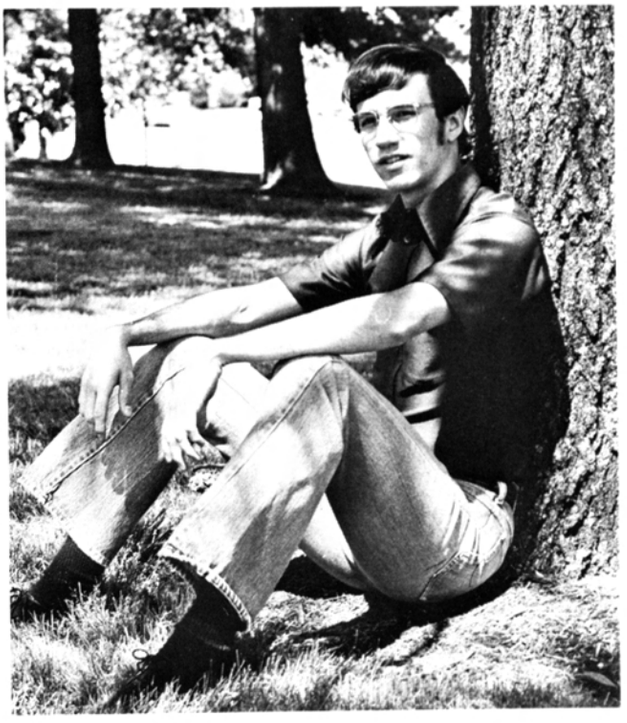

"As the young leaders of America, we college students have the future of the country in our hands. Let's accept the challenge and prove that we can shoulder the burdens placed upon us. Positive attitudes, hard work, intelligent thinking, initiative, and good judgement, these are the tools we have at our disposal. With their use and God's help we can begin to solve our country's problems, from the energy crisis to world peace. It's not an easy task, but we can do it, together."

Michael J. Miller

"Classes and grades are an important factor at any university. But learning to communicate, to work with others, to get along with people, that's what its all about."

Stephen Smith

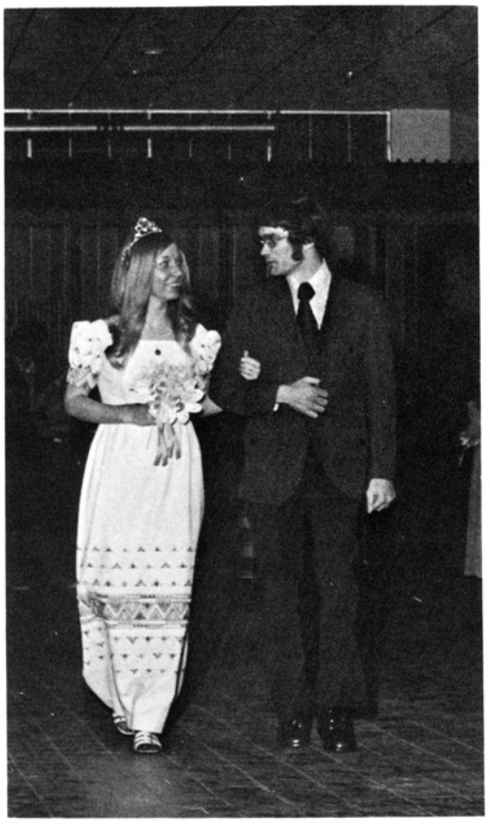

"See the sunlight rise,
Feel it touch the sky.
I want to stay alive
Until the day I die.
I want to celebrate everyday."

"To celebrate life I feel you must give your time and talents to become involved with people. Through the organizations on campus I have learned to accept each person as an individual and to be more tolerant of differing views. The experience of working together effectively has enabled me to communicate better with both men and women. It is this type of education which will be invaluable in my future."

Linda Tevlin

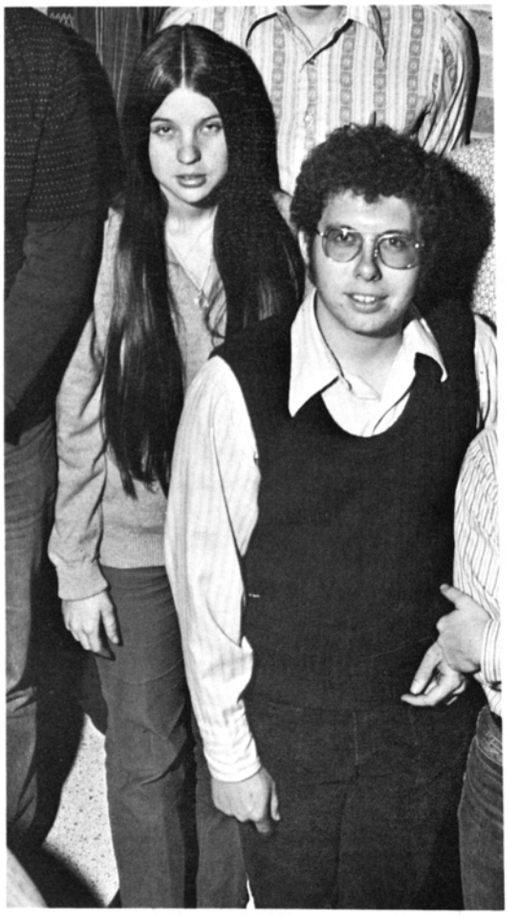

"I guess their are really two things I learned here at the Big University. Only join organizations where you can contribute and the organization in turn helps you. In other words if you get involved in something give a 100%. If you plan to do less get out.

The second is that if you have $10 for graduation and the Registrar's office says ok, then you can graduate. No matter how much work you do, these are the only two requirements to graduate.

I would also like to thank the many people here for their help and for putting up with me.

Any philosophical comments in this statement are purely unintentional."

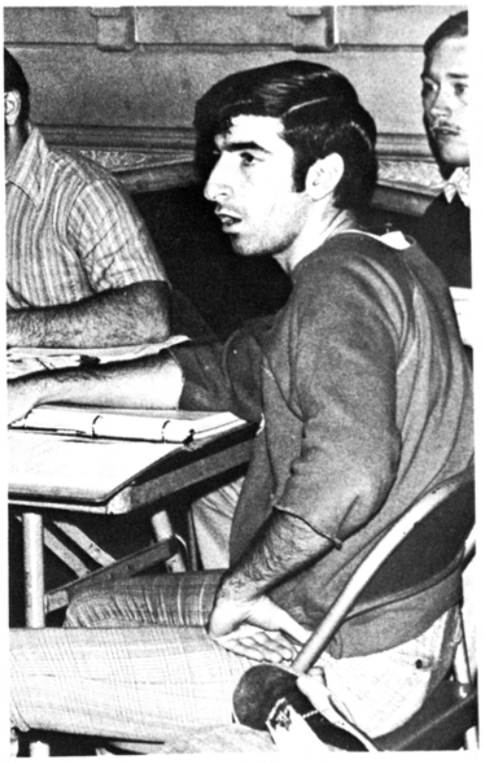

K. Daniel Hinkle

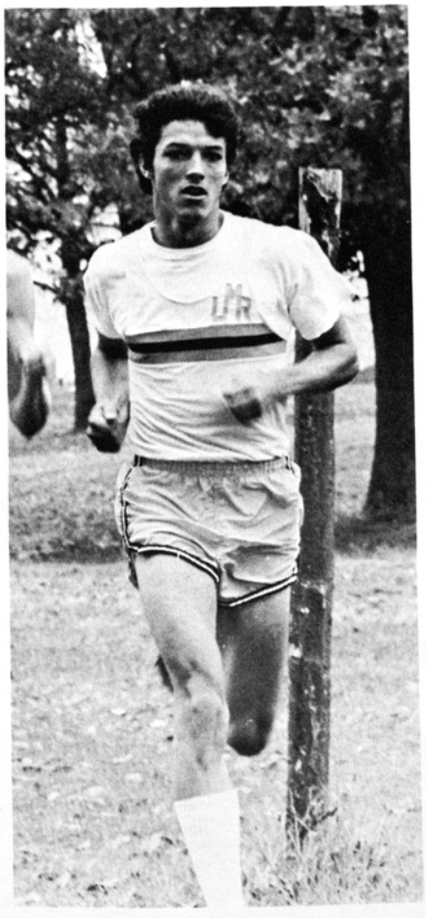

"It's been real. . . ."
Scott (Brillo) Winfield

"I've tried to become involved, work hard and learn as much as I can. As a result college life has been a very rewarding experience. I only regret having to leave the good friends I've made."

Sal Pagano

"As each of us begin our lives anew, we seek to do the best we can and try to achieve our highest goal. Many seem to get lost along the way and appear to loose sight of the aim, or some seem not to have a goal at all. But it's always reassuring to know that no matter how weak or lost we may be, our Lord is confident to give the strength and guidance to reach our goals through every adversity the world can muster. He promises, "Seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you." Matthew 6:33.

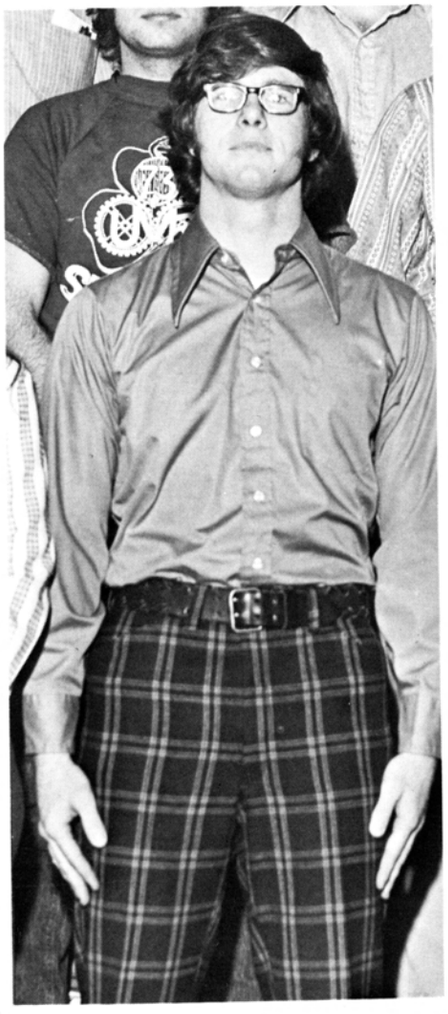

Denny W. Mertz

"I think that organizations you belong to are as important to your education as the classes you attend. Organizations teach you how to work with people."
Amy Strunk

Randy Lang--UMR Intramural Man of the Year

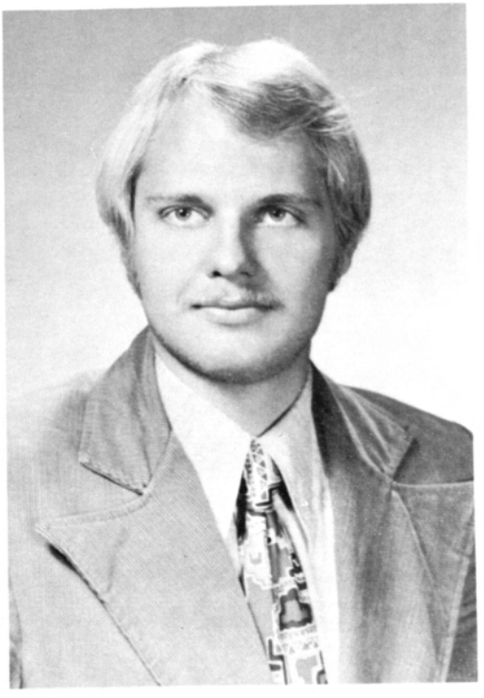

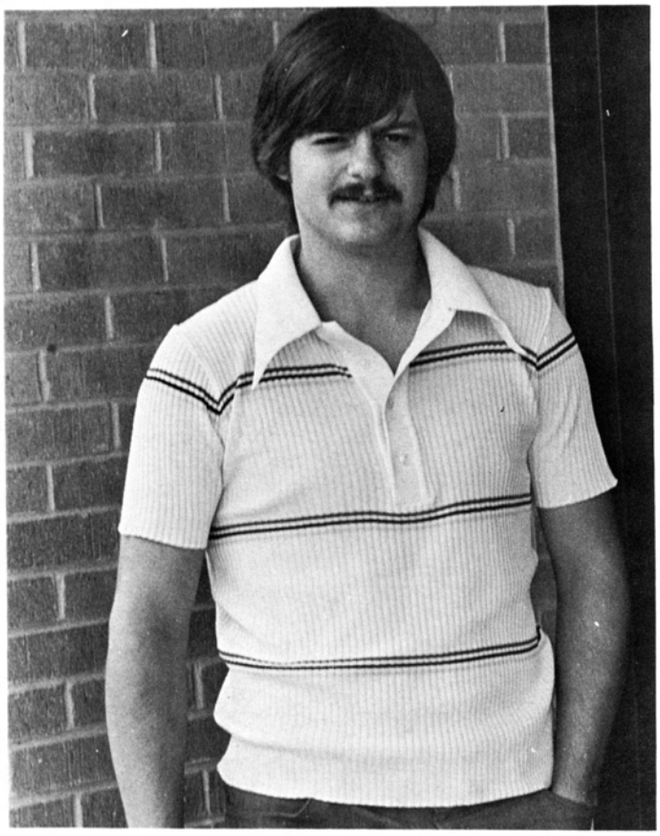

"How can a student find some of his capabilities besides in a classroom? His best chance is to get into extracurricular activities and get involved. It's not like a course required for graduation, but one where your motivation is the starting point."

Mark A. Kassing

"As an undergraduate here at UMR, I have incurred many derivations and problem solving. But one very real problem each of us has to cope with is ourself. I am speaking of finding ones identity, knowing goals, being happy-basically, being able to live with yourself. This peace of mind can be found in Jesus Christ. He says "I am the Way and the Truth and the Life." John 14:6"

Paul E. Pederson

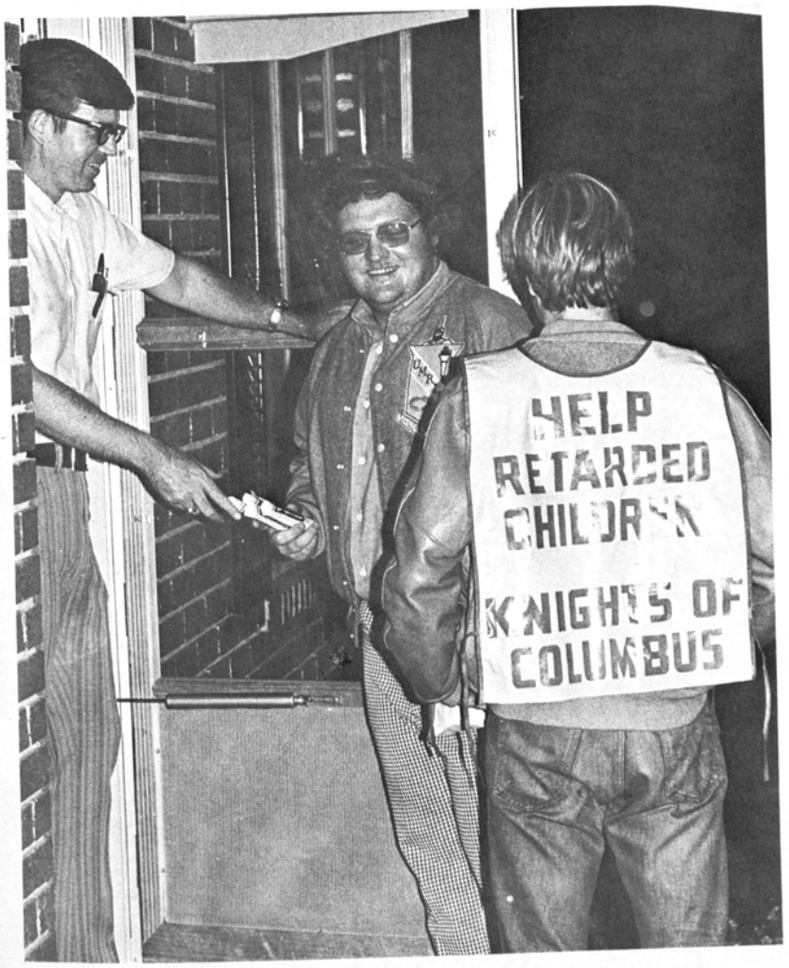

"I found through my experience as a co-op that industry gave more meaning than the word 'education' to the UMR image. That sense of pride will be with me for a life time."

Dave Antal

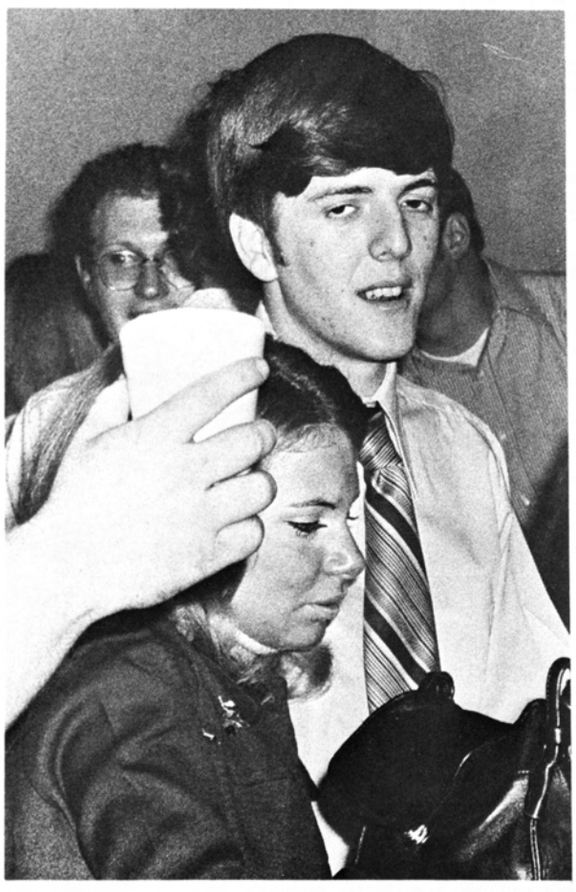

The people cited on the previous seventeen pages were elected to "Who's Who Among Students in American Colleges and Universities". During their years at UMR these people put out that extra effort, became involved, and became leaders on our campus. To some this can mean just as much as a diploma. The number of people awarded this honor is limited, and many deserving people have been left out. We recognize the people in "Who's Who" and others like them. You know who you are.

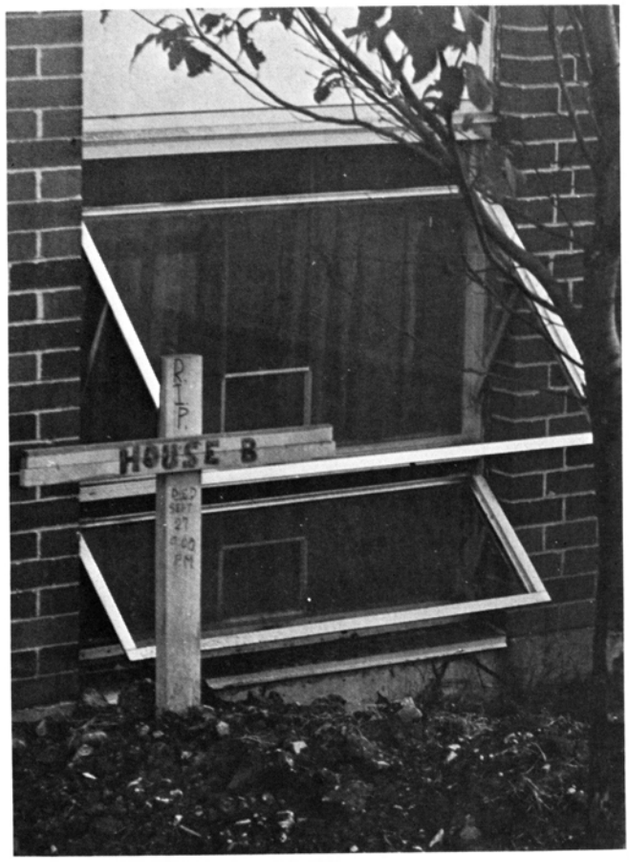

"Veni, Vidi, Vici..."

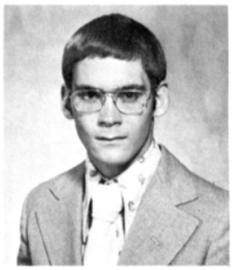

"...I came, I saw,

I conquered."

Phil Yount

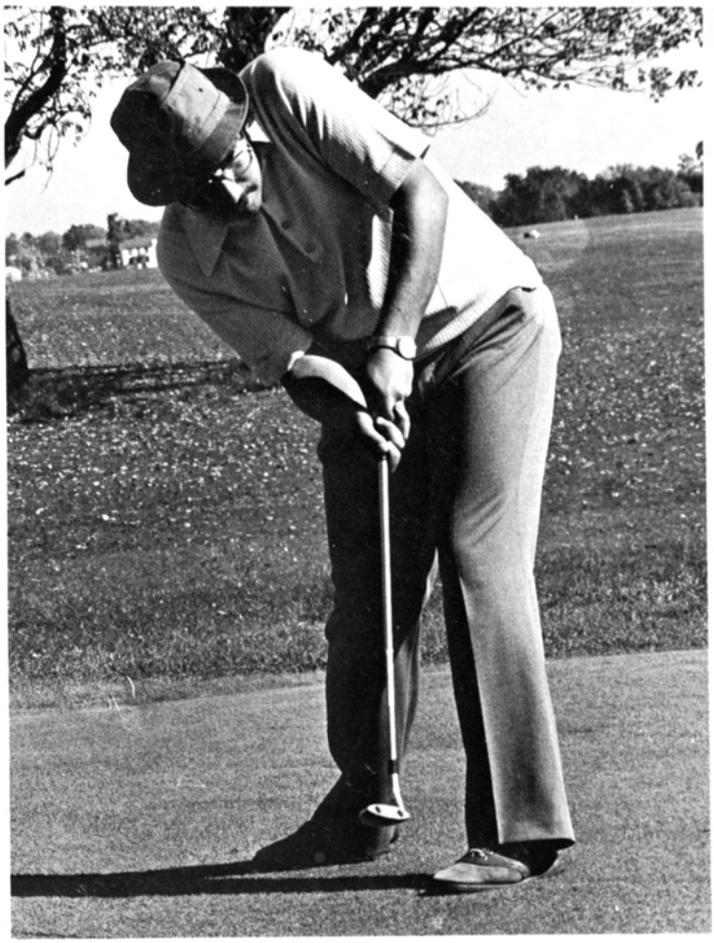

Colophon

Paper ..... 100# Meade Printflex
Body Copy ..... 12 Point Press Roman
Index ..... 6 Point Press Roman
Headings ..... 24 Point Clarendon Bold
Editions ..... 3600 Copies

Editor's Note

The 1974 Rollamo is a student publication of the University of Missouri at Rolla. In this edition the Rollamo Board has tried to capture the highlights of a year, that as students, you created. Prominent events of 1973-1974 were: the searching for a Chancellor, renovation of campus grounds, the shortlived fad of "Streaking", and the "scandles" involving Dr. James P. Wesley and Auxiliary Enterprises.

I owe gratitude to a few special people without whose help the 1974 Rollamo would never have been possible. First of all, a special thanks to our advisor Dr. Lance Williams for his patience and cooperation. Thanks also to Paul Coram from Pischel Yearbooks. Year after year Paul helps the Rollamo Board initiate new ideas in yearbook layout and design. I would also like to acknowledge the work of Ernest Gutierrez, University Photographer, who for the past several years has produced the pictures our photographers were uanble to acquire.

Most of the pictures in this book were taken, developed, and printed by students. I owe a great deal to Nic Neumann who took over as Photo Editor in the middle of the year and assembled the best photography staff the Rollamo has had in years. Thanks also to John Gallagher for his work with color that may soon appear in the Rollamo.

I would like to thank the Rollamo Board for their sincere efforts in producing this book. In particular, I recognize Paula Marcellus as "Editor of the Year" for her outstanding job on the Queens section of this book. I thank Josepi Cappa and Dave Schepers for accepting the job of Sports Editors when the original editor was forced to step down. Also I would like to thank Dave Barczewski, Kathy Beck, Rich Dolan, Mark Dolecki, Patty Kackly, and Lennie Lutz for doing a fine job on their respective sections. I would like to thank the Rollamo editorial staff for their help in distributing the 1973 Rollamo, typing, and assisting the editors.

Being the editor of the 1974 Rollamo has been a very challenging and rewarding experience. It's one that I'll never forget.

Craig Sarkes Korkoian
Editor-in-Chief
